**Gender, Power, and Violence** Angela J. Hattery, Earl Smith, 2019-02-06 What do the Catholic Church college sports Hollywood prisons the military fraternities and politics have in common All have extraordinarily high rates of sexual and intimate partner violence and child sexual abuse Sexual and intimate partner violence is part of the landscape that women and children live with Women and children are subjected to high levels of sexual and intimate partner violence and in the era of metoo Gender Power and Violence provides a nuanced analysis of the ways in which the organizational structure of an institution like a college campus or Hollywood can create an environment ripe for sexual and intimate partner violence and even child sexual abuse Gender Power and Violence looks at the problem of sexual and intimate partner violence through cases observing the role that institutions play in facilitating and perpetuating gender based violence and provides a more complex understanding about the ways in which institutional structures create an environment that facilitates and perpetuates gender based violence Angela J Hattery and Earl Smith touch on current events that have highlighted the pervasiveness of gender based violence across the institutions they interrogate throughout the book but also in the entertainment industry the government and television journalism Gender Power and Violence gives the reader a better understanding of what factors shape who will be perpetrators who will be victims and how organizations respond or not when sexual or intimate partner violence or child sexual abuse is reported It also offers recommendations for transforming these institutions so that they are safe for women and children of all genders Gender, Power and Organisations Susan Halford, 2018-06-26 This important text demonstrates the range of ways in which gender can be seen to be an integral part of organisational life Through a lively and detailed exploration of the structures and processes of organisations the authors bring to life the ways in which gender is performed maintained and reproduced in many of the corporations and institutions in which we work A wide range of research on gender race and other forms of social difference is drawn upon to reveal how divisions and inequalities remain a significant aspect of work and organisations in spite of the fact that high profile is given to women who make it to the top At the same time evidence is also presented to show how these persistent structural differences are variously contested and challenged by both women and men The authors discuss how these contradictory factors can be usefully interpreted by developing our understanding of the ways in which power operates in organisations By developing a multi dimensional approach to understanding power the richness and diversity of gender relations within contemporary organisations is explained Through its full discussion of key theoretical concepts and its insightful look at the ways in which these interweave with substantive areas of organisational life this book is the perfect text both for readers who are new to the subject and who are already engaged in the field *Gender, Power and Organization* Paula Nicolson, 2015-06-10 Work organizations are a major site of gender politics for professional women and men and although

**Gender and Power in Rural Greece** Jill Dubisch, 2019-01-29 Women in contemporary Greek society have been conventionally depicted as oppressed and socially inferior circumscribed in behavior and segregated from the world of men In 1967 Ernestine Friedl's classic article The Position of Women Appearance and Reality argued that this view was overly simplified and that in Greek villages women in fact exercise power in household decisions and in determining the economic and marital future of their children Since that article feminists and anthropologists have continued to discuss the appearances of prestige vs the realities of power In this volume scholars from a variety of backgrounds return the debate to the setting of Greece for the first time since Friedl's work Introduced by Jill Dubisch the book contains eight original essays and a republication of the Friedl article Among other topics the essays examine changes now occurring in Greek gender roles the ways women deal with oppression and act as mediators between the domestic sphere and life outside the home and the extension of the language and symbolism of gender beyond male and female roles The contributors are Juliet du Boulay Anna Caraveli Muriel Dimen Jill Dubisch Michael Herzfeld Robinette Kennedy Elftherios Pavlides and Jana Hesser and S D Salamone and J B Stanton Jill Dubisch is Associate

**Gender, Power, and Military Occupations** Christine De Matos, Rowena Ward, 2012-04-27 Military occupations and interventions have a gendered impact on both those engaged in occupying and those whose lands have been occupied Yet little is known about this gendered impact in terms of both masculinities and femininities either historically or in contemporary times While research in this area has begun to grow since events in Iraq and Afghanistan this collection helps redress the relative neglect by examining and analysing the impact of occupation on men and women both occupied and occupier in a variety of geographical spaces from Japan to Palestine to Iraq Gendered perspectives are also intimately tied to analyses of power how power is enacted by the occupier how powerlessness is experienced by the occupied how power is negotiated shared compromised subverted reclaimed power as visible and invisible institutional power contested power in post conflict societies and power as discursively constructed The term military occupation is interpreted broadly to include occupation interventions the presence of military bases and peacekeeping post conflict operations This interpretation allows space to demonstrate that the lines between each definition are blurred especially when it comes to analysing gender and power

**Women and Gender in International History** Karen Garner, 2018-06-28 Most governments and global political organizations have been dominated by male leaders and structures that institutionalize male privilege As *Women and Gender in International History* reveals however women have participated in and influenced the traditional concerns of international history even as they have expanded those concerns in new directions Karen Garner provides a timely synthesis of key scholarship and establishes the influential roles that women and gender power relations have wielded in determining the course of international history From the early 20th century onward women have participated in state to state relations and decisions about when to pursue diplomacy or when to go to war to settle international conflicts Particular women as well as masculine and feminine gender role constructs have also influenced the establishment and evolution of intergovernmental organizations and their political social and economic policy making regimes and agencies Additionally feminists have critiqued male dominated diplomatic establishment and intergovernmental organizations and have proposed alternative theories and practices This text integrates women and gender and feminist analyses into the study of international history in order to produce a broader understanding of processes of international change during the 20th and 21st centuries

social issues and seeks to expose unequal relations within institutions The study identifies different gendered discourses within the speeches of Members of Parliament and government ministers Consciously or unconsciously these participants within parliamentary debates draw on topics that construct women and men in specific ways sometimes sustaining gender stereotypes or challenging existing conditions The way men and women are constructed using language also is indicative of gender and power relations within this particular community The study also looks at the way men and women are constructed using traditional discourses of gender differentiation and how some of these discourses get challenged appropriated or subverted using progressive gendered discourses that advocate equal opportunities gender equality and gender partnership in development
