**Gender and Citizenship in Transition** Claire Wallace, Keitha Fine, 1996 *Gender and Citizenship in the Middle East* Suad Joseph, 2000-11-01 The essays in this work illustrate the various ways in which women in the Middle East fall short of being vested with the rights and privileges that would define them as fully enfranchised citizens They offer an examination of national legislation on personal status penal law and labour

**Gender and Citizenship in Historical and Transnational Perspective** Anne Epstein, Rachel Fuchs, 2017-09-16 With gender as its central focus this book offers a transnational multi faceted understanding of citizenship as legislated imagined and exercised since the late eighteenth century Framed around three crosscutting themes agency space and borders leading scholars demonstrate what historians can bring to the study of citizenship and its evolving relationship with the theory and practice of democracy and how we can make the concept of citizenship operational for studying past societies and cultures The essays examine the past interactions of women and men with public authorities their participation in civic life within various kinds of polities and the meanings they attached to their actions In analyzing the way gender operated both to promote and to inhibit civic consciousness action and practice this book advances our knowledge about the history of citizenship and the evolution of the modern state

*Gender and Citizenship* Birte Siim, 2000-09-07 Feminist analysis shows that the prevailing concepts of citizenship often assume a male citizen How then does this affect the agency and participation of women in modern democracies This insightful book first published in 2000 presents a systematic comparison of the links between women s social rights and democratic citizenship in three different citizenship models republican citizenship in France liberal citizenship in Britain and social citizenship in Denmark Birte Siim argues that France still suffers from the contradictions of pro natalist policy and that Britain is only just starting to re conceptualise the male breadwinner model that is still a dominant feature In her examination of the dual breadwinner model in Denmark Siim presents research about Scandinavian social policy and makes an important and timely contribution to debates in political sociology social policy and gender studies

*Gender and Citizenship* Claudia Moscovici, 2000-05-10 Moscovici proposes a new understanding of how gender relations were reformulated by both male and female writers in nineteenth century France She analyzes the different versions of gendered citizenship elaborated by Friedrich Hegel George Sand Honore de Balzac Auguste Comte and Herculine Barbin revealing a shift from a single dialectical or male centered definition of citizenship to a double dialectical or bi gendered one in which each sex plays an important role in subject citizenship and is defined as the negation of the other sex Moscovici further argues that a double dialectical pattern of androgyny endows women with a relational cultural identity that secures their paradoxical roles as both representatives and outsiders to subject citizenship in nineteenth century French society and culture

*Contested Concepts in Gender and Social Politics* Barbara Hobson, Jane Lewis, Birte Siim, 2002-01-01 This text

challenges mainstream thinking on welfare states citizenship family work and social policy It analyses the corresponding shifts in political discourse and the changes in socio political configurations that mirror changing gender relations

Gender and the Politics of Time Valerie Bryson, 2007 Women's role in the labour market has combined with concerns about the damaging effects of long working hours to push time related issues up the policy agenda This book assesses policy alternatives in the light of feminist theory and factual evidence It introduces mainstream ideas on the nature and political significance of time

*Gender Regimes, Citizen Participation and Rural Restructuring* Ildiko Asztalos Morell, Bettina B. Bock, 2008 This book aims to unravel how rural gender regimes are constituted enforced made sense of and resisted and how struggles of resistance lead to empowerment and change in various countries in the four corners of Europe as well as Australia and India The book focuses on the intricate relationship between laws and institutions and everyday life It analyzes on the one hand how laws and institutions are constituted and on the other hand how gender regimes are built at the local rural level sometimes in compliance with these frames and sometimes contesting them The articles in diverse ways give voice both to women's struggles for recognition and men's voices in gendered rural societies Through applying the concepts of the welfare state and gender regimes within rural research this book contributes to the further development of a comparative theoretical framework for rural gender studies The importance of integrating rural gender studies into both the mainstreams of rural and feminist research has been emphasized in previous research as has that of developing comparative analytical frameworks The conceptual framework adopted in this volume sets out to meet this challenge by approaching rural gender relations as the meeting point of two core research areas gender regimes and rural transformative processes Research into gender regimes offers a promising analytical framework for comparing gender relations in diverse rural settings At the same time by addressing rural concerns deriving from the specificity of rural transition processes and gender regimes the approach also contributes to an elucidation of the complexity of citizenship

**Gender Politics in the Expanding European Union** Silke Roth, 2008-09-01 In May 2004 after bringing their legislation into accordance with EU regulations ten more countries joined the European Union The contributors to this volume assess the impact of this historical development on gender relations in the new and old EU member states Instead of focusing on either western or eastern Europe this book investigates the similarities and differences in diverse parts of Europe Although initially limited gender equality was part of the original framework of the European Union an organization often more open than national governments to feminist demands as this volume illustrates with case studies from eastern and western Europe The enlargement process thus provides some important policy instruments for increasing equality between men and women

Race, Gender, and Citizenship in the African Diaspora Manoucheka Celeste, 2016-07-01 Winner of the National Communication Association's 2018 Diamond Anniversary Book Award With the exception of slave narratives there are few stories of black international

migration in U S news and popular culture This book is interested in stratified immigrant experiences diverse black experiences and the intersection of black and immigrant identities Citizenship as it is commonly understood today in the public sphere is a legal issue yet scholars have done much to move beyond this popular view and situate citizenship in the context of economic social and political positioning The book shows that citizenship in all of its forms is often rhetorically representationally and legally negated by blackness and considers the ways that blackness and representations of blackness impact one s ability to travel across national and social borders and become a citizen This book is a story of citizenship and the ways that race gender and class shape national belonging with Haiti Cuba and the United States as the primary sites of examination **The Palgrave Handbook of Gender and Citizenship** Birte Siim,Pauline Stoltz,2024-05-31 Chapter s

*Gender, Development, and Citizenship* Caroline Sweetman,2004 Focusing on citizenship means thinking about the relationships between individuals and the states in which they live What difference does having citizenship rights mean for people s lives Are structures of governance efficient and responsive to people s needs This collection of articles examines ways in which citizenship is denied and argues that citizenship can be used to demand and advance human rights Women often find themselves excluded from full citizenship by legal systems which leave men to look after the interests of their female dependants But women need recognition as citizens in their own right to protect them from exploitation and abuse People from marginalized communities also often find that the state fails to respond to their needs and interests Finally migrants e a growing group of women and men in our global economy e live precariously as aliens in states which do not acknowledge their claims to basic security and services Topics here include the tension between cultural sensitivity and universal concepts of rights reinterpretations of citizenship in communities where the state has failed to guarantee political or economic rights and projects that are helping to advance active citizenship by increasing people s voice in decisionmaking **Gender and Civil Society** Jude Howell,Diane Mulligan,2004-09-30 The international scope of the case

studies means that the book will appeal to the international market Civil society and gender studies are both widely studied and previous titles in these areas have sold well There are no competing titles that consider both civil society and women s political activities *Gender and Citizenship in the Global Age* Amri, Laroussi,Ramtohl, Ramola,2015-03-01 One of the major issues this book examines is what the African experience and identity have contributed to the debate on citizenship in the era of globalisation The volume presents case studies of different African contexts illustrating the gendered aspects of citizenship as experienced by African men and women Citizenship carries manifold gendered aspects and given the distinct gender roles and responsibilities globalisation affects citizenship in different ways It further examines new forms of citizenship emerging from the current era dominated by a neoliberal focus The book is not exclusive in terms of theorisation but its focus on African contexts with an in depth analysis taking into consideration local culture and practices and their

implications for citizenship provides a good foundation for further scholarly work on gender and citizenship in Africa
