Globalization Security And The Nation State Paradigms In Transition:

Globalization, Security, and the Nation State Ersel Aydinli, James N. Rosenau, 2012-02-01 This volume studies the links among the concepts of globalization security and the authority of the nation state drawing attention to why and how these three concepts are interrelated and why they should be studied together Contributors explore the connections between security and global transformations and the corresponding or resulting changes in state structures that emerge Probing and extending existing paradigms the book offers three regional cases studies the periphery states of the Middle East and North Africa the second world states of the Russian Federation and the core states of the European Union It concludes with three chapters that synthesize the above themes to identify corresponding changes in the patterns of international politics

Globalization, Security, and the Nation State Turkey) Conference on Globalization and National Security (2002 : Ankara, CONFERENCE ON GLOBALIZATION AND NATIONAL, 2005-05-19 Explores the impact of globalization on the conduct of international affairs **9/11 and the Design of Counterterrorism Institutions** Michael Karlsson, 2016-03-16 How did the North European states react to the terrorist attacks in the United States on September 11 2001 Michael Karlsson argues that 9 11 led to a considerable pressure to strengthen rules and practices for counterterrorism and security but that this pressure was mediated by several other conditions The reforms were also affected by among other things how the threat of global terrorism was perceived pressure from international institutions such as the UN EU and NATO the domestic political context and pre existing rules and practices His analysis uses the new institutionalism framework tested through case studies of Denmark Sweden Finland Estonia Latvia and Lithuania The book offers a unique lens on the study of counterterrorism from a new theoretical and regional perspective Human Security and Non-Citizens Alice Edwards, Carla Ferstman, 2010-01-14 The past decades have seen enormous changes in our perceptions of security the causes of insecurity and the measures adopted to address them Threats of terrorism and the impacts of globalisation and mass migration have shaped our identities politics and world views This volume of essays analyses these shifts in thinking and in particular critically engages with the concept of human security from legal international relations and human rights perspectives Contributors consider the special circumstances of non citizens such as refugees migrants and displaced and stateless persons and assess whether conceptually and practically human security helps to address the multiple challenges they face

How to Belong Belinda A. Stillion Southard, 2018-10-05 In How to Belong Belinda Stillion Southard examines how women leaders throughout the world have asserted their rhetorical agency in troubling economic social and political conditions Rather than utilizing the concept of citizenship to bolster political influence the women in the case studies presented here rely on the power of relationships to create a more habitable world With the rise of global capitalism many nation states that have profited from invigorated flows of capital have also responded to the threat of increased human mobility by heightening national citizenship s exclusionary power Through a series of case studies that include women grassroots protesters a woman

president and a woman United Nations director Stillion Southard analyzes several examples of women all as embodied subjects in a particular transnational context pushing back against this often violent rise in nationalist rhetoric While scholars have typically used the concept of citizenship to explain what it means to belong Stillion Southard instead shows how these women have reimagined belonging in ways that have enabled them to create national regional and global communities As part of a broader conversation centered on exposing the violence of national citizenship and proposing ways of rejecting that violence this book seeks to provide answers through the powerful rhetorical practices of resilient and inspiring women who have successfully negotiated what it means to belong to be included and to enact change beyond the boundaries of citizenship

World Orders, Development and Transformation E. Sahle, 2010-05-21 The book examines how hegemonic development ideas and practices emerged in the context of the changing world order post 1945 and how this transformation was characterized by neoliberalism and securitization of development and security Sahle also explores the rise of China and the start of Obama's presidency

Non-traditional Security Threats and Regional Cooperation in the Southern Caucasus Mustafa Aydın, 2011 This book contains 16 papers presented at the workshop Non Traditional Security Threats and Regional Cooperation in the Southern Caucasus which was held in Istanbul Turkey in October 2009 Whilst the Cold War did not exclude the existence of other threats such as environmental hazards organized crime terrorism economic instability and illegal immigration it is only since the emphasis on East West rivalry and the specter of nuclear confrontation between the two blocs have diminished that these have become articulated as major sources of concern for global security

Redefining Human Rights in the Struggle for Peace and Development Terrence E. Paupp, 2014-01-20 Examines the history of the struggle to advance human rights and provides a global framework of constitutional protections to implement these rights

The Fence and the Bridge Heather N. Nicol, 2015-06-27 The Fence and the Bridge is about the development of the Canada US border security relationship as an outgrowth of the much lengthier Canada US relationship It suggests that this relationship has been both highly reflexive and hegemonic over time and that such realities are embodied in the metaphorical images and texts that describe the Canada US border over its history Nicol argues that prominent security motifs such as themes of free trade illegal immigration cross border crime terrorism and territorial sovereignty are not new nor are they limited to the post 9 11 era They have developed and evolved at different times and become part of a larger quilt whose patches are stitched together to create a new fabric and design Each of the security motifs that now characterize Canada US border perceptions and relations has a precedent in border management strategies and border relations in earlier periods In some cases these have deep historical roots that date back not just years or decades but centuries They are part of an evolving North American geopolitical logic that inscribes how borders are perceived how they function and what they mean

Terrorism and Homeland Security Paul Viotti, Michael Opheim, Nicholas Bowen, 2008-06-17 Despite the fact that the Department of Homeland Security DHS has been active since November of 2002

the American homeland is still not secure from terrorist attack What passes as DHS strategy is often just a list of objectives with vague references to the garnering of national resources and the marshalling of support from other nations Drawi

Power and Security in the Information Age Myriam Dunn Cavelty, Victor Mauer, 2016-03-23 The marriage of computers and telecommunications the global integration of these technologies and their availability at low cost is bringing about a fundamental transformation in the way humans communicate and interact But however much consensus there may be on the growing importance of information technology today agreement is far more elusive when it comes to pinning down the impact of this development on security issues Written by scholars in international relations this volume focuses on the role of the state in defending against cyber threats and in securing the information age The manuscript is captivating with the significance and actuality of the issues discussed and the logical knowledgeable and engaged presentation of the issues The essays intrigue and provoke with a number of fresh hypotheses observations and suggestions and they contribute to mapping the diverse layers actors approaches and policies of the cyber security realm *Why Nations Fight* Richard Ned Lebow, 2010-09-02 Four generic motives have historically led states to initiate war fear interest standing and revenge Using an original data set Richard Ned Lebow examines the distribution of wars across three and a half centuries and argues that contrary to conventional wisdom only a minority of these were motivated by security or material interest Instead the majority are the result of a quest for standing and for revenge an attempt to get even with states who had previously made successful territorial grabs Lebow maintains that today none of these motives are effectively served by war it is increasingly counterproductive and that there is growing recognition of this political reality His analysis allows for more fine grained and persuasive forecasts about the future of war as well as highlighting areas of uncertainty *The Globalization of Security* B. Mabee, 2009-05-21 The Globalization of Security is an important rethinking of the connections between globalization and security focusing on a conceptual examination of the role of the state combined with key case studies The book provides a novel historical sociological approach advancing both the understanding of security and the theory of state power **Israeli Statecraft** Yehezkel Dror, 2011-05-10 This book offers a systematic examination analysis and evaluation of Israeli national security statecraft in terms of challenges and responses Providing an in depth analysis of Israeli statecraft challenges and responses this interdisciplinary book integrates social science and security studies with public policy approaches within a long term historical perspective on the Arab Israeli conflict These scholarly approaches are synthesized with extensive personal knowledge of the author based on involvement in Israeli political security policy making This book makes use of conceptualizations of statecraft such as fuzzy gambling and interventions with critical mass in ultra dynamic historical processes to help clarify Israel s main statecraft successes and failures alongside the wider theoretical apparatuses these concepts represent While focused on Israel these theoretical frameworks have important implications for the academic study of statecraft and statecraft praxis worldwide This book will be of much interest to both statecraft practitioners and to

students of Israeli politics and security the Middle Eastern conflict strategic studies and IR security studies in general

The Small Gulf States Khalid Almezaini, Jean-Marc Rickli, 2016-12-08 Small states are often believed to have been resigned to the margins of international politics. However, the recent increase in the number of small states has increased their influence and forced the international community to incorporate some of them into the global governance system. This is particularly evident in the Middle East where small Gulf states have played an important role in the changing dynamics of the region in the last decade. *The Small Gulf States* analyses the evolution of these states' foreign and security policies since the Arab Spring. With particular focus on Oman, Qatar and the United Arab Emirates, it explores how these states have been successful in not only guaranteeing their survival but also in increasing their influence in the region. It then discusses the security dilemmas small states face and suggests a multitude of foreign and security policy options ranging from autonomy to influence in order to deal with this. The book also looks at the influence of regional and international actors on the policies of these countries. It concludes with a discussion of the peculiarities and contributions of the Gulf states for the study of small states' foreign and security policies in general. Providing a comprehensive and up-to-date analysis of the unique foreign and security policies of the states of the Gulf Cooperation Council (GCC) before and after the Arab Spring, this book will be a valuable resource for students and scholars of Middle East studies, foreign policy and international relations. [Russia and its Near Neighbours](#) M. Freire, R. Kanet, 2012-05-15 Russia has recently re-emerged as the dominant political, economic and military actor in former Soviet nations. Kanet and Freire bring together a stellar cast of contributors to consider Russia's recent return as a major regional and international actor and its likely future policy toward its neighbours. [Security and Everyday Life](#) Vida Bajc, Willem de Lint, 2011-03-09 This volume examines how security has recently re-emerged as the dominant ordering principle of social life. The contributors detail recent institutional restructuring under this new ordering principle and analyze through specific case studies how it is shaping our public life locally and globally.

Counterterrorism Ronald Crelinsten, 2013-04-17 Terrorism has emerged as one of the most problematic issues facing national governments and the international community in the 21st century. But how is it possible to counter terrorism in a world in which governance is still dominated by the nation state? Are we seeing new forms of terrorist activity in the wake of 9/11? Are pre-9/11 approaches still valid? How can we combat and control diverse threats of multiple origin? Who should be responsible for countering terrorism and in what circumstances? In this incisive new book, Ronald Crelinsten seeks to provide answers to these pressing questions, challenging readers to think beyond disciplinary and jurisdictional boundaries. He presents an up-to-date and comprehensive introduction to the difficulties and obstacles related to countering terrorism in democratic societies. The counterterrorism framework that he develops in this book reflects the complex world in which we live. The different approaches to counterterrorism provide the organizing theme of the book and help the reader to understand and to appreciate the full range of options available. The book includes a host of contemporary examples and

further readings compares and contrasts pre and post 9 11 approaches critically evaluates the post 9 11 war on terror moves beyond a purely state centric focus to include non state actors and institutions combines hard and soft power approaches considers prevention preparedness response and recovery Counterterrorism will be an indispensable guide for students researchers practitioners and general readers wanting to broaden their knowledge of the possibilities and limitations of counterterrorism today

The Normative Position of International Non-Governmental Organizations Under International Law Rephael Harel Ben-Ari, 2012-05-07 Exploring contemporary juridical theories regarding the normative position of INGOs vis vis the subjects of international law this book engages in a thorough contextual historical and interdisciplinary evaluation of the potential to generate solutions for the exercise of unregulated authority outside the state system

Cooperating Rivals Jeffrey K. Sosland, 2012-02-01 This book examines the politics of water scarcity in the Middle East's Jordan River Basin Syria Lebanon Jordan Israel and the Palestinian Authority between 1920 and 2006 Jeffrey K. Sosland demonstrates that while water scarcity might generate political tension it does not by itself precipitate war nor is it likely to do so At the same time efforts to promote water cooperation such as those initiated by the United States have an identifiable political benefit by creating rules building confidence and reducing tensions among adversaries Sosland concludes that while this alone might not resolve the overall conflict it does create positive long term value in achieving peace
