Malaysia Human Rights Report 2017 SUARAM, 2018-06-12 Malaysian Human Rights Report 2017 SUARAM s Annual Human Rights Report on Malaysia is widely recognized as the most objective comprehensive and dependable source of information on the state of human rights in Malaysia It documents the human rights violations of all the fundamental liberties as well as the struggles of human rights defenders that take place in Malaysia during the year In 2017 Malaysia struggled with growing repression as the 14th General Election approached With the competition for political dominance freedom of expression became the victim and there was widespread arrest detention and prosecution for online comments made on social media and the silencing of print and online media using frivolous justifications Freedom of religion was another victim In the short five years since the abolition of the Internal Security Act 1960 the criminal justice system of Malaysia has re oriented its policy on tackling crime by the use of detention without trial With more than 2 000 individuals detained under SOSMA POCA POTA and DDA it is clear that we are seeing the old ISA in a new guise Beyond the politically motivated human rights violations corporations and state linked enterprises were also human rights violators State agencies which are expected to defend and protect the rights and interests of the community especially the indigenous peoples instead acted as defenders of the corporate interests With no justice or remedy in sight all that the communities could do was to stand and defend their rights and dignity by setting up blockades against the repression Islam T. Archibald Books, 1911 **Search of God** Dr. Mohamed Gad, 2011-08-04 Only God knows We may ponder and choose our own path to receiving His

Word but we must realize ours is a human path We cannot let blind faith tradition and ritual cloud our judgment and determine our perception of the world The potent mix of fanaticism whether tied to a nation or a religion ignorance and emotion has driven wedges among the peoples of the earth wedges that need not exist at all In Search of God God Religious Scriptures and Proof of Divine Revelation presents the result of author Dr Mohamed Gad's twenty five year study of Christian Islamic and Judaic scripture revealing the unifying truths of divinity belief and faith In Search of God challenges serious students of all faiths and backgrounds as it examines proof for the existence of God creation and evolution prophecy the identity of Jesus the concept of the Holy Trinity and the commonalities and spirit of revelation of the world's three major religions Dr Gad's personal journey and critical spiritual investigation personify the human desire to understand God's intention for us Yes only God knows but armed with truth and tolerance we now have a chance to create a brighter future for our children and ourselves a future in which we seek God trust in Him and are at peace The Concept of Revelation in **Judaism, Christianity and Islam** Georges Tamer, 2020-05-05 The idea that God reveals himself to human beings is central in Judaism Christianity and Islam but differs in regard of content and conceptualization The first volume of the new series Key Concepts in Interreligious Discourses points out similarities and differences of revelation KCID aims to establish an archeology of religious knowledge in order to create a new conceptual platform of mutual understanding among religious communities Erratum Wenzel Maximilian Widenka is co author of the epilogue pp 195 206 Scientific and Political Freedom in Islam Uriya Shavit, 2017-02-24 This book critically explores the modernist apologetic Islamic approach to the relation between revelation and science and politics which for over a century has been a central part of Arab discourses on the future of Muslim societies The main thesis of the book is that the modernist apologetic approach has great potential to be a force for liberalization but also possesses inherent limitations that render its theory on the relation between revelation and freedom self contradictory <u>In The Shadows of Glories Past</u> John W. Livingston, 2018-02-01 The title of this volume implies two things the greatness of the scientific tradition that Muslims had lost and the power of the West in whose threatening shadow reformers now labored to modernize in order to defend themselves against those very powers they were taking as models Copernicus and Darwin were the names that dominated the debate on science whose arguments and rebuttals were published mainly in the religious and secular journals in Cairo and Beirut from the 1870s Analysis and interpretation of this literature shows the hope that Arab reformers had of duplicating the Japanese success followed by the despair when success was denied A cultural malaise festered from generations of despair defeat and foreign occupation and this feeling transmogrified after 1967 to a psychosis in a significant number of secular writers educators and religious reformers The great debate on assimilating science was turned inward where defensive mechanisms of denial spun out perversions of science the Quran becoming a thesaurus of science and a more extreme derivative of that something called Islamic Science arising as an alternate science that was to be in harmony with the Quran Shari a and Muslim belief This volume reveals the

undermining effect of European imperialism on western oriented religious reformers and secular intellectuals for whom science and political reform went together and concludes with a chapter on the state of science in contemporary Muslim societies and the efforts to institutionalize science before the upheavals of 2011 so as to bring to life an authentic and indigenous culture that would sustain scientific study and research as autonomous pursuits The Choice: Between Islam Or Anything Muhammad Arish,2025-03-28 This book bridges faith and reason addressing skeptics agnostics and atheists It explores Islam through logic science and comparative religion answering key questions on God s existence life s purpose and Islam s truth with rational explanation
