God And Man In Time A Christian Approach To Historiography:

God and Man in Time Earle Edwin Cairns,1979 *Faith and Learning* David S. Dockery,2012 Two dozen Christian higher education professionals thoroughly explore the question of the faith's place on the university campus whether in administrative matters the broader academic world or in student life *Historiography: Ideas* Robert M. Burns,2006 This collection aims to enable the reader to disentangle some of the ambiguities and confusions which have characterized the use of the term historiography **A History of Christian Thought Volume I** Dr. Justo L. Gonzalez,2010-09-01 A treatment of the evolution of Christian thought from the birth of Christ to the Apostles to the early church to the great flowering of Christianity across the world The first volume introduces the central figures and debates culminating in the Councils of Nicea and Chalcedon among which the theologies of the early church were hammered out Volume 2 9781426721915 Volume 3 9781426721939 *Elie Kedourie's Approaches to History and Political Theory* Sylvia Kedourie,2013-10-18 Elie Kedourie was one of the twentieth century's most important and controversial historians of the Middle East He redefined the landscape of the field by challenging the notion that the West's imperial domination of the region spawned nationalism in Arab countries In a long career lecturing in politics at the London School of Economics Kedourie inspired a generation of political scientists and politicians A dedicated scholar and meticulous teacher he founded Middle Eastern Studies a journal which forty years after its launch remains one of the leading publications in the field and a monument to his work Bringing together some of the most distinguished figures in Middle Eastern studies this collection evaluates Kedourie's contribution to Middle Eastern history and political thought and assesses the impact of his scholarly legacy The volume contains a complete bibliography of his writing and was previously published as a special issue of Middle Eastern Studies *Knowing Future Time In and Through Greek Historiography* Alexandra Lianeri,2016-03-07 From the early modern period Greek historiography has been studied in the context of Cicero's notion *historia magistra vitae* and considered to exclude conceptions of the future as different from the present and past Comparisons with the Roman Judeo-Christian and modern historiography have sought to justify this perspective by drawing on a category of the future as a temporal mode that breaks with the present In this volume distinguished classicists and historians challenge this contention by raising the question of what the future was and meant in antiquity by offering fresh considerations of prognostic and anticipatory voices in Greek historiography from Herodotus to Appian and by tracing the roots of established views on historical time in the opposition between antiquity and modernity They look both at contemporary scholarly argument and the writings of Greek historians in order to explore the relation of time especially the future to an idea of the historical that is formulated in the plural and is always in motion By reflecting on the prognostic of historical time the volume will be of interest not only to classical scholars but to all who are interested in the history and theory of historical time *A History of Orthodox, Islamic, and Western Christian Political Values* Dennis J. Dunn,2016-09-13 The book reveals the nexus between religion and politics today and

shows that we live in an interdependent world where one global civilization is emerging and where the world's peoples are continuing to coalesce around a series of values that contain potent Western overtones. Both Putin's Orthodox Russia and regions under the control of such Islamist groups like ISIS and Al Qaeda resent and attempt in a largely languishing effort to frustrate this series of values. The book explains the current tension between the West and Russia and parts of the Muslim world and sheds light on the causes of such crises as the Syrian Civil War, Russia's aggression against Ukraine and acts of terrorism such as 9/11 and the ISIS inspired massacres in Paris. It shows that religion continues to affect global order and that knowledge of its effect on political identity and global governance should guide both government policy and scholarly analysis of contemporary history.

The Patristic Witness of Georges Florovsky Georges Florovsky, 2019-09-19. Georges Florovsky (1893-1979) was one of the most prominent Orthodox theologians and ecumenists of the twentieth century. His call for a return to patristic writings as a source of modern theological reflection had a powerful impact not only on Orthodox theology in the second half of the twentieth century but on Christian theology in general. Florovsky was also a major Orthodox voice in the ecumenical movement for four decades and he is one of the founders of the World Council of Churches. This book is a collection of major theological writings by George Florovsky. It includes representative and widely influential but now largely inaccessible texts, many newly translated for this book, divided into four thematic sections: Creation, Incarnation and Redemption; The Nature of Theology; Ecclesiology and Ecumenism; and Scripture, Worship and Eschatology. A foreword by Metropolitan Kallistos Ware presents the theological vision of Georges Florovsky and discusses the continuing relevance of his work both for Orthodox theology and for modern theology in general. The introduction by the Editors provides a theological and historical overview of Florovsky's theology in the context of his biography. The book includes explanatory notes, translation of patristic citations and an index.

Time, Religion and History William Gallois, 2014-06-11. What is time? How does our sense of time lead us to approach the world? How did the peoples of the past view time? This book answers these questions through an investigation of the cultures of time in Christianity, Islam, Buddhism, Judaism and the Australian Dreamtime. It argues that our contemporary world is blind as to the significance and complexity of time, preferring to believe that time is natural and unchanging. This is of critical importance to historians since the basic matter of their study is time, yet there is almost no theoretical literature on time in history. This book offers the first detailed historiographical study of the centrality of time to human cultures. It sets out the complex ways in which ideas of time developed in the major world religions and the manner in which such conceptions led people both to live in ways very

different to our contemporary world and to make very different kinds of histories It goes on to argue that modern scientific descriptions of time such as Einsteins Theory of Relativity lie much closer to the complex understandings of time in religions such as Christianity than they do to our common sense notions of time which are centred on progress through a past present and future Ethical Implications of One God Robert Petkovsek,Bojan Zalec,2021-01-27 The issue of the ethical implications of monotheism is a very relevant topic from the point of view of contemporary humanities and social science and from the perspective of the cultural and political condition in Europe and at the global scale Therefore a scientific book devoted to this subject makes a lot of sense Throughout the history and in present times monotheism has been subjected to several sharp criticisms On the other hand we find also very different evaluations of it They stress its positive and even crucial contribution to peace forming of rational non violent tolerant culture and society to the scientific political and cultural development to democracy etc The book offers fresh interdisciplinary perspectives mainly from the point of view of humanities on the ethical aspects of monotheism broadens the scientific understanding of it and establishes a basis for resolving conflicts to which the understanding of monotheism is relevant or even decisive **Religion and the Rise of History** Leonard S
