## **God An Open Question:**

*God* Anton Houtepen, 2002-08-15 This important book sketches out the questions currently asked about God In the midst of religious pluralism and agnosticism Houtepen asks how can we think about God He finds the question impossible to answer without defining one's own position The author writes I have learned that it is good to speak about God with some caution not however at the periphery of thought but from within from the heart of our economic legal psychological and philosophical ideals The book is an account of my own personal theological question What have I found That the questions about God open our eyes to God the Eternal One the Most High as a question to us *Zürich 95: Open Questions in Analytical Psychology* Mary Ann Mattoon, 1997 The Zurich Congress marked a return to the origins of Analytical Psychology here it was that C G Jung lived for the first six decades of this century and developed the school of psychology he came to be known for Here too is where many of today's Jungian analysts from all over the world received their training and their initiation into the profession As this collection of the complete proceedings attests the theme of open questions drew a bountiful array of intriguing responses and this to the largest gathering of Jungian analysts ever more than 800 in all

**Questions About God** Steven M. Cahn, David Shatz, 2002-10-31 A collection of essays by leading philosophers previously published from 1973 to 1998 [Answers to Common Questions About God](#) H. Wayne House, Timothy J. Demy, 2013-12-18 The Bible is a ready resource for guidance on topics and questions that often perplex believer and curious nonbeliever alike But where do you begin to look for the answers In fact how do we know for sure that we can even trust the Bible to provide the answers being sought Making sense of the many images of God and teachings about the Godhead that appear in the Bible *Answers to Common Questions About God* tackles such subjects as How do we know God even exists How could God have always existed Can God really feel my personal pain Do all religions lead to God Written in question and answer format for easy access these quick reference guides provide succinct summaries of authoritative information so readers can be confident of what they read and be prepared to discuss these topics with family friends or neighbors accurately **Baptist Chapel, St. Mary's, Norwich**, 1860 **God's Own Ethics** Mark C. Murphy, 2017-04-14 Every version of the argument from evil requires a premise concerning God's motivation about the actions that God is motivated to perform or the states of affairs that God is motivated to bring about The typical source of this premise is a conviction that God is obviously morally perfect where God's moral perfection consists in God's being motivated to act in accordance with the norms of morality by which both we and God are governed The aim of *God's Own Ethics* is to challenge this understanding by giving arguments against this view of God as morally perfect and by offering an alternative account of what God's own ethics is like According to this alternative account God is in no way required to promote the well being of sentient creatures though God may rationally do so Any norms of conduct that favor the promotion of creaturely well being that govern God's conduct are norms that are contingently self imposed by God This revised understanding of divine ethics should lead us to revise sharply

downward our assessment of the force of the argument from evil while leaving intact our conception of God as an absolutely perfect being supremely worthy of worship

**Documents in Early Christian Thought** Maurice Wiles, Maurice F. Wiles, Mark Santer, 1975 Extracts from the writings of the Early Christian fathers covering the main areas of Christian thought

**Wandering in Darkness** Eleonore Stump, 2010-09-23 Virtually no one would deny the extent and intensity of suffering in the world Can one also consistently hold that there is an omniscient omnipotent perfectly good God This book argues that the difficult questions raised by the problem of suffering can be considered best in the context of biblical narratives

**Weal and Woe** Reinder Ruard Ganzevoort, Heye K. Heyen, 2004 This book explores the connections between salvation and evil in their Christian religious and non religious shapes How are our biographies embedded in the Christian tradition and the surrounding culture How do we deal with experiences of evil and how do we yearn for or enact shalom The Kampen research group in practical theology and ethics explores these concepts and argues for a multidimensional understanding

**A Case for the Existence of God** Dean L. Overman, 2009 In A Case for the Existence of God Dean L. Overman examines the latest theories about the origins of the universe and explains why even the most sophisticated science can take us only so far Ultimately we must make a leap of faith to understand the world and Overman argues that a leap into theism provides the most satisfying conclusions Overman explores fundamental questions about why our world exists and how it functions using principles of logic physics and theology In a time when religion and science are often portrayed as diametrically opposed A Case for the Existence of God presents a refreshing view of the interplay between science and religion and makes a compelling case for the existence of God and His role in our world

**BOOK JACKET**

**God Under Fire** Zondervan, 2009-12-15 God Never Changes Or does he God has been getting a makeover of late a reinvention that has incited debate and troubled scholars and laypeople alike Modern theological sectors as diverse as radical feminism and the new open theism movement are attacking the classical Christian view of God and vigorously promoting their own images of Divinity God Under Fire refutes the claim that major attributes of the God of historic Christianity are false and outdated This book responds to some increasingly popular alternate theologies and the ways in which they cast classical Christian theism in a negative light Featuring an impressive cast of world class biblical scholars philosophers and apologists God Under Fire begins by addressing the question Should the God of Historic Christianity Be Replaced From there it explores issues as old as time and as new as the inquest into the openness of God How for instance does God risk relate emotive and change Does he do these things and if so why These and other questions are investigated with clarity bringing serious scholarship into popular reach Above all this collection of essays focuses on the nature of God as presented in the Scriptures and as Christians have believed for centuries God Under Fire builds a solid and appealing case for the God of classical Christian theism who in recent years as through the centuries has been the God under fire

Computational Cultural Psychology introduces a revolutionary approach for studying cultural psychology Drawing on novel computational tools and in depth case studies Professor Yair Neuman offers thought provoking answers to questions such as how are thought and language deeply related How can computers help us to understand different cultures How can computers assist military intelligence in identifying vengeful intentions And how is our concept of love rooted in our basic embodied experience Written by a leading interdisciplinary researcher this book is a tour de force which will be of interest to a variety of researchers students and practitioners in psychology as well as an interdisciplinary audience with an interest in the intricate web weaved between the human psyche and its cultural context *In God's Own Image* Simon Peter Kyambadde,2005 Integrating modern psychological insights with Christian biblical teaching *In God s Own Image* is a useful tool to the individual or group seeking personal growth as well as to a counsellor spiritual director or growth facilitator assisting others in that all important journey of human growth it proceeds in three main steps first portraying the ideal of the personality as God meant it to be then the reality of what we are that includes goodness and deformation and finally exmining how we can reclaim the ideal both for ourselves and for those we assist whether individually or as groups The material is arranged under three parts Part I describes the ideal What god meant us to be Part II describes the reality what we actually are with both our original beauty and our fallen nature Part III describes what we can become how we can move towards our original beauty A fundamental attitude to have in the arduous struggle of human growth whether this concerns one s own growth or one s duty in assisting the growth of others involves three convictions 1 Change is difficult A realistic appraisal of this fact doe not lead to discouragement On the contrary it leads to perseverance to patience endurance courage and acceptance of occasional failure all factors that accompany genuine growth It helps us avoid the pitfall of looking for quick tangible results 2 Change is important In fact conversion and growth are not just important they are fundamental to a life worth living Striving towards our ideal self is the most important thing in our lives For that reason it is worth spending on it every ounce of strength in us When we are convinced of this then we are motivated to work for it 3 Change is Possible It is possible to improve to be converted and to grow When we have struggled to overcome one difficulty or another for years without visible success we may get into the belief that it is hopeless to think of the possibility of overcoming the diffiiculties But the good news about each one of us is that however much the beautiful image of God in us has been tarnished and disfigured we have the possibility to have it restored to its original beauty *In Face of Mystery* Gordon D. Kaufman,1993 In the symbolic world of Christianity which millions have inhabited for centuries is there room for modern and postmodern life for today s real world of cultural relativism and religious pluralism of scientific knowledge and historical understanding *In Face of Mystery* draws these two worlds together in a full scale reconception of Christian theology Theology Gordon Kaufman suggests is an imaginative construction the creation of a symbolic world for ordering life As it has been constructed so it can be reconstructed and Kaufman does so in a way that clarifies both the historic roots and the present day applications of

Christian symbolism He works with a biohistorical interpretation of human life one that portrays humanity as a product of biological evolution and historical development While taking account of cultural and religious pluralism and while providing criteria for making comparative assessments and judgments this interpretation of human historical existence also situates human beings with their capacities for freedom and creativity within the ecological web that sustains all life Human beings Kaufman argues have created religious symbolism as a necessary part of their attempt to orient themselves in the world He shows how Christianity as a system of symbols has figured in this effort and he carefully examines the separate elements of the Christian perspective foremost among them God How does the concept of God as an ultimate point of reference enhance our understanding of today s world and how does the symbol Christ qualify this concept The answers Kaufman proposes clarify the changing relevance of the symbolic world of Christianity Firmly embedded in physical and social science and in the tradition of American pragmatism this thorough reconception of a Christian worldview offers insight into the most basic questions confronting humanity today questions of value meaning and self identity
