**Where the New World Is** Martyn Bone, 2018-01-15 Where the New World Is assesses how fiction published since 1980 has resituated the U S South globally and how earlier twentieth century writing already had done so in ways traditional southern literary studies tended to ignore Martyn Bone argues that this body of fiction has over the course of some eighty years challenged received readings and understandings of the U S South as a fixed place largely untouched by immigration or even internal migration and economic globalization The writers discussed by Bone emphasize how migration and labor have reconfigured the region's relation to the nation and a range of transnational scales hemispheric Jamaica the Bahamas Haiti transatlantic Black Atlantic Denmark England Mauritania and transpacific global southern Australia China Vietnam Writers under consideration include Zora Neale Hurston Nella Larsen John Oliver Killens Russell Banks Erna Brodber Cynthia Shearer Ha Jin Monique Truong Lan Cao Toni Morrison Peter Matthiessen Dave Eggers and Laila Lalami The book also seeks to resituate southern studies by drawing on theories of scale that originated in human geography In this way Bone also offers a new paradigm in which the U S South is thoroughly engaged with a range of other scales from the local to the global making both literature about the region and southern studies itself truly transnational in scope

Here We May Rest Silvia Giagnoni, 2017-04-01 Hailed as the most restrictive immigration bill in the nation the Beason Hammon Alabama Taxpayer Citizen Protection Act known as HB 56 went into effect in September 2011 Its intent was to create jobs for Alabamians by making the lives of undocumented immigrants in the state impossible so that they would self deport It failed Here We May Rest offers a comprehensive explanation of how and why HB 56 came about and reports on its effects on immigrant communities Author Silvia Giagnoni argues that the legislation was anti immigrant not merely anti illegal immigration as its proponents claimed Building a case against the legalistic framework through which the bill was

promoted Giagnoni dissects the role the media and Fox News specifically played in criminalizing immigrants as well as mainstreaming immigrant haters which created the xenophobic climate that paved the way for the Trump Presidency The new immigrants of Alabama take center stage in the second part of the book reclaiming their role in the cultural social and economic development of the state Giagnoni concludes with an appeal against any form of social segregation because only direct contact massive prolonged equal and intimate as Howard Zinn argued will cure the stereotyping and prejudice that feed ignorance and foster fear

**Nuevo South** Perla M. Guerrero, 2017-11-22 Latinas/os and Asians are rewriting the meaning and history of race in the American South by complicating the black white binary that has frequently defined the region since before the Civil War Arriving in southern communities as migrants or refugees Latinas/os and Asians have experienced both begrudging acceptance and prejudice as their presence confronts and troubles local understandings of race and difference understandings that have deep roots in each community's particular racial history as well as in national fears and anxieties about race Nuevo South offers the first comparative study showing how Latinas/os and Asians are transforming race and place in the contemporary South Integrating political economic and social analysis Perla M Guerrero examines the reception of Vietnamese Cubans and Mexicans in northwestern Arkansas communities that were almost completely white until the mid 1970s She shows how reactions to these refugees and immigrants ranged from reluctant acceptance of Vietnamese as former US allies to rejection of Cubans as communists criminals and homosexuals and Mexicans as illegal aliens who were perceived as invaders when they began to establish roots and became more visible in public spaces Guerrero's research clarifies how social relations are constituted in the labor sphere particularly the poultry industry and reveals the legacies of regional history especially anti Black violence and racial cleansing Nuevo South thus helps us to better understand what constitutes the so called Nuevo South and how historical legacies shape the reception of new people in the region

**Plantation Kingdom** Richard Follett, Sven Beckert, Peter Coclanis, Barbara M. Hahn, 2016-04-01 How global competition brought the plantation kingdom to its knees In 1850 America's plantation economy reigned supreme U.S. cotton dominated world markets and American rice, sugarcane and tobacco grew throughout a vast farming empire that stretched from Maryland to Texas Four million enslaved African Americans toiled the fields producing global commodities that enriched the most powerful class of slaveholders the world had ever known But fifty years later after emancipation demolished the plantation labor system Asian competition flooded world markets with cheap raw materials and free trade eliminated protected markets America's plantations lay in ruins *Plantation Kingdom* traces the rise and fall of America's plantation economy Written by four renowned historians the book demonstrates how an international capitalist system rose out of slave labor, indentured servitude and the mass production of agricultural commodities for world markets Vast estates continued to exist after emancipation but tenancy and sharecropping replaced slavery's work gangs across most of the plantation world Poverty and forced labor haunted the region well into the twentieth century The book explores the importance of slavery to the Old South the astounding profitability of plantation agriculture and the legacy of emancipation It also examines the place of American producers in world markets and considers the impact of globalization and international competition 150 years ago Written for scholars and students alike *Plantation Kingdom* is an accessible and fascinating study
