

Komme, Tod, und raub' mich, Tod, im Ruffe!"
Und der Tod, von schwellend jungen Lippen
Heiß und leidenschaftlich angerufen,
Hörte seinen Namen mit Vergnügen.
Ueber sein geheimnißvolles Antlitz
Glitt ein Leuchten und er schied in Rinn.

Catalogue of the Keiogijuku Library, 1912 *The Image and Influence of America in German Poetry Since 1945* Gregory Divers, 2002 Examines the image of the US in German poetry and the reception and influence of American poetry in Germany since 1945 This book focuses on the image of the US in German poetry and the reception of American poetry in Germany since 1945 Gregory Divers examines poems by major figures in 20th century German literature Benn Brecht Bachmann Jandl and Grass among others and by other poets who shaped America's postwar image in Germany Divers traces America's postwar status in Germany from the prisoner of war poems of G nter Eich to the pop poetry of Rolf Dieter Brinkmann and Peter Handke Continuing he finds that although the 1960s protest poems of Erich Fried and others reflect the tarnishing of America's image due to Vietnam 1970s travel poems by Brinkmann Kunert and Kunze confirm the resiliency of that image Finally Divers looks at poems by Hartung Delius and Kling to illustrate the new heights reached by America's image within German literary circles during the 1980s and the status of America in Germany after reunification In charting these developments in postwar German poetry Divers also shows how American influences are crucial to its understanding not only surveying postwar German reception of Whitman Eliot Pound and William Carlos Williams but also examining the influence of such figures as Charles Olson and Robert Creeley Allen Ginsberg and the Beats Frank O Hara and John Ashbery and Robert Lowell and Sylvia Plath Gregory Divers is Assistant Professor of German at Saint Louis University *Lessing's Philosophy of Religion and the German Enlightenment* Toshimasa Yasukata, 2002 On the basis of intensive study of the entire corpus of Lessing's philosophical and theological writings as well as the extensive secondary literature the author leads the reader into the systematic core of Lessing's highly elusive religious thought **A Study of Goethe's Printed Text: Hermann and Dorothea** Waterman Thomas Hewett, 1899 **Publications of the Modern Language Association of America** Modern Language Association of America, 1899 Vols for 1921 1969 include annual bibliography called 1921 1955 American bibliography 1956 1963 Annual bibliography 1964 1968 MLA international bibliography **A Catalogue of the Books in Westerton's English & Foreign Library ... Johann Christoph Blumhardt, Life and Work Dieter Ising, 2009-08-01 Johann Christoph Blumhardt 1805 1880 was a pastoral counselor and theologian of hope His theology and pastoral approach shaped as they were by the awakening in his congregation and numerous incidents of faith healing provoked earnest and lively debate and the controversy continues today Ising's work mines the original sources the product of an interaction with Blumhardt's life and work that goes back

many years He has drawn a portrait that explores the shadows as well as its bright side Readers are invited to enter fully into the nineteenth century Blumhardt s century yet are constantly reminded that the problems of that day have lost none of their currency within the altered mental horizons of today *Reason and Being* Boris G. Kuznetsov,2013-06-29 Boris Kuznetsov was a scientist among humanists a philosopher among scientists a historian for those who look to the future an optimist in an age of sadness He was steeped in classical European culture from earliest times to the latest avant garde and he roamed through the ages an inveterate time traveller chatting and arguing with Aristotle and Descartes Heine and Dante among many others Kuznetsov was also in his intelligent and thoughtful way a Marxist scholar and a practical engineer a patriotic Russian Jew of the first sixty years of the Soviet Union Above all he meditated upon the revolutionary developments of the natural sciences throughout history to be sure but particularly in his own time the time of what he called non classical science and of his beloved and noblest hero Albert Einstein Kuznetsov was born in Dnepropetrovsk on October 5 1903 then Yekaterinoslav By early years he had begun to teach first in 1921 at an institute of mining engineering and then at other technological institutions By 1933 he had received a scientific post within the Academy of Science of the U S S R and then at the end of the Second World War he joined several colleagues at the new Institute of the History of Science and Technology For more than 40 years he worked there until his death two years ago **Bent's Literary Advertiser and Register of Engravings, Works on the Fine Arts** ,1843 *The Monthly Literary Advertiser* ,1834 **European Physico-theology (1650-c.1760) in Context** Kaspar von Greyerz,2022-04-07 Physico theology celebrated the observation of nature as a way toward the recognition of God as Creator and to demonstrate the compatibility of the biblical record with the new science It was a crucial albeit often underestimated element in the intellectual as well as socio cultural establishment of the new science in western and central Europe beginning in the mid seventeenth century The importance of physico theology in enhancing the acceptance of the new science among a broad educated public cannot be underestimated Unfortunately this insight has not yet received much attention in the history of early modern science chiefly because the history of physico theology tends to highlight the activities of virtuosi rather than well known scientists A contribution to the history of knowledge this is the first monograph in English on physico theology on the European scale It concentrates on two genres the argument from design and the palaeontological argument regarding the role of the Deluge in the formation of fossils It does so without neglecting practice correspondence and collecting It pays considerable attention to the historical context above all to the new image of God as a wise benevolent rather than unpredictable being which provided the practitioners of physico theology including clergy physicians lawyers and philologists with a new and powerful argument It draws attention to the predominantly Protestant nature of the phenomenon and looks at the longevity of the argument from design in Britain and the Netherlands where its demise came about as late as the first half of the nineteenth century *Norton's Literary Gazette and Publishers' Circular* ,1855 *The Bänkelsang and the work of Bertolt Brecht* Sammy K.
