Contours of African American Politics Georgia A. Persons,2017-07-05 Contours of African American Politics chronicles the systematic study of African American politics and its subsequent recognition as an established field of scholarly inquiry African American politics emanates from the demands of the prolonged struggle for black liberation and empowerment Hence the study of African American politics has sought to track codify and analyse the struggle that has been mounted and to understand the historic and changing political status of African Americans within American society This two volume set presents a selection of scholarship on African American politics as it appeared in The National Political Science Review from its initial launch in 1989 to the spring of 2009 Represented are contributions from some of the leading scholars of African American politics who have helped to establish and sustain the field The volumes are organised around themes that derive from the unfolding real life drama of African American politics and its subsequent scholarly treatment The result is a window into the political efforts that meld the historically disparate strands of black political expressions into a reconstructed and strategically nimble electoral based mass mobilisation necessary for optimising the impact of the African American vote Sections in the volumes also chronicle the evolution of the National Conference of Black Political Scientists as a professional organisation The two volumes illuminate a pivotal epoch in black political empowerment and provide a context for the future of black politics

Racial Myths and Masculinity in African American Literature Jeffrey B. Leak,2005 The portrayal of black men in our national literature is controversial complex and often contradictory In Racial Myths and Masculinity in African American Literature Jeffrey B Leak identifies some of the long held myths and stereotypes that persist in the work of black writers from the nineteenth century to the present intellectual inferiority criminality sexual prowess homosexual emasculation and cultural deprivation Utilizing Robert B Stepto s call and response theory Leak studies four pairs of novels within the context of certain myths identifying the literary tandems between them and seeking to discover the

source of our culture's psychological preoccupation with black men. Calling upon interdisciplinary fields of study: literary theory, psychoanalysis, gender studies, legal theory, and queer theory, Leak offers groundbreaking analysis of both canonical texts representing the call of the call and response dyad and texts by emerging writers representing the response, including Frederick Douglass and Charles Johnson, Ralph Ellison and Brent Wade, Richard Wright and Ernest J. Gaines, and Toni Morrison and David Bradley. Though Leak does not claim that the response texts are superior to the call texts, he does argue that in some cases the newer work, such as Charles Johnson's *Oxherding Tale*, can address a theme or offer a narrative innovation not found in preceding texts such as *Narrative of the Life of Frederick Douglass*. In these instances, argues Leak, the newer texts constitute not only a response to the call text but a substantial revision. Leak offers the first in-depth criticism of black masculinity in a range of literary texts. In a final chapter, he expands his discussion to the emerging field of black masculinity studies, pointing to future directions for study, including memoir, film, drama, and others. Poised on the brink of exciting new trends in scholarship, *Racial Myths and Masculinity in African American Literature* is a flagship work enhancing the understanding of literary constructions of black masculinity and the larger cultural imperatives to which these writers are reacting.

[Black Women and Popular Culture](#) VaNatta S. Ford, Adria Y. Goldman, Alexa A. Harris, Natasha R. Howard, 2014-07-30 With the emergence of popular culture phenomena such as reality television, blogging, and social networking sites, it is important to examine the representation of Black women and the potential implications of those images, messages, and roles. *Black Women and Popular Culture: The Conversation Continues* provides such a comprehensive analysis. [Women Interrupting, Disrupting, and Revolutionizing Educational Policy and Practice](#) Whitney Sherman Newcomb, Katherine Cumings Mansfield, 2014-06-01 The idea for this book was born from discussions at several recent academic events, including the Women Leading Education (WLE) International Conference in Volos, Greece, 2012, and the University Council for Educational Administration (UCEA) Conference in Pittsburgh, Pennsylvania, 2011, as well as from informal dialogue amongst ourselves and various colleagues, both new and veteran to the field of educational leadership, and in particular, dedicated to the study of women in leadership. At both the WLE Conference and the UCEA Conference, we heard frustration from veteran women in the field that the study of women in leadership is stagnant and has not moved forward in several years, with scholars new to the field continuing to write and publish work about barriers to aspiring and practicing women leaders, the same types of reports that began the formal inquiry into women's lives as leaders back in the 1980s, without being able to

push forward with new information or ideas for change In essence the concerns and questions that were posed from some veteran women were Why are we continuing to report the same things that we reported 30 years ago Why are we still talking about barriers to women in leadership and Why haven t we moved past gender binaries in regard to leadership ideas and practice Considering these questions some women new to the field countered with their own set of responses and questions that included Is it not significant to report that some women are still experiencing the same types of barriers in leadership that were highlighted 30 years ago Is it accurate to report that all women s voices have now been heard represented and How can we report something different if it hasn t happened The discussions that have ensued between veteran women and those new to the field inspired us to develop a book that situates women in leadership exactly where we are today and reports the status of girls who are positioned to continue the good fight that began many years ago and that both highlights the changes that have occurred and reports any stagnancy that continues to threaten women s positionality in educational leadership literature practice and policy It forefronts the voices of women educational scholars who have and are interrupting disrupting and revolutionizing educational policy and practice Our book reports women s leadership activities and knowledge in both the k 12 and university settings and concludes with chapters ripe with ideas for pushing for change through policy advocacy and activism The final chapter presents themes that emerged from the individual chapters and sets forth an agenda to move forward with the study of women in leadership
