## **Globalization Of Nothing:**

The Globalization of Nothing 2 George Ritzer, 2007-01-18 The Globalization of Nothing is back in a revised and completely updated edition with an even greater emphasis on the processes of globalization and how they relate to McDonaldization. As before, this book is structured around four sets of concepts addressing the issues of places, non-places, things, non-things, people, non-people, and services, non-services. By drawing upon salient examples from everyday life, George Ritzer invites the reader to examine the nuances of these concepts in conjunction with the paradoxes within the process of the globalization of nothing. Critical questions are raised throughout, and the reader is compelled not only to seek answers to these questions but also to critically evaluate the questions as well as their answers. New to This Edition: Features a greater emphasis on the main topic of globalization. A new first chapter offers an introductory overview of globalization and globalization theory, outlining the unique ways in which these topics are addressed throughout the text. Offers a new way to conceptualize and theorize about globalization. This edition delves into two subprocesses of globalization: glocalization and grobalization. Provides a new way to think about consumer culture and globalization. New material is presented on consumer culture and its globalization, as well as on the role of branding. Uses a nontechnical and accessible style with many global examples. The examples in this book are drawn from everyday life and a global consumer culture that are readily recognizable to students. Shorter and more concise in response to reviewer feedback. Intended Audience: This text can be used in a variety of courses focusing on the principles of sociology, social change, social theory, globalization, consumerism, and the global economy in sociology departments as well as in related courses in departments of political science or economics. Contributor to the SAGE Teaching Innovations and Professional Development Award.

The Globalization of Nothing George Ritzer, 2003-07-17 George Ritzer theorizes in his provocative new book *The Globalization of Nothing* that the grand narrative or social story of this period is a movement from something to nothing. Building on but going beyond his renowned McDonaldization thesis, Ritzer contends that societies around the globe continue to move away from something defined as a social form that is generally indigenously conceived, locally controlled, and rich in distinctive content. He argues that we are moving toward nothing, that which is centrally controlled and conceived and relatively devoid of distinctive substance. It is in the movement toward the globalization of nothing that something is lost. More than likely, that something is an indigenous custom, a local store, a familiar gathering place, or simply personalized interaction. Thus, the central problem in the world today is defined as loss amidst monumental abundance of nothing. *The Globalization of Nothing* takes the subject of globalization in new directions, introducing terms such as grobalization, the growing influence of, for example, American corporations throughout the world. This book is structured around four sets of concepts addressing this issue: places, non-places, things, non-things, people, non-people, and services, non-services. By drawing upon salient examples from everyday life, George Ritzer invites the reader to examine the nuances of these concepts in conjunction with the paradoxes within the process of the

**The Consumption and Representation of Lifestyle Sports** Belinda Wheaton, 2014-06-11 Since their emergence in the 1960s, lifestyle sports also referred to as action sport, extreme sports, adventure sports, have experienced unprecedented growth both in terms of participation and in their increased visibility across public and private space. This book seeks to explore the changing representation and consumption of lifestyle sport in the twenty-first century. The essays, which cover a range of sports and geographical contexts including Brazil, Europe, North America, and Australasia, focus on three themes. First, essays scrutinise aspects of the commercialisation process and impact of the media, reviewing and reconsidering theoretical frameworks to understand these processes. The scholars here emphasise the need to move beyond simplistic understandings of commercialisation as co-option and resistance to capture the complexity and messiness of the process and of the relationships between the cultural industries, participants, and consumers. The second theme examines gender identity and representations, exploring the potential of lifestyle sport to be a politically transformative space in relation to gender, sexuality, and race. The last theme explores new theoretical directions in research on lifestyle sport, including insights from philosophy, sociology, and cultural geography. The themes the monograph addresses are wide-reaching and centrally concerned with the changing meaning of sport and sporting identity in the twenty-first century. This book was previously published as a Special Issue of *Sport in Society*.

Despite this, its conceptual foundations have rarely been explored. This introduction to what Global History is brings together theory and practice with 6 key concepts delivered through 6 accessible case studies. Re-evaluating the central concerns and key approaches in the field, it offers an up-to-date discussion of the foundations of Global History, its guiding questions and principal methods at work. *Doing Global History* offers students valuable insights into the ways general concepts can be used and applied when doing historical research. The 6 concepts—connections, actors, structures, space, time, and transit—and their accompanying examples will not only help readers to get a solid grasp of what global history means but will stimulate further engagement in the field. Wenzlhuemer successfully shows that global history is best considered as a perspective, not a theory or paradigm, and guides the reader through ways it can be used in practice to draw new and exciting conclusions. Tailored for classroom and student use, this book will be invaluable to advanced undergraduates and postgraduates of Global History.      **Diasporic Ruptures** Alireza Asgharzadeh, Erica Lawson, Keyleen U. The volumes critically examine various manifestations of the trend now commonly known as globalization: manifestations that many diasporic communities, immigrants and people from all walks of life experience. They also illuminate recent political, social, economic and technological developments that are taking place in a rapidly changing world. Volume One offers sophisticated insights into the nature of contemporary formations of diasporic life, internationalism and hybrid identities. The volume asks bold questions around what it means to live in constantly shifting boundaries of nationality, identity and citizenship. The type of methodological, discursive and experiential awareness promoted by this work helps us understand how millions of people face the challenge of living in a globalizing world; it also fosters a consciousness of how globalization itself functions differently in different environments. Volume Two see Volume 7 in *Transgressions: Cultural Studies and Education* addresses additional and more nuanced questions around culture, race, sexuality, migration, displacement and resistance. It also explores certain epistemological and methodological fallacies.

regarding conventional articulations of nation state nationalism and the local global nexus The volume seeks to answer questions such as What are the meanings and connotations of displacement in a rapidly globalizing world What are some dilemmas and challenges around notions of cultural hybridity linguistic diversity and a sense of belonging What is the meaning of home in diaspora and the meaning of diaspora at home Together the volumes raise many topics that will be of immense interest to scholars across disciplines and general readers While celebrating the increasing acknowledgment of difference and diversity in recent times this work reminds us of the ongoing ramifications of dominant structures of inequality relations of power and issues of inclusion and exclusion This work offers different ways of thinking writing and talking about globalization and the processes that emerge from it *Contemporary Sociological Theory and Its Classical Roots: The Basics* George Ritzer, 2006-03-03 This text is the teaching solution for instructors who need a brief accessible text for sociological theory An affordable alternative to a standard text this volume still includes a range of pedagogical features it is concise yet comprehensive informative and engaging for a wide range of students *Sociological Abstracts* Leo P.
