## **Globalization The Internal Dynamic:**

**Globalization** Paul Kirkbride, Karen Ward, 2001-10-08 With a cast of international contributors the two Wiley titles on globalisation provide a practical guide to the impact of globalisation for people working in global companies The titles cover the internal and external aspects of globalisation

**Globalization and Autocentricity in Africa's Development in the 21st Century** Kidane Mengisteab, 1996 African economies are the most dependent and the most marginalised in the global system Prevailing policies to integrate these economies more closely with the global economy are in the view of many misplaced and this work presents a series of alternative strategies that will tap the energies of the African people to develop their own potential and reduce their dependence on World Bank IMF led approaches

Globalization and the Circumpolar North Lassi Heininen, Chris Southcott, 2010-05-15 The circumpolar north has long been the subject of conflicting national aspirations and border disputes and with the end of the cold war and the coming era of potential resource scarcity its importance will only grow over the next several decades Anticipating that renewed prominence Globalization and the Circumpolar North brings together an array of scholars to explore the effects of this increased attention from the new opportunities offered by globalization to the potential damage to long isolated northern communities and peoples

The SAGE Handbook of Organizational Discourse David Grant, 2004-08-24 Providing an overview of domains such as study methodologies and perspectives used in research this text shows how discourse analysis has moved beyond its roots in literary theory to become an important approach in the study of organizations

*Globalization and the Human Factor* Joseph Mensah, 2018-01-18 Since the 1980s the world has experienced an unprecedented push towards economic political social cultural financial and technological integration This integration is a key element of the process of globalization Much of this revolves around the tensions and conflicts inherent in globalization with emphasis on political economy but at the expense of the human factor HF which places people at the centre of all discussions about globalization This volume brings the HF into the debate and examines to what extent this hitherto marginalized concept holds the key to providing a holistic understanding and contestation of globalization The volume develops a distinct concept or framework of the human factor examines the role and significance in global change from an interdisciplinary perspective analyzes the extent and significance in contemporary globalization discourse and provokes further debate about the unresolved disputes surrounding globalization The account will help readers navigate the minefields of the globalization debate

Globalization, 3rd edition Eleonore Kofman, Gillian Youngs, 2008-04-28 This fully revised and updated textbook focuses on the major topics of globalization today These include the impact of migration relations between the northern and southern hemispheres how gender and power plays into the globalization process and the politics and economics of freedom of movement in the world Two new chapters on the impact of technology on global communications and the effect of the emerging economies of India and China bring the book fully up to date Further current issues such as the debate concerning environmental security

natural disasters the broad spectrum between women's empowering impact in the marketplace and the continued exploitation of women in the sex and service trade are also examined Eleanor Kofman and Gillian Youngs have edited an excellent and comprehensive collection essential for both undergraduate and graduate students trying to gain an understanding of theories and practices driving globalization as we enter into the twenty first century *Strategic Learning and Leading Change* Stephen John, 2009 Structured in 3 parts this title discusses the globalization of businesses and its impact on their strategy structure operating processes and culture It also shows how global companies are reinventing Human Resources and examines the role of the HR function in today's global organizations

**Yemen - U.S. Relations: the External and Internal Dynamics: 18th CENTURY - 2012** Dr. Moath A. Alrefaei, 2024-06-22 US Yemeni relations are enveloped in mysteries that have never been fully unraveled Historically these relations have fluctuated dramatically improving momentarily before deteriorating once again The literature on Yemen US relations is riddled with inconsistencies and rarely delves deep into the dynamics at the core of this relationship often overlooking the underlying complexities This book addresses these key issues by exploring the myriad dynamics that drive bilateral relations between the two nations It asserts that Yemen US relations are governed by a complex array of factors broadly categorized as external and internal These dynamics are fluid shifting with the ever changing global environment and circumstances making each stage of the relationship distinct from the next Through a detailed analysis this book offers a new interpretation of the systematic changes in Yemen US relations and their future prospects It highlights the wide range of dynamics characterized by their plurality overlap and dual influence that contribute to the instability and oscillation defining this relationship Externally factors such as regional geo strategic considerations and the legacies of the Cold War alongside the democratization and human rights agenda in the new international order have predominantly shaped the relations Conversely the influence of internal factors was traditionally marginal due to weak mutual interests but this changed dramatically after the September 11 attacks The escalating threats to homeland security posed by terrorist groups in both nations brought a new dimension to the relationship Internal dynamics such as Yemen's conflict with al Qaeda its economic and developmental needs and the country's overall instability were significant in shaping the bilateral relations during the first decade of this century However their influence has since evolved marking a new era in the relationship between Yemen and the US This book stands out from others discussing the general state of Yemeni and American relations in two key ways First it avoids the conventional chronological approach that often becomes tedious opting instead for an analytical methodology that interprets changes in relations based on dominant factors Second it employs established scientific and methodological approaches from political science and international relations to ensure objectivity and enhance its scholarly integrity

**Understanding the Dynamics of Global Inequality** Alexander Lenger, Florian Schumacher, 2014-12-03 Despite the fact that the globalization process tends to reinforce existing inequality structures and generate new areas of inequality on multiple levels systematic

analyses on this very important field remain scarce Hence this book approaches the complex question of inequality not only from different regional perspectives covering Africa Asia Europe Latin and Northern America but also from different disciplinary perspectives namely cultural anthropology economics ethnology geography international relations sociology and political sciences The contributions are subdivided into three essential fields of research Part I analyzes the socio economic dimension of global exclusion highlighting in particular the impacts of internationalization and globalization processes on national social structures against the background of theoretical concepts of social inequality Part II addresses the political dimension of global inequalities Since the decline of the Soviet Union new regional powers like Brazil China India and South Africa have emerged creating power shifts in international relations that are the primary focus of the second part Lastly Part III examines the structural and transnational dimension of inequality patterns which can be concretized in the rise of globalized national elites and the emergence of multinational networks that transcend the geographical and imaginative borders of nation states

*Globalization, the IMF, and International Banks in Argentina* Christian Hernandez, 2019-08-27

Globalization the IMF and International Banks in Argentina The Model Economic Crisis examines the meaning of mainstream globalization and how it relates to neoliberalism as policymakers international financiers and the mainstream press combat populist attempts to de globalize Christian Hernandez chronicles the failures of mainstream globalism and its resilience Hernandez examines the case of Argentina as a microcosm of political economic and financial distress that has now spread to the United States and Europe Specifically it examines how the financial press narrated the globalization of Argentine banks and the Argentine Great Depression shortly thereafter The book also analyzes over 32 years of IMF Argentine consultations This includes the IMF s return under Mauricio Macri proving globalization is not dead Scholars of economics Latin American studies and political science will find this book particularly useful

*Globalization and Social Change* Diane Perrons, 2004

Taking a refreshing new perspective on globalization and widening social and spatial inequalities this significant text is illustrated through a series of case studies linking people in rich and poor countries

Globalization and Environmental Reform Arthur P. J. Mol, 2003

A balanced look at globalization and its potential environmental effects both destructive and beneficial

*Intellectual Capital and Technological Innovation: Knowledge-Based Theory and Practice* López Sáez, Pedro, Castro, Gregorio Martín de, Navas López,

José Emilio, Delgado Verde, Miriam, 2010-06-30 This book provides theoretical frameworks and empirical research findings to assist managers academics and consultants gain a thorough understanding of intellectual capital and social capital as a base for improving their tasks Provided by publisher **Globalization and the Race for Resources** Stephen G. Bunker, Paul S. Ciccantell, 2005-11-11 Drawing from extensive historical research into how economic and environmental dynamics interacted in the extraction of different materials in the Amazon especially in the development of the iron mine of Carajas the authors illustrate the profound connection between global dominance and control of natural resources **Human Rights, Migration, and Social Conflict** Ariadna Estévez, 2012-07-02 This book uses human rights as part of a constructivist methodology designed to establish a causal relationship between human rights violations and different types of social and political conflict in Europe and North America **Foreign Direct Investment And Small And Medium Enterprises: Productivity And Access To Finance** Khee Giap Tan, Kong Yam Tan, 2015-03-25 There is a large literature dealing with the spillover effects of foreign direct investment FDI flows to emerging and developing economies at the aggregate level Beyond the aggregate impacts a growing number of studies also examine the impact of FDI spillovers on firms of different sizes especially small and medium enterprises SME This book is dedicated to exploring issues relating to the various interactions between FDI flows productivity spillovers and SMEs in Asia and beyond It studies globalization FDI and regional innovation in China and trade and investment liberalization in India It analyses how to promote SMEs and enhance labor productivity in Singapore It investigates the impact of intellectual property rights processes on productivity growth It documents the use of finance and financing patterns of informal firms It uses empirical analysis to point out the limitations of traditional banks lending to SMEs and suggests possible policy approaches facilitating them to access growth capital It also provides an empirical investigation of the main determinants of entrepreneurial activities **Globalization's Contradictions** Dennis Conway, Nik Heynen, 2006-11-22 Introduces a critical perspective on debates surrounding globalization for advanced undergraduate and masters students Broad in scope scrutinizing political economic geopolitical political cultural and alternative visions of globalization Points the way towards future global geographies that are more inclusive and equitable Strong line of contributors including John Agnew Dennis Conway and Don Mitchell **Globalization and Education** Nelly P. Stromquist, Karen Monkman, 2014-03-04 We offer in this book a collection of chapters that reflect a broad range of issues linking globalization to education in an accessible yet theoretically grounded and detailed form The authors analyze phenomena on the global plane in local spaces and in the connections between the global and the local New developments such as the growing impact of technology on education the emergence of new policy actors the growing expansion and segmentation of higher education the salience of human rights among others are emerging as powerful agendas shaping all levels of education In fundamental ways the forces of globalization challenge the previous approaches and theories of national development Recognizing the areas of convergence dissonance and conflict should help us grasp with greater clarity

the implications of globalization for education and knowledge in the XXI century The contributors to this book include both well known scholars in the field of comparative education as well as young scholars The chapters present a balanced geographical coverage in terms of authors and the countries regions examined The second edition has been thoroughly updated throughout and contains seven new chapters The expanding interest in the intersection of education and globalization has brought up several new topics including the salience of global education policies notably EFA the expansion and differentiation of higher education the emphasis on work related training the increasing role of non state actors such as the transnational corporations and greater attention to human rights Also in this new edition is a chapter on qualitative methodologies especially suitable to the understanding of the intersection of globalization and education

**Social Theory and Regional Studies in the Global Age** Saïd Amir Arjomand, 2014-05-21 A pioneering approach to social theory that rectifies overreliance on Western historical experience of development and modernization In this pioneering volume leading international scholars argue for the development of a new approach to social theory that draws on regional studies for the conduct of comparative analysis in the global age Social Theory and Regional Studies in the Global Age moves beyond facile generalizations based on the historical experience of modernization in the West by highlighting differences rather than similarities and contrasts rather than commonalities and by examining civilizational processes and culturally specific developmental patterns distinctive of different world regions Essays combine comparative and historical sociology with civilizational analysis and the study of multiple and alternative modernities Different patterns of modernization are compared within the framework of global local compressed communication and interaction that results from globalization The introductory chapter puts the present effort in the context of the seminal work of three generations of comparative sociologists and what follows is a penetrating analysis of modernization and globality opening the way for rectifying the erasure of the historical experience of a very sizeable portion of humankind from the foundation of social theory
