God And The Evolving Universe:

God and the Evolving Universe James Redfield, Michael Murphy, Sylvia Timbers, 2003-01-06 In a world racked by violence and conflict James Redfield and Michael Murphy leading cocreators of today's spiritual boom present a message of hope and a vision for the future It is no accident they argue that the twentieth and early twenty first centuries have witnessed a revolution in new human capacities Daily we hear and read about supernormal athletic feats clairvoyant perception lives transformed by meditative practices healing through prayer and we ourselves experience these things The authors contend that thousands of years of human striving have delivered us to this very moment in which each act of self development is creating a new stage in planetary evolution and the emergence of a human species possessed of vastly expanded potential

God and the Evolving Universe James Redfield, Michael Murphy, Sylvia Timbers, 2003-01 Unites personal and planetary evolution in order to explain how each act of individual improvement is part of a new evolutionary scheme discussing how to discover one's place in the evolution process and promote spiritual development *God in an Evolving Universe* Olivier A. Rabut, 1966 New Horizons in Theology Terrence W. Tilley, 2015-03-04 To celebrate the fiftieth anniversary of the College Theology Society these original essays explore how theology has changed over the previous fifty years theological concerns on the horizon today and approaches to teaching theology appropriate for the twenty first century Contributors Elizabeth A Johnson Joseph A Komonchak Norbert Rigali J Matthew Ashley Elizabeth T Groppe Michael Horace Barnes Steven R Harmon Colleen M Mallon Anne M Clifford Sally Kenel Randall Jay Woodard Sandra Yocum Mize Mary Ann Hinsdale Miguel H Diaz James A Donahue Suzanne C Toton Ismael Muvungi *Divine Providence and Human Agency* Alexander S. Jensen, 2016-05-13 Divine Providence and Human Agency develops an understanding of God and God's relation to creation that perceives God as sovereign over creation while at the same time allowing for a meaningful notion of human freedom This book provides a bridge between contemporary approaches that emphasise human freedom such as process theology and those influenced by it and traditional theologies that stress divine omnipotence This book argues that it is essential for Christian theology to maintain that God is ultimately in charge of history otherwise there would be no solid grounds for Christian hope Yet the modern human self understanding as free agent within certain limitations must be taken seriously Jensen approaches this apparent contradiction from within a consistently trinitarian framework Jensen argues that a Christian understanding of God must be based on the experience of the saving presence of Christ in the Church leading to an apophatic and consistently trinitarian theology This serves as the framework for the discussion of divine omnipotence and human freedom On the basis of the theological foundation established in this book it is possible to frame the problem in a way that makes it possible to live within this tension Building on this foundation Jensen develops an understanding of history as the unfolding of the divine purpose and as an expression of God's very being which is self giving love and desire for communion This book offers an important contribution to the debate of the doctrine of God in the context of an evolutionary

Wilmot,2006-01-01 This book is intended as a contribution towards the renewal of theological discourse in the final quarter of the twentieth century It presents the findings from personal research into the development of the concept of God in the philosophy of Alfred North Whitehead and the application of his conceptual tools in a re examination of the writings of some fourth century Christian theologians in their efforts to provide answers to the problems posed for the Church by Arianism The research was prompted by Whitehead s recommendations addressed to theologians in *Adventures of Ideas* **Organizations and Strategies in Astronomy** Andre HECK,2013-06-05 Anyone who doubts that astronomy is enjoying a golden age has only to browse the pages of *Organizations and Strategies in Astronomy* Vol 5 Our golden age is defined not only by the enormity of new discoveries of dark energy dark matter extra solar planets and the evolution of Mars but also by the breadth diversity and creativity within our community This volume records our history in a period of such rapid change and growth that individual astronomers are hard pressed to keep abreast of their own fields and neighborhoods much less of developments world wide Since the 1950 s changes in the landscape of astronomy are manifold We have witnessed two epochs of big telescope construction the 4 meter class telescopes of the 60s and 70s and the 8 to 10 meter class telescopes of the 90s continuing through today We accomplished the transition from photographic to digital data and we continue to improve the size and sensitivity of astronomical detectors We have witnessed the flowering of radio astronomy and the opening of the full electromagnetic spectrum through space astronomy We have seen the growth of national and international astronomy facilities and a dramatic broadening of the accessibility of data both through observing facilities available through open competition based on scientific merit and through deep rich archives of data

God After Darwin John F. Haught,2018-05-04 In *God After Darwin* eminent theologian John F Haught argues that the ongoing debate between Darwinian evolutionists and Christian apologists is fundamentally misdirected Both sides persist in focusing on an explanation of underlying design and order in the universe Haught suggests that what is lacking in both of these competing ideologies is the notion of novelty a necessary component of evolution and the essence of the unfolding of the divine mystery He argues that Darwin s disturbing picture of life instead of being hostile to religion as scientific skeptics and many believers have thought it to be actually provides a most fertile setting for mature reflection on the idea of God Solidly grounded in scholarship Haught s explanation of the relationship between theology and evolution is both accessible and engaging The second edition of *God After Darwin* features an entirely new chapter on the ongoing controversial debate between intelligent design and evolution including an assessment of Haught s experience as an expert witness in the landmark case of *Kitzmiller v Dover Area School District* on teaching evolution and intelligent design in schools God, Revelation and Authority Carl F. H. Henry,1999 Part 5 in a monumental six volume set that presents an undeniable case for

the revealed authority of God to a generation that has forgotten who he is and what he has done Tomorrow's God Lloyd Geering, 2015-12-23 The post Christian era offers a mixed blessing as people find greater personal freedom while facing a future without the certainty of traditional beliefs and practices In Tomorrow's God renowned writer and commentator Lloyd Geering argues that the world we live in is largely a product of our own making Thus God a central symbol of meaning is entirely a human creation Geering urges us to consciously create new meaning for our lives in a work that is a distillation of a lifetime's reading and reflection on religious and social questions *Responses to One Hundred and One Questions on God and Evolution* John F. Cooper, 2006-11-01 Panentheism has gained popularity among contemporary thinkers This belief system explains that all is in God as a soul is related to a body so God is related to the world In *Panentheism The Other God of the Philosophers* philosopher and theologian John Cooper traces the growth and evolution of this intricate theology from Plotinus to Alfred North Whitehead to the present This landmark book the first complete history of panentheism written in English explores the subject through the lens of various thinkers such as Plato Jürgen Moltmann Paul Tillich Wolfhart Pannenberg and Charles Hartshorne and discusses how panentheism has influenced liberation feminist and ecological theologies Cooper not only sketches the evolution of panentheism but also critiques it ultimately he offers a defense of classical theism This book is for readers who care deeply about theology and think seriously about their faith Forget Not God's Benefits (Psalm 103:2) Barbara E. Reid, 2025-04-28 Leslie Hoppe OFM has had a distinguished career in biblical studies He is known for his work on the book of Deuteronomy and the Deuteronomistic History but his interests have ranged over many areas of the Scriptures including the prophets biblical geography archaeology history and biblical perspectives on poverty In his writing and research he has broken new ground and advanced the discipline time and again For many years Hoppe served as the editor of the Catholic Biblical Quarterly and he oversaw the publication of numerous articles that have impacted the study of both the Old and New Testaments A capstone to Hoppe's illustrious career his editorship of the CBQ is reflected in the design of this volume which comprises works by scholars of both testaments The chapters here range from Genesis to the Gospels and Pauline letters Leslie Hoppe's colleagues have given him a fitting tribute a Festschrift with breadth as well as depth Darwin and Catholicism Louis Caruana, 2009-08-06 This coherent collection of original papers marks the 150 year anniversary since the publication of Charles Darwin's *Origin of Species* 1859 Although the area of evolution related publications is vast the area of interaction between Darwinian ideas and specifically Catholic doctrine has received limited attention This interaction is quite distinct from the one between Darwinism and the Christian tradition in general Interest in Darwin from the Catholic

viewpoint has recently been rekindled The major causes of this include 1 John Paul II s Message to the Pontifical Academy of Sciences on Evolution in 1996 2 the document Communion and Stewardship Human Persons Created in the Image of God issued in 2002 by the International Theological Commission under the supervision of Cardinal Joseph Ratzinger the present Pope Benedict XVI 3 Cardinal Christoph Schönborn s apparent endorsement of Intelligent Design in his New York Times article Finding Design in Nature of July 7 2005 4 Pope Benedict XVI s contributions in the recent collection of papers Schöpfung und Evolution Creation and Evolution published in Germany in April 2007 Responding to this heightened interest the book offers a valuable collection of work from outstanding Catholic scholars in various fields *God and the New Cosmology* Michael Anthony Corey, 1993 Given the excellent historical context in which Corey frames his case and the rational manner in which he closes off the loopholes the stage is set for paradigm shift in the secular area I highly recommend this book Hugh Ross Astronomer
