organism and how do they work How did these mechanisms preserve the integrity of Muslim civilization through the innumerable hazards divisions and devastations of time From the perspective of history and intellectual history this book focuses on a significant though still largely under studied aspect of this immense issue namely the role of mystical and messianic ferment in the construction and re construction of religious authority in Islam Sixteen scholars address this topic with a variety of approaches providing a fresh outlook on the trends underlying the evolution of Muslim societies and in particular the emergence and consolidation of the Ottoman Safavid and Mughal Empires Contributors include Abbas Amanat Mohammad Ali Amir Moezzi Paul Ballanfath Shahzad Bashir Ilker Evrim Binba Daniel De Smet Devin DeWeese Armin Eschraghi Omid Ghaemmaghami Ahmet T Karamustafa Todd Lawson Pierre Lory Matthew Melvin Koushki Orkhan Mir Kasimov A Azfar Moin William F Tucker

The Garden of Reality Roland Faber, 2018-06-20 The Garden of Reality contemplates the relativity of religious truth religious pluralism transreligious discourse postmodern cosmology and multireligious mysticism Its transreligious approach aims at a future multireligious peaceful society in an ecological and cosmic context It proposes that the future of humanity is bound to conviviality with itself and the Earth that the deepest religious motivations of existing together are relative to one another and that transreligious relativity is essential to the conviction of religions that their motivations experiences and conceptualities are meaningful real and true By engaging diverse voices from poststructuralism to Sufism Dzogchen and philosophical Daoism from conceptual frameworks of Christianity and Hinduism to mystical and postmodern cosmology current cosmopolitanism and interreligious and interspiritual discourses but especially understudied contributions of process thought and the Bah religion this book suggests that multireligious conviviality must listen to the universal relevance of a multiplicity of minority voices Its polyphilic pluralism affirms the mutual immanence and co creative nature of religions and spiritualities with the universal in sistance of divine or ultimate reality in the cosmos Embracing a relativistic and evolutionary paradigm in an infinite cosmos of creative becoming religions must cope with events of novelty that disturb and connect transcend and contrast the continuum of their truth claims but must avoid conflict as religious diversity is enveloped by an ever folding landscape of ultimate reality
