Orthodoxy and Heresy in Early Christian Contexts Paul A. Hartog, 2015-01-30 Eighty years ago Walter Bauer promulgated a bold and provocative thesis about early Christianity He argued that many forms of Christianity started the race but one competitor pushed aside the others until this powerful orthodox version won the day The victors re wrote history marginalizing all other perspectives and silencing their voices even though the alternatives possessed equal right to the title of normative Christianity Bauer's influence still casts a long shadow on early Christian scholarship Were heretical movements the original forms of Christianity Did the heretics outnumber the orthodox Did orthodox heresiologists accurately portray their opponents And more fundamentally how can one make any objective distinction between heresy and orthodoxy Is such labeling merely the product of socially situated power Did numerous valid forms of Christianity exist without any validating norms of Christianity This collection of essays each written by a relevant authority tackles such questions with scholarly acumen and careful attention to historical cultural geographical and socio rhetorical detail Although recognizing the importance of Bauer's critical insights innovative methodologies and fruitful suggestions the contributors expose numerous claims of the Bauer thesis in both original and recent manifestations that fall short of the historical evidence With contributions from Rodney Decker Carl Smith William Varner Rex Butler Bryan Litfin Brian Shelton David Alexander Edward Smither Glen Thompson

The Cross Before Constantine Bruce W.

Longenecker,2015 Upending a longstanding consensus Bruce W Longenecker presents a wide variety of material artifacts to illustrate that Christians made use of the cross as a visual symbol of their faith long before Constantine appropriated it to consolidate his power in the fourth century Constantine did not invent the cross as a symbol of Christian faith for an impressive number of Christians before Constantines reign the cross served as a visual symbol of commitment to a living deity in a dangerous world Shaman and Sage Michael Horton,2024-05-28 The first volume of Michael Horton s magisterial intellectual history of spiritual but not religious as a phenomenon in Western culture Discussions of the rapidly increasing number of people identifying as spiritual but not religious tend to focus on the past century But the SBNR phenomenon and the values that underlie it may be older than Christianity itself Michael Horton reveals that the hallmarks of modern spirituality autonomy individualism utopianism and more have their foundations in Greek philosophical religion Horton makes the case that the development of the shaman figure in the Axial Age particularly its iteration among Orphists represented a divine self One must realize the divinity within the self to break free from physicality and become one with a panentheistic unity Time and time again this tradition of divinity hiding in nature has arisen as an alternative to monotheistic submission to a god who intervenes in creation This first volume traces the development of a utopian view of the human individual a divine soul longing to break free from all limits of body history and the social and natural world When the second and third volumes are complete students and scholars will consult *The Divine Self* as the authoritative guide to the spiritual but not religious tendency as a recurring theme in Western culture from antiquity to the present **The Gospel of Judas ; Together with the Letter of Peter to Philip, James, and a Book of Allogenes from Codex Tchacos** Rodolphe Kasser,Gregor Wurst,2007 Sheds new light on the ancient world and the beginnings of Christianity Featuring full color photographs of the original papyrus pages alongside the Coptic text and its English translation this book provides a mystical gnostic picture of Jesus from publisher description *Telling the Christian Story Differently* Francis Watson,Sarah Parkhouse,2020-06-25 This volume examines the counter narratives of the core Christian story proposed by texts from Nag Hammadi and elsewhere A noteworthy body of highly respected scholars examine material that is sometimes difficult and often overlooked contributing to the ongoing effort to integrate Nag Hammadi and related literature into the mainstream of New Testament and early Christian studies By retracing the major elements of the Christian story in sequence they are able to discuss how and why each aspect was disputed on inner Christian grounds and to reflect on the different accounts of Christian identity underlying these disputes Together the essays in this book address a central issue towards the end of the second century Irenaeus could claim that the overwhelming majority of Christians throughout the world were agreed on a version of the core Christian story which is still recognisable today Yet as Irenaeus concedes and as the Nag Hammadi texts have confirmed there were many who wished to tell the core Christian story differently Those who criticized and rejected the standard story did so not because they were adherents of another religion Gnosticism but because they were Christians who

believed that the standard account was wrong at point after point Ranging from the Gospels of Judas and Mary to Galatians and Ptolemy's Letter to Flora this volume provides a fascinating analysis of how the Christian story as we know it today developed against counter readings from other early Christian traditions

The Gnostics and Their Archetypes Diego Kurilo, Gnosis derived from the ancient Greek *gnosis* meaning knowledge or also known as gnosticism a Latinized form of *gnosticism* is a scientific religious term that encompasses various teachings and religious groups that flourished in the late 1st century and had their peak between the 2nd and 3rd centuries AD acting as precursors of later currents We could think that within these movements of connoisseurs many Christianities of a Gnostic nature perished since Christianity was born as a broad set of spiritual movements based on the life of Jesus of Nazareth The Christianity proposed by Paul of Tarsus triumphed and the Gnostic movements fell into disgrace and were considered heretical

The Use of Scripture in the Apocryphon of John David Creech, 2017-08-01 David Creech explores at length the Apocryphon of John's ambivalent treatment of the Jewish and Christian scriptures Although Moses is explicitly corrected at five points in the text Genesis' account of creation is nonetheless the basis for the Apocryphon's cosmogony and anthropogony Its uneven treatment of the biblical text is the result of a dispute between the authors of the Apocryphon and other early Catholics At the earliest stage of the text the Christians who wrote and read the Apocryphon worshiped alongside other early Catholic Christians without any sense of contradiction or inconsistency The key shift in the Apocryphon occurred after Irenaeus of Lyons' assault on Knowledge Falsely So Called In response to his concerted effort to bring the church under the authority of early Catholic bishops the framers inserted corrections to Moses The corrections are primarily rhetorical and used to refute early Catholic

identity markers **The Books of Jeu and the Pistis Sophia as Handbooks to Eternity** Erin Evans, 2015-08-11 Despite the surge of interest in Gnostic texts following the discovery of the Nag Hammadi library the Coptic Books of Jeu and Pistis Sophia remain understudied Often dismissed as convoluted confused and repetitious Erin Evans convincingly shows that these texts represent the writings of a distinct religious group with a consistent system of theology cosmology and ritual practice This book offers an in depth examination of these texts their relationship to other contemporary Gnostic ideas and their use in the context of a practicing religious group Three thematic sections demonstrate how the collection of texts functions as a whole covering baptisms and mystical ascent procedures guides to moral living and introductory texts and myths
