Globalization Of Japan Japanese Sakoku Mentality And U S Efforts To Open Japan:

Globalization of Japan Mayumi Itoh, 2000 More than a decade ago Japan embarked on the third Kaikoku open door policy with the ultimate goal of internationalization Kokusaika The Japanese government reluctantly took up internationalization under the pressure of foreign governments especially in the United States and Europe however Japan has made only modest progress at a superficial level In Globalization of Japan Mayumi Itoh examines the various aspects of Japan's resistance to internationalization She shows how the opening up of Japan involves not only the accessibility of Japanese markets to foreign goods but also the liberalization of the Japanese psyche from the sakoku secluded nation mentality Itoh unearths the roots of the sakoku mentality and reveals it as the fundamental impediment to Japan's internationalization examining various Japanese sakoku policies She also analyzes the three open door policies that Japan has undertaken in the past and demonstrates how the United States played a crucial role in each one **Japan's Security Relations with China**

Inauspicious Beginnings Université du Québec à Montréal. Centre d'études des politiques étrangères et de sécurité, Raoul-Dandurand Chair of Strategic and Diplomatic Studies, 2004 Inauspicious Beginnings shows that at the end of the Cold War many experts in the international community expected a new world order to emerge in which international security institutions such as the United Nations Security Council and NATO would play a major role in preventing and ending conflicts But while the 1990s proved to be a decade of international insecurity and major humanitarian disasters thus demonstrating the need for a wider and more efficient system of security institutions the principal powers failed to create them Instead the emerging order was marked by the overwhelming power of the United States which under the Bush Sr and Clinton administrations did not see such a system as a necessity The authors detail how the Bush and Clinton administrations relied on catering to allies and building large coalitions to deal with major international security challenges while other principal powers were either pre occupied with their domestic problems or deferred to the United States As a consequence on the eve of 11 September 2001 the United Nations Security Council remained an older outmoded power configuration incapable of responding efficiently to the with novel challenges besetting it Its relevance has been further questioned by the unilateral occupation of Iraq by the United States Theorizing and Analyzing Agency in Second Language Learning Ping

A Trading Nation Michael Hart, 2002 Canada has always been a trading nation From the early days of fur and fish to the present when a remarkable 90 percent of the gross national product is attributable to exports and imports Canadians have relied on international trade to bolster their economy A Trading Nation a brilliantly crafted overview and analysis of the historical foundations of modern Canadian trade policy is the first survey to address the history of Canadian commercial policy in over 50 years Michael Hart skillfully guides readers through more than three centuries of Canadian trade history His engaging narrative explains how Canadians have largely come to accept that a country that derives much of its wealth from international commerce has much to gain from an open well ordered international economy Close attention to trade and related economic policy choices he argues is crucial if Canada intends to adapt to the challenges of the new globalized economy

The Organisational Dynamics of University Reform in Japan Jeremy Breaden, 2012 For several decades internationalisation has been a cornerstone of both Japanese government higher education policy and approaches to reform at an institutional level but Japan has still not managed to lose its reputation as a somewhat reclusive member of the global academic community Consensus on the potential of internationalisation to reinvigorate Japanese higher education is matched by the depth of recognition that universities have to date failed to internationalise successfully This book offers a new approach to Japan's internationalisation conundrum by proceeding from the inside out It presents an extended case study one university organisation that has been changed through its adoption of a radical program of internationalisation Through this case study Jeremy Breaden identifies patterns by which internationalisation is situated in administrative discourse and individual action and determines how these patterns in turn shape organisational practice The result is a multi dimensional narrative of organisational change that advances our understanding of both the dynamics of university reform and the concept of internationalisation one of the most durable yet contentious themes in the study of contemporary Japanese society With detailed analysis and an in depth case study this book will be of interest to students and scholars of Japanese studies sociology and anthropology It will also prove valuable to professionals and policy makers working in higher education both in Japan and around the world

Confronting Environmental Change in East and Southeast Asia Paul G. Harris, 2024-11-01 This is clearly a book with great breadth and diversity a valuable addition to the literature about east and southeast Asia T Forsyth Development Studies Institute London School of Economics and Political Science in Land Degradation and Development As their economies and populations expand almost all Asian countries are experiencing profound ecological problems at the national regional and global level be it air pollution in rapidly growing

cities trans boundary water pollution or climate change While the countries of East and Southeast Asia are the victims of environmental change they are also complicit in causing it at home and abroad As these countries move towards international environmental cooperation a central issue becomes the vital connection between foreign policy and environmental problems Foreign policy is about pursuing and promoting national interests however it is not always clear what a country s national interests are or ought to be particularly with regard to complex international ecological issues On top of this it is almost always debatable how best to promote them Confronting Environmental Change in East and Southeast Asia is a collection of concise hard hitting essays by a group of international experts and scholars that address these complex issues The book takes foreign policy considerations into account in its analyses of how states and other actors in East and Southeast Asia confront environmental change through international cooperation and environmentally sustainable development The first part of the book examines many of the actors institutions and forces shaping environmental diplomacy and foreign policy in East Asia with a focus on China and Japan The second part of the book takes a deeper look at the relationships between ecological politics international relations and environmentally sustainable development in East and Southeast Asia Several chapters in the second part focus on how environmental foreign policies impact countries in the region as they endeavour to implement environmentally sustainable development Together the analysis and case studies in this volume illuminate how environmental change is confronted or not in East and Southeast Asia with a host of important insights for researchers governments policy makers conservationists and business people dealing with the profound environmental problems facing the region
