McFaul, 2011-10-11 In the long trek of human history the adage that there will never be peace among the nations until there is peace among the religions has never been truer The growing trend toward spiritually inspired violence throughout the emerging global village of the twenty first century has taken a terrible toll on the lives of thousands of innocent victims The primary purpose of this book is to address this issue head on by examining the role that the earth's diverse faith communities can play in stopping the needless hatreds and hostilities that all too often arise from the search for spiritual fulfillment At this stage of human evolution nothing is more urgent *Gods in the Global Village* Lester R. Kurtz, 2007 Publisher Description *Popular Culture in a New Age* Marshall Fishwick, 2014-06-11 With a Foreword by Dr Fishwick's student Tom Wolfe This book redefines popular culture in the light of the revolutionary changes brought about by the information revolution and the digital divide It explores the phenomenal growth and extension of popular culture in the last decade and ties in the vast changes brought about by technology and the Internet In an era when American television and the Internet reach virtually every corner of the globe Popular Culture in a New Age shows how the poorly understood and often underestimated area known as popular culture affects all of our lives Beginning with an evaluation of the millennium celebrations and the enormous error of Y2K madness Popular Culture in a New Age then moves on to the New Gold Rush brought about by technology and takes a hard look at its risks The book examines a wide variety of pop culture phenomena such as carnivals celebrities and the road from nineteenth century humbuggery P T Barnum's term to today's hype In Popular Culture in a New Age you'll learn about the three faces of popular culture folk fake and pop how they relate and how they differ today's popular icons the empire of Disney World Marshall McLuhan our era's most profound and shocking electronic thinker African American popular culture and style Popular Culture in a New Age gives characterization to the postmodern world in a chapter on postmodern pop followed by the shift from civil religion to civil disobedience and the myth of success This insightful book will help you understand the way we eat think vote and respond to our fast changing world in the era of hype spin doctors chat rooms and jargon [The Global Village Myth](#) Patrick Porter, 2015-02-27 According to security elites revolutions in information transport and weapons technologies have shrunk the world leaving the United States and its allies more vulnerable than ever to violent threats like terrorism or cyberwar As a result they practice responses driven by fear theories of falling dominoes hysteria in place of sober debate and an embrace of preemptive war to tame a chaotic world Patrick Porter challenges these ideas In The Global

Village Myth he disputes globalism's claims and the outcomes that so often waste blood and treasure in the pursuit of an unattainable total security Porter reexamines the notion of the endangered global village by examining Al Qaeda's global guerilla movement military tensions in the Taiwan Strait and drones and cyberwar two technologies often used by globalists to support their views His critique exposes the folly of disastrous wars and the loss of civil liberties resulting from the globalist enterprise Showing that technology expands rather than shrinks strategic space Porter offers an alternative outlook to lead policymakers toward more sensible responses and a wiser more sustainable grand strategy The Global Village Ray Broadus Browne, Marshall William Fishwick, 1999 Offers 15 essays discussing the meaning of Marshall McLuhan's global village in a world witnessing explosive forces of individualism tribalism and nationalism Topics include lessons from the Blackburg electronic village MTV's global footprint missionaries in a global village and the Swedish raggare subculture Includes bandw photos No index Paper edition 772 1 24 95 Annotation copyrighted by Book News Inc Portland OR

Television Dramas and the Global Village Carolyn A. Lin, Diana I. Ríos, 2021-10-18 This book discusses the role of television drama series on a global scale analyzing these dramas across the Americas Europe Asia Australia and Africa Contributors consider the role of television dramas as economically valuable cultural products and with their depictions of gender roles sexualities race cultural values political systems and religious beliefs as they analyze how these programs allow us to indulge our innate desire to share human narratives in a way that binds us together and encourages audiences to persevere as a community on a global scale Contributors also go on to explore the role of television dramas as a medium that indulges fantasies and escapism and reckons with reality as it allows audiences to experience emotions of happiness sorrow fear and outrage in both realistic and fantastical scenarios *Culture Wars and the Global Village* Carleton S.

Coon, 2011-04-04 Why is there so much conflict in the Balkans the Middle East Africa and many other parts of the world Is there something innate in human nature that makes it next to impossible to achieve peaceful coexistence The answer says career diplomat Carl Coon must be sought in the distant prehistoric past when intergroup hostility became ingrained as a pattern of cultural evolution For thousands of generations our ancestors organised themselves in distinctive groups that competed with one another Sometimes the competition was peaceful but more often than not the struggle took violent forms Today we still witness the vestiges of these prehistoric roots when the intermingling of different ways of life results not in harmonious co operation but in animosity conflict and violence Coon suggests that we have recently embarked on a new phase of cultural evolution one comparable in importance to the dawn of the Neolithic when our forebears graduated from a hunter gatherer way of life to agriculture and animal husbandry At that time many diverse cultural groups were subsumed by larger better organised groups whose talent for organisation was necessary to manage the complexities of a new agricultural and technologically more sophisticated society Today this process has reached its culmination with organisation established on a world wide scale and societies becoming ever more multicultural With the emergence of the global village the world is

experiencing the natural atavistic impulse toward violence in certain parts of the globe just as the mechanisms and technology are being put in place to further intercultural co operation The challenge for enlightened men and women in contemporary society says Coon is to realise that cultural conflicts are an inevitable result of our evolutionary heritage to use this insight to help manage the transition to a new global society and then to focus in a co operative fashion on the new global priorities of environmental preservation and the promotion of an equitable prosperous and peaceful world community
