An abstract graphic featuring four overlapping, stylized, colorful shapes on a yellow background. The shapes are composed of thick, hand-drawn lines. One shape is red, one is purple, one is green, and one is blue. They overlap in a way that creates a sense of depth and movement. The red shape is on the left, the purple shape is at the top right, the green shape is at the bottom right, and the blue shape is at the bottom left. The lines are jagged and irregular, giving the shapes a dynamic, almost organic feel.

Gender Perspectives On Inheritance And Property:

Gender Perspectives on Property and Inheritance Sarah Cummings, 2001 Extrait de la couverture Legal and customary arrangements and practices govern women's rights and access to resources such as land and housing This book highlights women's unequal position in formal and customary laws and practices and the way in which gender relations affect women's and men's access to property through inheritance The introduction examines how gender relations define ownership and control of property and the attention that the issue of gender equality has received in the development agenda Five reviews from Latin America Ivory Coast South Africa the Middle East and India focus on the disjuncture between law and practice in terms of women's property and land rights inheritance access to resources marriage and employment These contributions also reflect on the importance of women's participation in decision making forums and the need for women's political organization and mobilization in order to redress gender imbalances in land and inheritance rights Gender Perspectives

Duncan, 2004 **Issues in Women's Land Rights in Cameroon** Lotsmart N. Fonjong, 2012 This book explores the customary social economic political and rights issues surrounding access ownership and control over land from a gender perspective It combines theory and practice from researchers lawyers and judges each with track records of working on women and rights concerns The nexus between the reluctance to recognize and materialize women's right to land and the increasing feminization of poverty is undeniable The problem assumes special acuity in an essentially agrarian context like Cameroon where the problem is not so much the law as its manner of application That this book delves into investigating the principal sources and reasons for this prevalent injustice is particularly welcome As some of the analyses reveal denying women their right to land acquisition or inheritance is sometimes contrary to established judicial precedents and even in total dissonance with the country's constitution Traditional and cultural shibboleths associated with land acquisition and ownership that tend to stymie women's development and fulfilment must be quickly shirked for such retrograde excuses can no longer find comfort in the law morality nor in modern traditional thinking The trend albeit timid of appointing women to Land Consultative Boards and even as traditional authorities can only be salutary These are some positive practical steps that can translate the notion of equal rights into equal power over land for both sexes otherwise equality in this context will remain an unattractive slogan **Negotiations of Gender and Property through Legal Regimes (14th-19th Century)**

Women, Law and Human Rights Fareda Banda,2005-10-04 Africa with its mix of statute custom and religion is at the centre of the debate about law and its impact on gender relations This is because of the centrality of the gender question and its impact on the cultural relativism debate within human rights It is therefore important to examine critically the role of law broadly constructed in African societies The book focuses on women s experiences in the family This is because the lives of women continue to be lived out largely in the private domain where the right to privacy is used to conceal unequal treatment of women which is justified by invoking custom and tradition The book shows how law and its interpretation is used to disenfranchise women resulting in their being deprived of land and other property which they may have helped to accumulate It also considers issues of violence within the home reproductive rights and examines the issue of female genital cutting The role of women in development is explored as is their participation in politics and the NGO sector A major theme of the book is a consideration of the linkages of constitutional and international human rights norms with local values This is done using feminist tools of analysis The book considers the provisions of the Protocol to the African Charter on Human and People s Rights on the Rights of Women which was adopted by the African Union in July 2003
