individual accounts **Contractors on Deployed Military Operations: United Kingdom Policy and Doctrine** ,2005

Since the Cold War the United States and United Kingdom UK armed services have undergone significant transformation in response to the radically altered threat environment new operational demands and reduced defense budgets Central to this transformation in both states is an expanded role for private contractors in providing deployed support functions traditionally conducted by uniformed personnel Despite the similar direction of military reform the U S armed services approach to battlefield outsourcing has undergone extensive public scrutiny and debate whereas UK Ministry of Defence MoD initiatives have hitherto attracted comparatively little independent assessment Close U S UK military cooperation over recent years in Afghanistan and Iraq and the likelihood that both states will remain close allies in future interventions suggest that the UK MoD s approach to deployed contractor support is a salient issue for U S military planners This monograph analyzes the MoD s outsourcing strategy and identifies those aspects of UK policy and doctrine that warrant consideration by the Department of Defense DoD and U S armed services Evaluation of the performance of MoD outsourcing policy and doctrine against measures of cost effectiveness and operational effectiveness reveals two broad observations The MoD has developed a number of novel command and control mechanisms that have succeeded in rationalizing and removing the risk in commercial battlefield support But the data necessary to evaluate the real impact of deployed outsourcing have yet to enter the public domain Similarly questions remain about the relative cost effectiveness of organic military provision and contractor alternatives Comparative analysis indicates that there are no fundamental differences in overarching MoD and DoD outsourcing philosophy but there are specific MoD initiatives that could enhance the U S armed services ability to manage their deployed contractor support 7 Early Contractor Involvement Michael Smith,Matthew Finn,Jon Broome,Catherine Maddox,2025-01-15 Early Contractor Involvement explains how to structure and administer a process of early contractor involvement within a two stage tender process It provides clear practical guidance on the range of factors that need to be considered to achieve the benefits of early contractor involvement ECI Commentaries on Selected Model Investment Treaties Chester Brown,2013-01-17 Provides detailed article by article commentary on the Model Bilateral Investment Treaties of 19 key jurisdictions drawing on analysis of internal government policy documents and each state s investment treaty practice Middle East Economic Digest ,2005 *The future of the European Union* Great Britain: Parliament: House of Commons: Foreign Affairs Committee,2013-06-11 Incorporating HC 115 i iv from session 2012 13 **Handbook on Well-Being of Working Women** Mary L. Connerley,Jiyun Wu,2015-07-27 This handbook provides an overview and synthesis of relevant literature related to the issue of the well being of working women This focus addresses a gap that currently exists in the quality of life and well being fields The work of the authors answers the following broad questions Does gender matter in the well being of working women Do prejudices against and stereotypes of women still play a role in inter personal interactions in the workplace that could hinder women from flourishing professionally Does the organizational
