Gnosis Or Ancient Wisdom In The Christian Scriptures:

The Gnosis William Kingsland,2000 Goes back to the initial teachings that were used in the creation of the Christian religion and demonstrates that they were actually derived from the Gnosis or Ancient Wisdom Gnosis is a Greek word meaning knowledge or to know In the early Church those who were mystics or Gnostics were rejected and considered heretics What makes this book so important is that it identifies certain mystical teachings from early times as rightfully belonging in the Church According to Kingsland this is the real Christian message as originally understood by the Gospel writers **The Gnosis Or Ancient Wisdom in the Christian Scriptures;** William 1855-1936 Kingsland,2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant [The Gnosis Or Ancient Wisdom in the Christian Scriptures](#) William Kingland,1956 **Gnosis** William Kingsland,2014-03 This Is A New Release Of The Original 1922 Edition **The Gnosis Or Ancient Wisdom of the Christian Scriptures** William Kingsland,1958

Jesus the Sufi Max Gorman,2018-03-01 Jesus is seen as a representative of an ancient and continuing wisdom tradition identified with that of the Sufis By his distinctive use of stories for teaching purposes his sayings and what the Sufis call action teachings including those actions known as miracles Jesus is shown to have been quintessentially a Sufi master Max Gorman shows how Sufism illuminates from within concepts central to Christianity the kingdom of Heaven son of God baptism resurrection which can then be seen as states and stages in an evolutionary philosophy This new edition of the classic work includes a new chapter on Gnosis **First Century Gnosticism** Gerard van Groningen,1967 **Ancient Pagan and Modern Christian Symbolism** Thomas Inman,2002-06 An important key to the origins of Christianity and Western religion Contains clear documented images that can be traced to remote times and shown to be in direct connection to certain origins of belief The symbolic connections between Christianity and the cultures of India Babylonia Assyria and Egypt among others are astounding An indispensable reference for anyone interested in early pagan religions and the foundations of Christianity Little known fact During the filming of The Da Vinci Code movie this book was special ordered as reading material for all cast and crew *Babylonian Influence on the Bible and Popular Beliefs* A. Smythe Palmer,2000 We know that the Bible creation stories had their origins in far older tales These stories strongly match the Old Testament and

originate from clay tablets discovered in ancient Sumeria and Babylonia They are the oldest preserved stories the world has ever known revealed in this interesting book and passed down for many centuries before being adopted by whoever wrote the Old Testament It seems the Word of God may not have come in its entirety from God but gods It is important that the earliest sources of our belief systems be examined That is the purpose of this book *The Secret Doctrine* Helena Petrovna Blavatsky,1993-01-01 A fountain of esoteric knowledge for deep truth seekers this classic work examines the birth and structure of the universe and how everything has the Divine as its source It also traces the development of humanity drawing from sacred scriptures mythology and legends to give a spiritual view of human beings Volume III is an index to help readers find any topic easily Illustrations *Secret Societies and Subversive Movements* Nesta H. Webster,2000 One of the best books on secret societies ever written Webster was an historical writer who wrote a number of books on the French Revolution After World War I she was intrigued with the Marxist revolt so wrote *World Revolution* examining how and why people continue to revolt As her search went deeper clear meanings surfaced behind our revolutionsand they involved an agenda by secret societies This book lays out in historical perspective how these secret societies and subversive movements have operated from behind the scenes Not all of them aspire to rule the world or manipulate politics or world currency but there are some major ones according to Webster that are As a respected writer and world historian she provides proof from within these pages **Theosophy and the Study of Religion** ,2024-06-11 Since its emergence in the nineteenth century the Theosophical Society has wielded enormous influence across diverse fields none more so than the study of religion This volume explores this legacy in North America Europe and India demonstrating its impact on the conceptualization of religion and its influence on methods of comparison Unveiling overlooked entanglements the volume challenges standard narratives in the history of religious studies and interrogates the deliberate neglect of theosophy s influence in the secular academy In doing so the work confronts lingering ghosts urging a reappraisal that enriches the study of religion and offers prescriptions for its future *The History of the Christian Religion and Church During the First Three Centuries* Augustus Neander,2000-02 Neander was one of the greatest religious historians to have ever lived In this abbreviated version of a larger work he covers the current of Gnostic ideas during the formation of Christianity This topic is important because it outlines all of the competitive beliefs that were at work at the time and how they affected the Christian struggle in both good and bad ways This rare book may cause one to never look at Christianity in quite the same way again due to its immense scholarship and interesting array of facts **The Revelation (New Revised Edition)** Bodo Balsys,2022-09-06 This book presents basic postulates concerning many esoteric concepts These include the concept of God what constitutes evil the nature and function of karma the manifestation of energy from the subtle planes of perception the nature of manifest Divinity as veiled by the concept of the Christ in the Bible and the mysteries of Being The analysis moves from my earlier Buddhist writings to focus upon the information in the Bible especially in relation to the nature of the reappearance of the Christ which

here is equated with the externalisation process of the Hierarchy of Enlightened Being This doctrine concerns the mode of the evolution of transcendent perception by humanity The awakening of higher spiritual perceptions via the enlightenment path and the understanding of the psychic constitution of the n s and chakras are also explained A syncretic approach is therefore espoused through the comparison between Eastern doctrines and the presented esoteric Christianity In doing so many of the veiled hidden mysteries in the Gospel story and the book of Genesis are revealed The text shows how these religions are but aspects of one fundamental religious evolution of the historical development of what is known in the East as the dharma and in the Western tradition as the Law of God

The Malleus Maleficarum of Heinrich Kramer and James Sprenger Heinrich Institoris,Jakob Sprenger,James Sprenger,2000 This is a pre 1923 historical reproduction that was curated for quality Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process Though we have made best efforts the books may have occasional errors that do not impede the reading experience We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works

worldwide *The Lost Scriptures of Giza* Jason Breshears,2006-07-26 After exploring every part of the Great pyramid both inside and out the author reveals how it connects to history and predicts future events He advances the idea that major cataclysms of the past occurred at specifically predicable times and when the next world wide catastrophe will come If his predictions are accurate we need to prepare The Key to the Tarot L. W. de Laurence,2002-10 One of the most in depth books on the Tarot ever written Any person wishing to conduct readings with Tarot cards will find this book to be highly useful The standard Rider Waite deck is used here but the book can still be useful for other decks Each card is pictured as well as a description of the deeper symbolism of the card and its significance Various layouts and ways to read the cards are provided plus a section on additional meanings is included in the back Reason and Belief Oliver Lodge,2000-01-20 Some claim that scientific proof is more valid than spiritual experience Shows that despite physical proof the impact of science has little effect on spiritual matters Science is a helpful tool that at times allows us to reach spiritual answers that have so far not been found but scientists of today often ignore the seers and prophets of the past who have given us great spiritual truths Lodge reveals the mystical and opens us to the larger possibilities around us
