Global Network Computers In A Sustainable Society:

   Global Network John Edward Young,1993 Discusses the role of computers in predicting or identifying environmental problems as well as in producing technologies capable of reducing industrial pollution and or preserving ecosystems

   Computers and the Environment: Understanding and Managing their Impacts R. Kuehr,Eric Williams,2012-12-06 Personal computers have made life convenient in many ways but what about their impacts on the environment due to production use and disposal Manufacturing computers requires prodigious quantities of fossil fuels toxic chemicals and water Rapid improvements in performance mean we often buy a new machine every 1 3 years which adds up to mountains of waste computers How should societies respond to manage these environmental impacts This volume addresses the environmental impacts and management of computers through a set of analyses on issues ranging from environmental assessment technologies for recycling consumer behaviour strategies of computer manufacturing firms and government policies One conclusion is that extending the lifespan of computers e g through reselling is an environmentally and economically effective strategy that deserves more attention from governments firms and the general public   **Computers in Society** Kathryn Schellenberg,1995-11   **Bridging the Global Digital Divide** Jeffrey James,2003-01-01 According to many observers the global digital divide the extent to which information technology is benefiting developed as opposed to developing countries has already established itself as the single most pervasive theme of the twenty first century The purpose of this book is to explore some of the ways in which this divide can be overcome both within and between nations Employing a rigorous analytical framework the author bases his analysis on the concept of international technological dualism He argues that one possible solution to the problem is the availability of affordable technologies such as low cost computers which are specifically designed for the income levels and socio economic conditions of developing countries He also emphasizes that the most important aim of any policy measure should be to provide universal access to information technologies rather than individual ownership Depending on whether or not this divide can be bridged will to a large degree determine whether developing countries are able to attain higher levels of productivity prosperity and global integration   **The Sustainable City V** A. Gospodini,C. A. Brebbia,Enzo Tiezzi,2008 of the present without compromising the ability of future generations to meet their own needs In The Sustainable City V many interrelated aspects of the urban environment from transport and mobility to social exclusions and crime prevention are addressed The papers included were originally presented at the Fifth International Conference on Urban Regeneration and Sustainability and will be of interest to city planners architects environmental engineers and all academics professionals and practitioners working in the wide range of disciplines associated with creating a viable urban environment In this book the papers are published under the following topics Architectural issues Cultural heritage Energy resources systems Environmental management Healthy cities Indicators ecological economic social Land use and management Mega cities Planning issues Planning development and management

Public safety Revitalisation strategies Socio economic issues Spatial modelling Strategy Sustainable transportation and transport integration The community and the city Traffic and transportation Urban rural relationships **Cyberprotest** Jenny Pickerill,2013-07-19 Uses case studies and voices of activists themselves to examine the role of the internet at all levels of environmental activism Contemporary analysis of forms and processes of radical environmental activism Contemporary analysis of forms and processes of radical environmental activism Documents the negotiations and achievements of environmentalists both in dealing with the tensions of using environmentally damaging technology and in avoiding surveillance and counter strategies Will be of interest to students and academics of politics sociology environmental studies and anyone who has ever wondered if signing an email petition will make a difference *Cyberimperialism?* Bosah Ebo,2000-11-30 This collection of essays addresses whether all nations will actively participate in building the information superhighway or whether the Internet will reflect global technological inequalities The writings are grouped in four major sections which examine theoretical issues on cyberglobalization politics in the electronic global village global economic issues in cyberspace and national identities and grassroots movements in cyberspace Contributing scholars represent a wide spectrum of disciplines from political science economics and communications to sociology anthropology and philosophy A number of methodological and theoretical perspectives direct the writings Collectively the essays point toward an emerging technology that exhibits innate qualities characteristic of the classic notion of cultural imperialism This edited collection with its timely approach to the implications of the Internet for global relations will appeal to communication sociology and political science scholars The interdisciplinary approach will also attract students and educators from such fields as anthropology philosophy and economics To aid in further research select bibliographies follow each essay **Energy, Society and Environment** David Elliott,2004-03-01 Society s use of energy and technology is at heart of many of the most significant environmental problems of recent years including problems of health global warming and acid rain Use of technology has been a major cause of environmental problems but new technology offers many solutions Energy Society and Environment is an introduction to energy and energy use and the interactions between technology society and the environment The book is clearly structured to examine key environmental issues and the harmful impacts of energy use new technological solutions to environmental problems implementation of possible solutions implications for society in developing a sustainable approach to energy use Social processes and strategic solutions to problems are located within a clear technological context with topical case studies and informative diagrams illustrating key issues Energy Society and Environment examines the potential and limits of technical solutions to environmental problems and suggests the social economic and political changes necessary to avoid serious environmental damage in the future **Empires of Speed** Robert Hassan,2009 The beginning of the 21st century is witnessing the emergence of a social political and technological revolution in networked computing We now live in a networked society but it functions and develops at such an accelerating rate that it becomes increasingly difficult to

adequately understand the nature of this radical society Empires of Speed is the first book to analyse the far reaching transformations of speed filled everyday life In a compelling study Hassan shows that we are leaving behind a modern world based upon the time of the clock and are entering a new and volatile phase where an accelerating network time poses fundamental economic and political challenges in our postmodern world challenges we barely comprehend and are thus woefully unprepared for **New at the Energy Library** Energy Library,1991 Vanishing Borders Hilary French,2013-11-05 National governments are ill equipped for tackling transnational environmental problems from ozone depletion to soaring trade in commodities like timber and shrimp As these issues climb higher on the political agenda industrial and developing countries are on a collision course over climate change and water shortages Goods money microbes pollution people and ideas are crossing global boundaries evermore frequently The implications for our future and for the health of the planet are profound This text describes what we need to do to cope with the challenge **Culture and Politics in the Information Age** Frank Webster,2002-01-04 This volume addresses these key issues through an analysis of important theoretical debates on issues such as digital democracy cultural politics and transnational communities Featuring contributors from both sides of the Atlantic the book contains a series of case studies on new social movements including campaigns on the environment gender animal rights and human rights It combines cutting edge research with theoretical material and makes an important contribution to this highly topical and rapidly growing area This book will be invaluable reading for students in areas including Politics Communications and IT Sociology and Cultural Studies **Strange Horizons Retrospective** William Van Winkle,2011-01-09 Robotic implants and augmented reality Wearable computing and toxic PC manufacturing For five years writing across the dot com boom and bust William Van Winkle syndicated a column on cutting edge technologies and their intersection with people and society Now he s updated those columns looking at past issues and insights through the eyes of an internationally read journalist *Cultures of Peace* Elise Boulding,2000-05-01 Renowned sociologist Elise Boulding offers an eminent collection of essays that emphasizes her study of civil society over the past fifty years While most media and academic attention focuses on the extreme violence in today s society Elise Boulding notes an equally significant presence of cultures and societies of peace Here in a volume that represents a life s work she revisits her theme of the connection among family community and government and offers enriching perspectives and advice on how to fuel the process of peace Boulding examines structural violence in terms of the major institutional obstacles to a more peaceful future the tension between the states and the people trapped inside them the tension between the techno sphere and the biosphere and between global systems and local know how She describes social movements around the world that are developing alternative ways of handling the great diversity of human biospheric needs on the planet In addition Boulding brings together her experiences to empower the peace building activities if we are to do better in the twenty first century than we have done in the twentieth century Provided by publisher **Graph Theoretic Approaches for Analyzing**

Large-Scale Social Networks Meghanathan, Natarajan,2017-07-13 Social network analysis has created novel opportunities within the field of data science The complexity of these networks requires new techniques to optimize the extraction of useful information Graph Theoretic Approaches for Analyzing Large Scale Social Networks is a pivotal reference source for the latest academic research on emerging algorithms and methods for the analysis of social networks Highlighting a range of pertinent topics such as influence maximization probabilistic exploration and distributed memory this book is ideally designed for academics graduate students professionals and practitioners actively involved in the field of data science

The Right Not to Use the Internet Dariusz Kloza,Elżbieta Kużelewska,Eva Lievens,Valerie Verdoodt,2025-04-24 This pioneering collection addresses the prospective fundamental human right not to use the Internet and the challenges that the non use of the Internet poses for democracy As the Internet has increasingly ceased to be a mere option and rather turned into a de facto obligation for anyone who exercises their rights or fulfils duties these developments bring about profound ramifications for the very existence and the functioning of democracy and therefore merit a critical reflection With contributors from academia and legal practice from all over Europe this edited volume offers timely critical analysis of the right not to use of the Internet at times supplemented with policy advice and postulates for law reform This book is of key interest to scholars and students of predominantly law political science and philosophy as well as to policymakers judges and nongovernmental organisations at national supranational and international levels The Open Access version of this book available at www taylorfrancis com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license   *In the Net* James Walch,1999 2 Going for IT   **Adaptive Management** James Oglethorpe,2002 This report examines the importance of Adaptive Management in promoting sustainable use A wide variety of papers selected from two major conferences on Adaptive Management are presented   The New Writing Environment Mike Sharples,Thea van der Geest,2012-12-06 Information technology is changing the way we write Special features such as outliners spelling checkers and graphic facilities have transformed word processors into document processors document processors have in turn integrated with other electronic resources such as e mail and the Internet to provide a complete writing environment The New Writing Environment examines the knowledge that is needed in order to develop use and evaluate computer based writing environments The emphasis is firmly on practical issues tasks performed by writers at work problems they encounter and documents they actually produce Writing is defined within a wide social and organisational context in order to give an accurate assessment of how the new technology affects the social and cooperative aspects of authorship The result is a wide ranging and comprehensive assessment of the relationship between writing and computers

Global Networks Linda Marie Harasim,1993 Global Networks takes up the host of issues raised by the new networking technology that now links individuals groups and organizations in different countries and on different continents The 21 contributions focus on the implementation applications and impact of computer mediated communication in a global context

Global Network Computers In A Sustainable Society: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoovers "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Global Network Computers In A Sustainable Society : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Global Network Computers In A Sustainable Society : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
