Gender Development:

Gender and Development Janet Henshall Momsen, 2004-02-24 In third world countries gender roles are different from those in western countries This reality is of utmost interest for development policy makers planners and project designers from donor countries More often than not development projects sponsored and implemented by western organizations reflect ethnocentric biases about the sexual division of labour rights and responsibilities based on standards from the donor country Too many projects have failed or not had the intended beneficial effect on those in need because they were administered with very little insight into gender relations This volume deals with the importance of gender relations in crucial areas of development such as agriculture employment housing transport health and household management and it underlines the necessity of having statistical materials that realistically reflect gender differentials

Gender Development Judith E. Owen Blakemore, Sheri A. Berenbaum, Lynn S. Liben, 2013-05-13 This text offers a unique developmental focus on gender Gender development is examined from infancy through adolescence integrating biological socialization and cognitive perspectives The book's current empirical focus is complemented by a lively and readable style that includes anecdotes about children's everyday experiences The book's accessibility is further enhanced with the use of bold face to highlight key terms when first introduced along with a complete glossary of these terms All three of the authors are respected researchers in divergent areas of children's gender role development and each of them teaches a course on the topic The book's primary focus is on gender role behaviors how they develop and the roles biological and experiential factors play in their development The first section of the text introduces the field and outlines its history Part 2 focuses on the differences between the sexes including the biology of sex and the latest research on behavioral sex differences including motor and cognitive behaviors and personality and social behaviors Contemporary theoretical perspectives on gender development biological social and environmental and cognitive approaches are explored in Part 3 along with the research supporting these models The social agents of gender development including children themselves family peers the media and schools are addressed in the final part Cutting edge and comprehensive this is the perfect text for those who have been searching for an advanced undergraduate and or graduate book for courses in gender development the psychology of sex roles and or gender and or women or men taught in departments of psychology human development and educational psychology Although chapters have been designed to be read sequentially a full author citation is included the first time a reference is used within an individual chapter rather than only the first time it is used in the book making it easy to assign chapters in a variety of orders This referencing system will also appeal to scholars interested in using the book as a resource to review a particular content area

Gender Development & Globalization Terryl Blackwell,2018-06-18 Gender Development and Globalization is the leading primer on global feminist economics and development Gender is a development issue because social considerations are not easily incorporated into institutions such as policies regulations markets and organizations This process is often referred to as the mainstreaming of gender in development institutions Women are often in a disadvantaged position in terms of access to assets services information and formal decision making status Gender equality is considered a critical element in achieving Decent Work for All Women and Men in order to effect social and institutional change that leads to sustainable development with equity and growth Gender equality refers to equal rights responsibilities and opportunities that all persons should enjoy regardless of whether one is born male or female Gender developmental scientists are concerned with age related changes in gender typing and more broadly with many issues about the emergence and patterning of gendered behaviors and thinking Description of these changes is vitally important as it informs theoretical approaches to gender development Using a broad lens on age related changes provides important information describing how development occurs but shorter time frames are also useful for identifying processes that may underlie developmental patterns Gender has been increasingly acknowledged as a critical variable in analysis and development planning Gender is an expression of power in social relationship between men and women The book will be very useful to academicians researchers planners students NGOs civil societies and all those who are interested in women studies in general and gender issues in contexts in particular

Gender, Development, and Diversity Caroline Sweetman,2004 This collection focuses on implications for development goals of poverty alleviation and human rights In particular critiques from Southern women challenge development organisations for their inadequate and inappropriate policy and practice with gender inequality as a key concern

Gender, Development, and Citizenship Caroline Sweetman,2004 Focusing on citizenship means thinking about the relationships between individuals and the states in which they live What difference does having citizenship rights mean for people s lives Are structures of governance efficient and responsive to people s needs This collection of articles examines ways in which citizenship is denied and argues that citizenship can be used to demand and advance human rights Women often find themselves excluded from full citizenship by legal systems which leave men to look after the interests of their female dependants But women need recognition as citizens in their own right to protect them from exploitation and abuse People from marginalized communities also often find that the

state fails to respond to their needs and interests Finally migrants e a growing group of women and men in our global economy e live precariously as aliens in states which do not acknowledge their claims to basic security and services Topics here include the tension between cultural sensitivity and universal concepts of rights reinterpretations of citizenship in communities where the state has failed to guarantee political or economic rights and projects that are helping to advance active citizenship by increasing people's voice in decisionmaking

Gender, Development, and the State in India Carole Spary,2019-02-21 This book explores the relationship between the state development policy and gender in equality in India It discusses the formation of state policy on gender and development in India in the post 1990 period through three key organising concepts of institutions

discourse and agency The book pays particular attention to whether the international policy language of gender mainstreaming has been adopted by the Indian state and if so to what extent and with what results The author examines how these issues play out at multiple levels of governance at both the national and the subnational state level in federal India This comparative aspect is particularly important in the context of increasing autonomy in development policymaking in India in the 1990s divergent development policy approaches and outcomes among states and the emerging importance of subnational state development policies and programmes for women in this period The author argues that the state is not a monolith but a heterogeneous internally differentiated collection of institutions which offers complex and varying opportunities and consequences for feminists engaging the state Demonstrating that the Indian empirical case is illuminating for studies of the gendered politics of development and international debates on gender mainstreaming the book highlights the politics of negotiating gender equality strategies in the contemporary context of neo liberal development and brings together complex issues of modernity postcolonialism identity politics federalism and equality within the broader context of the world s largest democracy This book will be of interest to scholars interested in the politics of gender equality state feminism and gender mainstreaming federalism and multi level governance and development studies and gender in South Asia **Gender and Sexuality Development** Doug P.
