## **Gender Dimensions Of Alcohol Consumption And Alcohol Related Problems In Latin America And The Caribbean:**

**Gender Dimensions of Alcohol Consumption and Alcohol-related Problems in Latin America and the Caribbean** Hnin Hnin Pyne, Mariam Claeson, Maria Correia, 2002-01-01 While the World Bank has included the issue of alcohol consumption and production on its agenda for the past ten years it has not included gender dimensions in the issue By focusing on alcohol consumption in Latin America and the Caribbean the instances of death disease and domestic violence arising from alcoholism were tracked This study recommends an approach to dealing with the damage done by alcohol consumption and production that goes beyond controlling its availability Specifically the measures recommended include increasing knowledge through research developing indicators to measure consumption levels and patterns among men and women and the economic and social consequence of alcohol use integrating the issue of alcohol use and related problems into consultations with governments and civil society organizations and investment lending where appropriate to address the issue

**Health Capital and Sustainable Socioeconomic Development** Patricia A. Cholewka, Mitra M.

Motlagh, 2008-03-10 Given ongoing worldwide calamities such as famine natural disasters and drug abuse international attention has increasingly focused upon disease detection prevention containment and treatment Ill health hampers a country's social and economic development by triggering a vicious cycle of unsustainable resource use Given the recent outbreaks of worldwide calamities such as famine and natural disasters international attention has increasingly focused upon disease detection prevention and treatment Serving an unmet need in the marketplace this text highlights mounting evidence of the relationship between human capital and socioeconomic development and poses management strategies from international and interdisciplinary sources Scholars and practitioners in the health and sustainable development fields address such issues as healthcare and education funding for healthcare services and the impact of legal and political policies

The Other Half of Gender Ian Bannon, Maria Correia, 2006-01-01 This book is an attempt to bring the gender and development debate full circle from a much needed focus on empowering women to a more comprehensive gender framework that considers gender as a system that affects both women and men The chapters in this book explore definitions of masculinity and male identities in a variety of social contexts drawing from experiences in Latin America the Caribbean and sub Saharan Africa It draws on a slowly emerging realization that attaining the vision of gender equality will be difficult if not impossible without changing the ways in which masculinities are defined and acted upon Although changing male gender norms will be a difficult and slow process we must begin by understanding how versions of masculinities are defined and acted upon

Globalisation, Religion & Development Mike O'Donnell,Hoshang Noraiee,Dorrie Chetty,Elizabeth Waters,Samane Salimi-Tari,Şevket Alper Koç,Hakkı Cenk,Sermin Sarıca,Alexandra Kelbert,Horacio Gago Priale,Arzu Culhaci,Sibel Fettahoğlu,2011 Globalisation religion and development have sparked much interest and debates in the last two decades The analysis of religion and especially Islam has been presented in a simplistic notion of linear development and the supposed inability to adapt to modernity and capitalism This journal will consider such views and assess their validity by focusing on Part 1 introducing the theoretical issues and debates surrounding globalisation religion and development illustrating the often contested nature of the concepts and considering the implications for modernity and development Part 2 continuing with the same theme but focusing on gender and development representation of women the effect of modernisation on the increasing consumption of alcohol in Kazakhstan women s access to higher education in revolutionary Iran and finally women and domestic violence Part 3 focusing on case studies to explore the implications of globalisation regionalisation and development in Iran Turkey Sudan Peru and Senegal Historical Dictionary of the World Bank Sarah Tenney,Anne C. Salda,2013-10-30 When it was founded back in 1944 no one could possibly have foreseen how the World Bank known more formally as the International Bank for Reconstruction and Development IBRD would flourish Today with 188 members it is by far the largest lender for projects in agriculture health infrastructure and many other fields in developing countries around the world with a budget of billions of dollars and a staff of more than 9 000 and its advice is usually heeded by both the developing countries which borrow from it and the advanced ones which contribute This second edition of the Historical Dictionary of the World Bank shows the substantial progress the Bank has made this mainly through the dictionary section with concise entries on its component institutions related organizations its achievements in various fields some of the major projects and member countries and its various presidents The introduction explains how the Bank works while the chronology traces the major events over nearly 70 years Meanwhile the list of acronyms reminds us just who the main players are And the bibliography directs readers to useful internal documentation and outside studies Developing Partnerships Kate Bedford,2009 A nuanced critique of how the World Bank encourages gender norms through its policies Developing Partnerships argues that financial institutions are key players in the global enforcement of gender and family expectations By combining analysis of documents produced and sponsored by the World Bank with interviews of World Bank staffers and case studies Kate Bedford presents a detailed examination of gender and sexuality in the policies of the world s

largest and most influential development institution Looking concurrently at economic and gender policy Bedford connects reform of markets to reform of masculinities loan agreements for export promotion to pamphlets for indigenous adolescents advising daily genital bathing and attempts to strengthen institutions after the Washington Consensus to efforts to promote loving couplehood in response to economic crisis In doing so she reveals the shifting relationships between development and sexuality and the ways in which gender policy impacts debates about the future of neoliberalism Providing a multilayered account of how gender aware policies are conceived and implemented by the World Bank *Developing Partnerships* demonstrates as well how institutional practices shape development      *Essential Psychiatry* Robin M. The SAGE Encyclopedia of Alcohol Scott C. Martin, 2014-12-16. Alcohol consumption goes to the very roots of nearly all human societies. Different countries and regions have become associated with different sorts of alcohol for instance the beer culture of Germany the wine culture of France Japan and saki Russia and vodka the Caribbean and rum or the moonshine culture of Appalachia. Wine is used in religious rituals and toasts are used to seal business deals or to celebrate marriages and state dinners. However our relation with alcohol is one of love hate. We also regulate it and tax it we pass laws about when and where it's appropriate we crack down severely on drunk driving and the United States and other countries tried the failed Noble Experiment of Prohibition. While there are many encyclopedias on alcohol nearly all approach it as a substance of abuse taking a clinical medical perspective alcohol alcoholism and treatment. The SAGE Encyclopedia of Alcohol examines the history of alcohol worldwide and goes beyond the historical lens to examine alcohol as a cultural and social phenomenon as well both for good and for ill from the earliest days of humankind.
