Women Police in a Changing Society Mangai Natarajan,2016-02-11 Offering a fascinating account of the development of women police over the past twenty years this book refers to the author s extended research in India to examine how the Indian experience demonstrates a valuable alternative to the Anglo American model not only for traditional societies but for women police in the West as well With reference to the establishment in 1992 of all women units in Tamil Nadu this unique experiment proved highly successful in enhancing the confidence and professionalism of women officers and ensuring the effectiveness and efficiency of the police At a time when policing is being rethought all over the world not only in traditional societies the Tamil Nadu practice illustrates important lessons for western countries that are finding it increasingly difficult to recruit and retain women officers Natarajan s remarkable book is an important and original contribution to the literature on gendered policing which to date has concentrated almost exclusively on the US and British experience Gender and Political Violence Candice D. Ortobals,Lori M. Poloni-Staudinger,2018-03-09 This book examines the role of gender in political conflicts worldwide specifically the intersection between gender and terrorism Political violence has historically been viewed as a male domain with men considered the perpetrators of violence and power and women as victims without power Whereas men and masculinity are associated with war and aggression women and femininity conjure up socially constructed images of passivity and peace This distinction of men as aggressors and women as passive victims denies women their voice and agency This book investigates how women cope with and influence violent politics and is both a descriptive and analytical attempt to describe in what ways women are present or absent in political contexts involving political violence and how they deal with

gender assumptions express gender identities and frame their actions regarding political violence encountered in their lives. The book looks to reach beyond the notion of women as victims of terrorism or genocide without agency and to recognize the gendered nature of political conflicts and how women respond to violence. This book will be of interest to advanced undergraduate and graduate students in political science, sociology, cultural studies, and gender studies; academics in terrorism studies and gender studies; government officials; NGOs; and professionals working in areas of violent conflict.
