J.T. Sibley, 2015-11-12 Today we worry about Mad Cow Disease AIDS Alzheimers and other prolonged onset ailments But back in the good old days folks worried about infected cuts and slashes internal diseases parasites and a whole variety of ailments which are perfectly treatable or preventable by means of modern medicine Folks rarely lived long enough to suffer from a long slow disease heck just staying alive to see one's fortieth birthday was considered a feat Even as late as the 19th century medicine was pretty medieval to our way of looking at it There were no wonder drugs no X ray or CAT scans no hospitals as we know them today and spotty training of medical professionals The dentist was feared and quack nostrums were sold by the case by traveling snake oil salesmen Many of those nostrums contained relatively innocuous ingredients but some were downright dangerous especially those incorporating psychoactive alkaloids heavy metals or raw isotopes Mercury or radium were primary ingredients in some quack medicinal cures even into the early 20th century And in rural areas the old magic medicine was still practiced by generations of folks who passed on these traditions and lore to their students and or children Much of the material presented in this volume has already been documented and published in the Norwegian language by scholars and folklorists such as Ingjald Reichborn Kjennerud Nils Lid Hjalmar Falk Olav B O A H eg Per Holck Odd Nordland Chr Bang and A Steen among others There has been a growing interest in folklore folk medicine and the old ways in recent years and this volume is an attempt to present a part of this lore to the English speaking audience **Oh,**
