Vulnerability and Violence Peadar Kirby, 2005-12-20 Vulnerability is now a key term in globalisation studies It is used to describe how globalisation impacts on individual security local communities and even global flows of trade finance and investment Yet there has been little attempt to interrogate the term and what it is trying to express about globalisation Peadar Kirby examines what is really meant by vulnerability and links it to new forms of violence that have resulted from decreased security and social cohesion He argues that vulnerability and violence are characteristic features of a new world order dominated by neoliberal globalisation Illustrating his argument with a wealth of examples taken from all over the world from the sudden collapse of the middle class in Argentina to increased levels of poverty internationally he offers a robust theoretical grounding that will be of use to anyone studying vulnerability and violence and their relation to contemporary globalisation

Oswald Spring, Czeslaw Mesjasz, John Grin, Pál Dunay, Navnita Chadha Behera, Béchir Chourou, Patricia Kameri-Mbote, P. H. Liotta, 2008-01-23 Put quite simply the twin impacts of globalization and environmental degradation pose new security dangers and concerns In this new work on global security thinking 91 authors from five continents and many disciplines from science and practice assess the worldwide reassessment of the meaning of security triggered by the end of the Cold War and globalization as well as the multifarious impacts of global environmental change in the early 21st century **Globalization and Free Trade** Natalie Goldstein, 2010-06-23 Outlines the history of the expansion and globalization of national economies and explains how globalization evolved to its present state Metaphors of Globalization M. Kornprobst, V. Pouliot, N. Shah, R. Zaiotti, 2007-12-14 By revisiting globalization using an analysis of metaphors such as global village and network society this volume sheds new light on overlooked dimensions of global politics redresses outdated conceptualizations and provides a critical analysis of existing approaches to the study of globalization **Globalization and International Law** D. Bederman, 2008-06-23 This volume develops a set of provocative themes globalization is not new it is neither legally inevitable nor irreversible and international legal systems and institutions can assert only a special and limited influence on globalizing developments Unfolding Crisis in Assam's Tea Plantations Deepak K. Mishra, Vandana Upadhyay, Atul Sarma, 2014-03-21 As the Indian economy integrates into global circuits of production exchange and accumulation the burdens of adjustment are shared unequally by different sectors classes and regions This study unravels the livelihood strategies and living conditions of labour in the tea gardens of Assam The tea sector has been undergoing a crisis since the 1990s with stagnant production decline in exports and closures of many tea gardens leading to large scale retrenchments in the labour force Based on a detailed analysis of secondary data and primary field research the study examines the extent types and implications of inter generational occupational mobility or immobility among tea garden labourers in Assam In the process it reflects on how even a sector that had brought capital and labour from outside and contributed significantly to the country's export earnings failed to create dynamic growth linkages within the local economy The experience of the labour force in the Assam tea sector the authors argue is important for making sense not only of the development dynamics of the region but of the contradictory ways in which forces of globalisation and neo liberal reforms have been reshaping the worlds of labourers in the margins The book will be of interest to students and scholars of labour studies development studies management studies and studies of north east India as well as to policy makers and those in the tea industry Persistent State Weakness in the Global Age Vesna Bojicic-Dzelilovic, 2016-05-13 Persistent State Weakness in the Global Age addresses the question of why state weakness in the global era persists It debunks a common assumption that state weakness is a stop gap on the path to state failure and state collapse Informed by a globalization perspective the book shows how state weakness is frequently self reproducing and functional The interplay of global actors policies and norms is analyzed from the standpoint of their internalization in a weak state through transnational networks Contributors examine the reproduction of

partial and discriminatory rule at the heart of persistent state weakness drawing on a wide geographical range of case studies including the Middle East the Balkans the post Soviet states and sub Saharan Africa The study of state weakening dynamics related to institutional incapacity colonial and war legacies legitimacy gaps economic informality democratization and state building provides an insight into durability and resilience of weak states in the global age Transnational Threats Kimberley L. Thachuk, 2007-05-30 This collection of essays demonstrates how the security of Americans is potentially threatened by individuals and governments who are engaged in the illicit trade in arms drugs and human beings in distant parts of the globe More than just a threat to Americans the essays underscore that these activities are often detrimental to the United States interests around the world due to the destabilizing impact that each activity can have on a nation or region More revealing is how terrorists benefit from this illegal trade generating critical sources of funding used for everything from recruiting to procurement of weapons and explosives of all types to extend and expand the scope of their struggle The scope of this work is truly global Fourteen essays touch on prevailing problems from the Balkans to Southeast Asia and the Pacific from Africa to the Caribbean and more In each essay the authors explore a problem that not only has direct regional repercussions but larger international ones as well The essays present problems that result from these illegal activities as a global epidemic not simply regionalized problems *Africa and the North* Ulf Engel, Gorm Rye Olsen, 2004-11-10 This volume discusses Africa's place in the international system examining how the Westphalian system in light of the impact of globalization and transnational networks continues to play a major role in the structuring of Africa's international

Leading Issues in Competition, Regulation, and Development Paul Cook, 2004-01-01 The promotion of liberalized and deregulated markets by bilateral and multilateral aid donors and by global institutions such as the WTO has led to significant attention being paid to competition and regulatory reforms in developing economies The process of reform involves the transfer and diffusion of market models derived from practice and theory in developed countries However in developing countries regulation needs to do more than simply promote competitiveness and consumer interests it also needs to ensure that the market nurtures development By rigorously examining the numerous impacts of regulation this book will help to fill a significant gap in the literature on economic and social development The book now available in paperback draws together contributions from leading experts across a range of disciplines including economics law politics and governance public management and business management The authors begin with an extensive overview of the issues of regulation and competition in developing countries and carefully illustrate the important themes and concepts involved Using a variety of country and sector case studies they move on to focus on the problems of applicability and adaptation that are experienced in the process of transferring best practice policy models from developed to developing countries The book presents a clear agenda for further empirical research and is notable for its rigorous exploration of the links between theory and practice Although there is substantial interest in competition and regulation as yet there has been relatively little investigation of

these issues in developing economies This book redresses the balance and will be a valuable resource for researchers academics teachers and students interested in development economics and development studies It will also be of great relevance for practitioners and policymakers working in the fields of competition policy and regulatory reform *Women and Property in Urban India* Bipasha Baruah,2010-11-07 Half the world s population now lives in cities Governments and agencies have made housing the poor a priority but few studies or initiatives focus on women s needs Based on research conducted in Ahmedabad in collaboration with the Self Employed Women s Association SEWA this book maps the constraints and opportunities that low income women throughout the Global South face in securing property which remains overwhelmingly in male hands Their vulnerabilities open a window to assess not only land tenure and property laws but also theoretical approaches to gender and development Although the development community holds out microcredit financing as one potential solution these women s stories reveal its glaring limitations By highlighting the importance of property as a material and symbolic asset in women s empowerment this book carves out new intellectual space in the study of gender and development *Citizenship as Cultural Flow* Subrata K Mitra,2013-01-29 The book addresses the very topical subject of citizen making By delving into a range of sources among them survey questions historical documents political theory architectural design and public policy the book provides a unique analysis of when and why citizenship has taken root in India Each chapter highlights the constant innovation of citizenship that has occurred in India s legal political social economic and aesthetic arrangements as well as providing the basis for comparative analysis across South Asian cases and the European Union *India in the Contemporary World* Jakub Zajączkowski,Jivanta Schottli,Manish Thapa,2015-07-17 This book brings together Indian and European perspectives on India s polity economy and international strategy It explores internal regional and global determinants shaping India s status position and goals in the early 21st century Through an array of methodological and theoretical approaches it presents debates on democracy economic development foreign and security policy and the course of India European Union relations The volume will prove invaluable to scholars and students of international relations politics economics history and development studies as well as policy makers and economists *States of Global Insecurity* Daniel Béland,2007-06 Discusses the collective threats faced by the United States in the early twenty first century and how political sociology seeks to understand these matters
