Individual chapters demonstrate the importance of gender in understanding and interpreting presidential elections, presidential and vice presidential candidacies, voter participation and turnout, voting choices, congressional elections, the political involvement of Latinas, the participation of African American women, the support of political parties and women's organizations, candidate communications with voters and state elections. **Masculinity in American Politics** Monika L. McDermott, Dan Cassino, 2025-02-25 How elements of masculinity manifest themselves in all aspects of American political life While hardly a new phenomenon masculinity which includes elements of toughness independence and leadership among others roared onto the national political stage in America with the 2016 candidacy election and presidency of Donald Trump Research into masculinity dates back over a century but little attention has been paid to the specific role of masculinity in politics beyond the conventional wisdom that it rather than femininity is the dominant force This lack of research has led to a lack of knowledge on how exactly and how much masculinity shapes political structures attitudes and behaviors from children's socialization to our masculine political world to how a new generation views this traditional dominance In *Masculinity in American Politics* Monika L. McDermott and Dan Cassino bring together a prestigious group of interdisciplinary scholars to explore these questions and their implications for different aspects of political life Topics include the challenge of defining and measuring masculinity how perceptions of gender and masculinity can shape campaign messaging strategies and public opinion and other discussions of political identity including age race and ethnicity With contributions from Melissa Deckman Jill S. Greenlee Amanda Bittner and other high profile scholars this comprehensive volume provides insight into masculinity and its high stakes political manifestations particularly as Gen Z fights to redefine the contours of their own gender and sexuality Drawing upon insights from politics sociology psychology and the broader social sciences *Masculinity in American Politics* pushes the field to look beyond the binary and illuminate this brave new world of political conflict and possibility

**Women in the American Political**

**System** Dianne G. Bystrom, Barbara Burrell, 2018-12-01 This book examines how women candidates voters and office holders shape U S political processes and institutions lending their perspectives to gradually evolve American life and values This book provides an encyclopedic sourcebook on the evolution of women s involvement in American politics from the colonial era to the present covering all of the individuals organizations cultural forces political issues and legal decisions that have collectively served to elevate the role of women at the ballot box on the campaign trail in Washington and in state and city level political offices across the country The in depth essays document and examine the rising prominence of women as voters candidates public officials and lawmakers enabling readers to understand how U S political processes and institutions have been and will continue to be shaped by women and their perspectives on American life and values The entries cover a range of women politicians and officials female activists and media figures relevant organizations and interest groups such as Emily s List League of Women Voters and National Right to Life key laws court cases and events such as the Nineteenth Amendment the Equal Rights Amendment the Seneca Falls Convention the passage of Title IX and Roe v Wade and other topics like media coverage of appearance women s roles as campaign strategists fundraisers gender differences in policy priorities and the gender gap in political ambitions The text is supplemented by sidebars that highlight selected landmarks in women s political history in the United States such as the 2012 election of Tammy Baldwin the first openly gay U S senator

Gender in Campaigns for the U.S. House of Representatives Barbara Burrell, 2014-09-15 Barbara Burrell presents a comprehensive comparative examination of men s and women s candidacies for the U S House of Representatives in elections from 1994 through 2012 Analyzing extensive data sets on all major party candidates for 10 elections covering candidate status party affiliation fund raising candidate background variables votes obtained and success rates for both primary and general elections Burrell finds little evidence of categorical discrimination against women candidates Women compete equally with men and often outpace them in raising money gaining interest group and political party support and winning elections Yet the number of women elected to the U S House has expanded only incrementally The electoral structure limits opportunities for newcomers to win congressional seats and there remains a lower presence of women in winnable contests despite growing recruitment efforts Burrell suggests that congressional dysfunction discourages potential candidates from pursuing legislative careers and that ambitious women are finding alternative paths to influence and affect public policy

Hernandez, Leslie A. Navarro, Sharon A. Navarro, 2016-05-12 The challenges that women face as political candidates can be compounded by race In the case of Latinas stereotypes as well as national media coverage and labeling of Latino issues potentially creates an electoral burden for Latina candidates at the local state and national level The intersection of race and gender is complicated and often creates more questions than it answers How are Latinas elected Are they served by this complex identity or hindered by it *Latinas in American Politics Embracing and Changing Political Tradition* begins addressing the issues by examining the stereotypes Latinas face while running for political office More specifically the perception of voters on ideological standings of Latinas provides insight as to what party Latinas are identified with and how they can use this to their advantage In addition to establishing the role stereotypes play in the electability of Latinas the way they use and diffuse these stereotypes via campaigns is examined The images that Latinas present and how they interact with voters via social media establishes a new dynamic in campaigning and allows for theory building in the area of race gender and campaigns Aside from campaigning party identification for a Latina creates a different barrier How do Latinas bridge this Case studies of prominent Latina officials are examined to understand within which contexts and under what conditions Latinas as candidates and as elected officials will experience intersectionality as advantage and disadvantage Finally the examination of Latina congressional members shows whether and how the intersection of gender and ethnicity in descriptive representation contributes uniquely to patterns of substantive representation Ultimately this volume demonstrates how the intersection of race and gender creates unique situations for representation and electability of candidates *American Presidential Candidate Spouses* Laurel Elder, Brian Frederick, Barbara Burrell, 2018-03-20 The book offers a comprehensive analysis of public opinion toward presidential candidate spouses over the course of three decades drawing on multiple theoretical frameworks including the concept of new traditionalism and a plethora of empirical data to explore why some spouses engender greater support than others and what these reactions reveal about the American public and the gendered nature of the American presidency Recognizing that presidential candidate spouses are important but understudied political actors this book provides extensive analysis of public evaluations of Bill Clinton and Melania Trump during the 2016 presidential election as well as the presidential candidate spouses in the 1992 and 2012 elections and places public reaction to these individuals in historical context The book considers important trends in U S elections including party polarization from the distinctive vantage points of candidate spouses and explores the symbolic importance of historic firsts including the first African American candidate spouse and the first male candidate spouse No other work provides a systematic exploration

of public opinion towards candidate spouses as distinct political entities across the modern political era     *The American Election 2012* R. Holder, P.
