Global Issues in the Context of Space Jean Kachiga, 2016-08-24 Global Issues in the Context of Spaces examines globalization using the concept of space to contextualize discussion of global issues The manuscript uses the concept of space to contextualize global issues because spaces are the theater of human activity Global issues result from specific dynamics emerging between people and their activities within specific spaces The growth of population the increase of human activity and the usage of new spaces explain the complexity and challenges of global issues today Global Issues

Shirley A. Fedorak, 2013-11-29 *Global Issues* is a pedagogically rich text that offers a unique way of looking at contemporary issues such as food security and global conflict from a cross cultural and multidisciplinary perspective. By exploring each issue in depth, students gain an applied understanding of more abstract concepts like conflict, globalization, culture, imperialism, human rights, and gender, while the cross cultural approach encourages students to view the world from outside the Western box. Designed for introductory level students in global and international studies, human geography, anthropology, sociology, and development studies, this highly accessible text offers instructors and students a unique way of matching the concepts they learn in the classroom with important issues in the world in which they live and work. Global Challenges for Leviathan

Furio Cerutti, 2008-05-01 The sovereign state created at the onset of modernity can no longer protect us nor future generations from nuclear war and the effects of global warming. Politics now has to cope with the survival of humankind, not just ensure the security of individual nations. Will it fail or succeed? Far from touting easy solutions, this book provides food for thought about the future of state and politics and the meaning of our relationship with posterity. **Understanding the Global Dimensions of Health**

P.B. Mansourian, 2008-02-15 The editor and his contributors are prestigious in the global health community, many holding positions as affiliated with the World Health Organization. Also Gunn is a head of the Society for Humanitarian Medicine. Will appeal as a high level policy book in public health and health courses. *Wheat ... Yearbook Issue*, 1999

Local Responses To Global Challenges In Southeast Asia: A Transregional Studies Reader

Claudia Derichs, Andrea Fleschenberg, Lina Knorr, Sumrin Kalia, 2022-10-11 *Local Responses to Global Challenges in Southeast Asia: A Transregional Studies Reader* is a collection of multidisciplinary essays predominantly derived from papers presented at EuroSEAS 2019, the leading academic conference on Southeast Asian Studies hosted by Humboldt University zu Berlin. It brings together a variety of scholars from Southeast Asia, Europe, and North America, allowing for multiple flows and directionalities of knowledge productions and exchanges, be it between the Global South and North as well as within the Global South. The reader presents empirically oriented, theoretically grounded analyses of local responses to global challenges such as knowledge productions, notions and practices of building diverse communities, neo-populisms, and contentious politics, resources, and sustainability, urbanization, labor, livelihoods, and mobilities. Each section starts with an introduction reviewing the state of the art. Authors will take cue from a transregional perspective, understood as a distinct and alternative perspective on multi-lingual and transcultural spaces of contact, exchange, and transfer. This includes a contextualization of phenomena in terms of diverse cross-linkages and entanglements, including mobilities on different scales, i.e. ranging from the local/regional to national and/or global levels. Container-based notions of place and space are addressed in a critical manner, where space and area are understood as notions beyond established systems of ordering and meta-geographies. A key goal is to allow for a consistent conceptual advancement of New Area Studies, which are critical, decentred, decolonial, diversified, and multi-disciplinary in nature.
