God As Mother A True Story Of The Search For Mystic Christianity:

Conscious Evolution Barbara Smith Stoff, Sheldon Stoff, 2010-10-27 With deep reading in myth and literature ones cognition becomes as a rich mother loam wherein spirit can dwell and build that interior castle from which the indwelling spirit begins to speak through the imagination the body and the intellect of the individual Over time body mind and spirit become one Then this one can and often does experience the merging within the One Through the merging of intuition and intellect we will comprehend the acceleration of consciousness that is overtaking us Functioning within a state of universal awareness of our oneness will in the long run prove to be much easier than defining ourselves into small groupings of discordant persons and nations The education and evolution of vibrant communities is our beginning task The creation of a world with a universal consciousness of oneness is our ultimate realization To act in accord to make a bridge to new ways of thinking and in the belief that the reported experiences of individual journeys in our studies and in our consciousness can be of great significance now at this point in time with the world in a general state of confrontation and conflict we offer this report from our own research and from within this frame of reflection God As Mother Victoria Jennings, 2002-12 **The Publishers Weekly** , 2009 **The Modern Christian Mystic** Albert J. LaChance, 2007 In this new work Albert LaChance presents a complete reframing of Christianity as an experiential rather than dogmatic approach to the presence of Christ It emphasizes the idea of Christ as the source and sustainer of the cosmos the Earth the life community and global culture As such it takes a unitive approach with Christianity understood as being in mystical union with global culture and with the ecological realities of the Earth In the author's view Christianity thus joins hands with Buddhism Hinduism and Taoism in a unitive oneness with all that is Consisting of twenty eight short chapters *The Modern Christian Mystic* focuses on the presence of God permeating and organizing the beginning of existence in the form of consciousness giving birth to energy and then the material reality of the universe The author argues that just as St Augustine introduced the pagan Plato to Christianity and a millennium later St Thomas Aquinas revitalized his faith with the pagan philosophy of Aristotle so in the modern age the non theism of Buddhism Taoism and Hinduism holds the key to a revived mystical practice *The Modern Christian Mystic* posits a nurturing new world based on commonality rather than conflict in the world of spirit
