Globalization And Armed Conflict:

Globalization and Armed Conflict Gerald Schneider, Katherine Barbieri, Nils Petter Gleditsch, 2003 Shows that expanding commercial ties between states pacifies some but not necessarily all political relationships **Globalization, Armed Conflicts and Security** Alessandro Gobbicchi, Centro militare di studi strategici (Italy), 2004 **Globalization and Challenges to Building Peace** Ashok Swain, Ramses Amer, Joakim Öjendal, 2007-12-01 Although globalization creates new wealth and encourages technological innovations it has also failed to support and promote sustainable human development and thus can be accused of generating anguish and deprivation This has already resulted in growing civil unrest and in some cases contributed to armed conflicts in the developing world However peace and conflict research has hitherto somehow overlooked the influence of increasing globalization on the formation and management of such emerging conflicts This impressive edited volume asks the question what concrete measures exist which can be effective in addressing the causes of conflict and building peace in an increasingly interdependent world *Economic Liberalization and Political Violence* Francisco Gutiérrez Sanín, Gerd Schönwälder, 2010-09-15 Globalisation has spread neoliberal political economies worldwide but is the globalising of this economic system a tool for spreading peace and prosperity or a harbinger of conflict and war The authors examine the effect of neoliberalism on violent conflict and war making in Sudan the Ivory Coast Peru and Colombia Through quantitative and qualitative analyses they challenge advocates and opponents of neo liberal reforms revealing that the shift to neoliberal policies has produced widely diverging outcomes in different contexts proving that the notion of global neoliberal homogeneity is flawed **Globalization and Development Volume I** Shigeru Thomas Otsubo, 2015-08-27 Globalization and Development is a cross national study on the interstate dispersion of the impacts on growth inequality and poverty that international economic integration provides to the economies of the developing countries In order to present the Leading Issues in Development with Globalization in a balanced manner to identify differences and commonalities among Country Experiences in development with globalization and to introduce diversified development paradigms with forward looking discussions In Search of a New Development Paradigm for the post MDGs era this publication consists of three volumes and four main parts Volume I Part I introduces the evolution and facets of globalization and the challenges that we face in our development efforts under globalization Findings from the old and new empirical studies are consolidated for us to answer the following question What do we really know about the impacts of globalization Volume I Part II contains thematic and issue oriented discussions on the key facets of globalization This book intends to serve as a unique and comprehensive guide for those in the international development community on the subjects of diversified development paradigms paths under globalization and other challenges in the post MDGs era **Globalisation and Local Conflicts in Africa and Asia** Yukiko Nishikawa, 2022-03-21 This edited book is written by six authors from Asia and Africa The individual authors focus on their own country's case or cases that they have been working on The book features local

conflicts in six countries in Asia and Africa and identifies how the local conflicts are affected by the forces of globalization. Cases include Nigeria's oil related conflicts, the Democratic Republic of Congo's timber conflicts, continuing instability in Mozambique, Thailand's conflict with regard to AIDS medicine, Myanmar's local conflicts after its reforms and the Afghanistan's conflicts over minerals. From these diverse case studies, the book examines how globalization and international politics affect local politics and conflicts and vice versa. Even seemingly internal conflicts are shown to be significantly influenced by globalization forces and to create new dynamism in local politics. While there are other books that explore globalization and conflicts, many of them are conceptually organized with a small number of case studies. The present volume examines local conflicts in relation to globalization and demonstrates how structural inequality vis a vis weak stateness and statehood are significantly affected by global political economy.

Armed Drones and Globalization in the Asymmetric War on Terror Fred Aja Agwu, 2017-12-06. This book is a critical exploration of the war on terror from the prism of armed drones and globalization. It is particularly focused on the United States' use of the drones and the systemic dysfunctions that globalization has caused to international political economy and national security, creating backlash in which the desirability of globalization is not only increasingly questioned but the resultant dissension about its desirability appears increasingly militating against the international consensus needed to fight the war on terror. To underline the controversial nature of the war on terror and the pragmatic weapon, armed drones, fashioned for its prosecution, some of the elements of this controversy have been interrogated in this book. They include, amongst others, the doubt over whether the war should have been declared in the first place because terrorist attacks hardly meet the United Nations *casus belli*, an armed attack. There are critics as highlighted in this book who believe that the war on terror is not an armed conflict properly so called and thus remains only a law enforcement issue. The United States and all the states taking part in the war on terror are obligated to observe International Humanitarian Law (IHL). It is within this context of IHL that this book appraises the drone as a weapon of engagement, discussing such issues as personality and signature strikes as well as the implications of the deployment of spies as drone strikers rather than the Defence Department members of the U.S. armed forces. This book will be of value to researchers, academics, policymakers, professionals and students in the fields of security studies, terrorism, the law of armed conflict, international humanitarian law and international politics.

Globalization and the National Security State Norrin M.

Ripsman,T.V. Paul,2010-03-18 In the past two decades many have posited a correlation between the spread of globalization and the decline of the nation state In the realm of national security advocates of the globalization thesis have argued that states power has diminished relative to transnational governmental institutions NGOs and transnational capitalism Initially they pointed to declines in both global military spending which has risen dramatically in recent years and interstate war But are these trends really indicative of the decline of nation state s role as a guarantor of national security In *Globalization and the National Security State* T V Paul and Norrin M Ripsman test the proposition against the available evidence and find that

the globalization school has largely gotten it wrong The decline in interstate warfare can largely be attributed to the end of the Cold War not globalization Moreover great powers the US China and Russia continue to pursue traditional nation state strategies Regional security arrangements like the EU and ASEAN have not achieved much and weak states the ones most impacted by the turmoil generated by globalization are far more traditional in their approaches to national security preferring to rely on their own resources rather than those of regional and transnational institutions This is a bold argument and Paul and Ripsman amass a considerable amount of evidence for their claims It cuts against a major movement in international relations scholarship and is sure to generate controversy
