This book changes all that opening a window into the amazing world of New Zealand's great whites. Join Kiwi shark scientists Malcolm Francis and Clinton Duffy as they track great white sharks from the cool waters of southern New Zealand to the warm waters of the Great Barrier Reef and the tropical Pacific. Discover how electronic tags have revolutionised the study of great whites revealing that these mighty ocean predators are international travellers that dive to depths of more than a kilometre as they journey to and from shark hotspots at Stewart Island and the Chatham Islands. Visit Australia's shark nurseries meet the Stewart Island shark gang and join the teenage great white sharks Nicholas Cage and Pip on their travels. Award-winning natural history writer and broadcaster Alison Ballance has been following the New Zealand great white shark project for the last decade. She takes readers out on a research boat to experience first hand the thrill of encountering and tagging a great white shark. Follows the excitement and frustration of tracking their movements around the southwest Pacific and uses science to paint a portrait of great white sharks as you've never understood them before.
