

Experiencing Historical Fiction Graphic Novels to Teach Social Studies: Preservice Teachers Learn Why and How

BARBARA J. McCLANAHAN

SOUTHEASTERN OKLAHOMA STATE UNIVERSITY

A small study was conducted to determine how preservice teachers in a social studies methods class responded to reading an historical fiction graphic novel in an in-class literature circle followed by an authentication project. Role/task sheets, reading journals, and one-on-one interviews provided data. Analysis showed that all participants were successful at some level in navigating the unique aspects of the graphic novel and all felt the graphic novel experience could be successfully translated to their classrooms. Results also suggested that participants with prior experience with graphic novels appeared to have a more positive experience with the project.

While graphic novels of various kinds and sorts have found their way into the hearts of children, young people, librarians, and some teachers over the last two to three decades (Brozo et al., 2014; MacDonald, 2013; Schneider, 2014; Williams & Peterson, 2009), many teachers—and preservice teachers—have been reluctant to consider the benefit of them in their classrooms (Clark, 2013a; Lapp et al., 2011/2012; Laycock, 2019), perhaps most especially in elementary schools (Thompson, 2008). This is unfortunate because graphic novels offer a myriad of benefits to both students and teachers (e.g., Boerman-Cornell, 2016; Hughes et al., 2011; Lawn, 2011; Moeller, 2011; Monnin, 2010; Schwarz, 2010). Researchers have pointed to their successful use with struggling readers (Fenty & Bryden, 2019; Hughes et al., 2011; Smetana, 2010) and emergent bilinguals (Boerman-Cornell et al., 2017; Danzak, 2011; Krashen, 2004; Park, 2016; Rapp, 2011/2012), as well as offering engaging resources for normally progressing readers (Brown, 2013; Carter, 2007; Mathews, 2011). Other researchers have identified how graphic novels can be used to teach literary devices (Dallacqua et al., 2015; Monnin, 2010) and reading strategies, both general and disciplinary (Brozo, 2012, 2013; Brugar et al., 2018; Clark, 2013b; Mathews, 2011).

Youth and Memory in Europe Félix Krawatzek,Nina

Friess,2022-06-06 This volume contends that young individuals across Europe relate to their country s history in complex and often ambivalent ways It pays attention to how both formal education and broader culture communicate ideas about the past and how young people respond to these ideas The studies collected in this volume show that such ideas about the past are central to the formation of the group identities of nations social movements or religious groups Young people express received historical narratives in new potentially subversive ways As young people tend to be more mobile and ready to interrogate their own roots than later generations they selectively privilege certain aspects of their identities and their identification with their family or nation while neglecting others This collection aims to correct the popular misperception that young people are indifferent towards history and prove instead that historical narratives are constitutive to their individual identities and their sense of belonging to something broader than themselves
