Global Society in Transition: An International Politics Reader Daniel N. Nelson, Laura Neack, 2002-05-13 International Politics A Journal of Transnational Issues and Global Problems has since 1997 published an extraordinary array of path breaking analyses about the world's political metamorphosis Featuring scholarship that transcends boundaries of states and disciplines International Politics editors and contributors have joined to assemble from the journal's last few volumes a far reaching portrait of new actors identities norms and institutions that populate a stage once confined to states power and national interests Further interventions to build states make or keep the peace impose sanctions or save currencies are examined as are the institutional enlargements at the forefront of policy in Europe This book offers a wealth of policy relevant scholarship about a world in making not yet detached from Cold War or even Westphalian roots but certainly in process towards a qualitatively different global system All published after rigorous peer review chapters in Global Society in Transition will provide comparative politics international relations and world affairs courses at undergraduate and graduate level with instant access to the best of new research and innovative thinking in these fields

Facebook Society Roberto Simanowski, 2018-07-17 Facebook claims that it is building a global community Whether this sounds utopian dystopian or simply self promotional there is no denying that social media platforms have altered social interaction political life and outlooks on the world even for people who do not regularly use them In this book Roberto Simanowski takes Facebook as a starting point to investigate our social media society and its insidious consequences for our concept of the self Simanowski contends that while they are often denounced as outlets for narcissism and self branding social networks and the practices they cultivate in fact remake the self in their image Sharing is the outsourcing of one's experiences encouraging unreflective self narration rather than conscious self determination Instead of experiencing the present we are stuck ceaselessly documenting and archiving it We let our lives become episodic autobiographies whose real author is the algorithm lurking behind the interface As we go about accumulating more material for the platform to arrange for us our sense of self becomes diminished and Facebook shapes a subject who no longer minds Social media companies relentless pursuit of personal data for advertising purposes presents users with increasingly targeted customized information attenuating cultural memory and fracturing collective identity Presenting a creative philosophically informed perspective that speaks candidly to a shared reality Facebook Society asks us to come to terms with the networked world for our own sake and for all those with whom we share it

Overcoming the Corruption Conundrum in Africa Anzanilufuno Munyai, 2020-01-15 This book adopts a holistic approach to identifying what could be done to surmount the corruption conundrum in the African continent. It acknowledges the objective reality of corruption in Africa and identifies primary solutions to the issue. The volume takes a socio-legal approach in order to reveal the nature and extent of corruption and suggests that solutions can be found simply by interrogating how society reacts to it. In conjunction with this, the book identifies and critiques constraints in the formation of a definitive definition of corruption. As shown here, although it is critical for African states to develop anti-corruption strategies, the solution to the problem requires an understanding of the significance of political will and how the lack thereof has led to the endurance of corruption in Africa.

Mercenaries in Asymmetric Conflicts Scott Fitzsimmons, 2013 Fitzsimmons argues that small mercenary groups must maintain a superior culture to successfully engage and defeat larger and better equipped opponents.

Captured by Evil Laura S. Underkuffler, 2013-05-21 One of the most powerful words in the English language, corruption is also one of the most troubled concepts in law. According to Laura Underkuffler, it is a concept based on religiously revealed ideas of good and evil. But the notion of corruption defies the ordinary categories by which law defines crimes: categories that punish acts, not character, and that eschew punishment on the basis of religion and emotion. Drawing on contemporary examples including former assemblywoman Diane Gordon and former governor Rod Blagojevich, this book explores the implications and dangers of maintaining such an archaic concept at the heart of criminal law.

Maritime Security Cooperation in the Gulf of Guinea Kamal-Deen Ali, 2015-07-28 In *Maritime Security Cooperation in the Gulf of Guinea: Prospects and Challenges*, Kamal Deen Ali provides ground-breaking analyses of the maritime security situation in the Gulf of Guinea and its implications for shipping, energy, security, sustainable fisheries, as well as national and regional security. The book juxtaposes the growing strategic importance of the Gulf of Guinea against the rising insecurity in the maritime domain, especially from piracy. Ali points out key gaps in prevailing regional and international approaches to maritime security cooperation in the Gulf of Guinea and sets out several suggestions for combating piracy as well as other maritime security threats while effectively enhancing maritime security cooperation in the region.

Piracy, Maritime Terrorism and Securing the Malacca Straits Graham Gerard Ong-Webb, 2006-11-07 Maritime piracy continues to persist as a significant phenomenon, manifesting a range of social, historical, geo-political, security and economic issues. Today the waters of Southeast Asia serve as the dominant region for the occurrence of piracy and the challenges it poses to regional security and Malacca
