Masculinity, Anti-Semitism and Early Modern English Literature Matthew Biberman, 2017-03-02 Offering a profound re assessment of the conceptual rhetorical and cultural intersections among sexuality race and religion in English Renaissance texts this study argues that antisemitism is a by product of tensions between received Classical conceptions of masculinity and Christianity s strident critique of that ideal Utilizing works by Shakespeare Milton Marlowe and others Biberman illustrates how modern antisemitism develops as a way to stigmatize hypermasculine behavior thus facilitating the transformation of the culture s gender ideal from knight to businessman Subsequently the function of antisemitism changes becoming instead the mark of effeminate behavior Consequently the central antisemitic image changes from Jew Devil to Jew Sissy Biberman traces this shift s repercussions both in renaissance culture and what followed it He also contends that as a

result of this linkage between Jewishness and the limits of masculine behavior the image of the Jewish woman remains especially unstable In concluding Biberman argues that the Gothic resurrects the Jew Devil bequeathing it to the Nazis and that the horror genre is often a rewriting of Renaissance discourse about Jews In the course of making this larger argument Biberman introduces a series of more limited claims that challenge the conventional wisdom within the field of literary studies First Biberman overturns the assumption that Jewishness and femininity are always associated in the cultural imagination of Western Europe Second Biberman provides the historical context needed to understand the emergence of the stereotype of the pathological Jewish woman Third Biberman revises the incorrect notion that divorce was not practiced in Renaissance England Fourth Biberman argues for the novel claim that serial monogamy in Western culture is a practice understood to possess a Jewish taint Fifth Biberman contributes a major advance in scholarship devoted to T S Eliot illustrating how Eliot s famous critical argument against Milton is an expression of his antisemitism and a coherent compliment to the antisemitic touches in his poetry Sixth in his discussion of Gothic literature Biberman introduces novel readings of Frankenstein and Dracula persuasively arguing that Mary Shelley s monster bears the mark of the Jew according to modern antisemitic discourse and that in Stoker both the vampire and the vampire killer represent Jews executing a scenario of self policing that was realized in the ghettos and the concentration camps Biberman s final contribution in this study is to provide a definition for postmodern antisemitism and to apply it to various contemporary incidents including September 11th and the Arab Israeli conflict

John Donne: Collected Poetry John Donne,2012-10-04 Regarded by many as the greatest of the Metaphysical poets John Donne 1572 1631 was also among the most intriguing figures of the Elizabethan age A sensualist who composed erotic and playful love poetry in his youth he was raised a Catholic but later became one of the most admired Protestant preachers of his time The Collected Poetry reflects this wide diversity and includes his youthful songs and sonnets epigrams elegies letters satires and the profoundly moving Divine Poems composed towards the end of his life From joyful poems such as The Flea which transforms the image of a louse into something marvellous to the intimate and intense Holy Sonnets Donne breathed new vigour into poetry by drawing lucid and often startling metaphors from the world in which he lived His poems remain among the most passionate profound and spiritual in the English language

John Donne's Performances Margret Fetzer,2013-07-19 Ever since their rediscovery in the 1920s John Donne s writings have been praised for their energy vigour and drama yet so far no attempt has been made to approach and define systematically these major characteristics of his work Drawing on J L Austin s speech act theory Margret Fetzer s comparative reading of Donne s poetry and prose eschews questions of personal or religious sincerity and instead recreates an image of John Donne as a man of many performances No matter if engaged in the writing of a sermon or a piece of erotic poetry Donne placed enormous trust in what words could do

Questions as to how saying something may actually bring about that very thing or how playing the part of someone else affects an actor's identity are central to Donne's oeuvre and moreover highly relevant in the cultural and theological contexts of the early modern period in general. In treating both canonical and lesser known Donne texts John Donne's Performances hopes to make a significant contribution not only to Donne criticism and research into early modern culture by using concepts of performance and performativity as its major theoretical backdrop it aims to establish an interdisciplinary link with the field of performance studies

Sacramental Poetics at the Dawn of Secularism Regina Mara Schwartz, 2008-05-30 Sacramental Poetics at the Dawn of Secularism asks what happened when the world was shaken by challenges to the sacred order as people had known it an order that regulated both their actions and beliefs. When Reformers gave up the doctrine of transubstantiation even as they held onto revised forms of the Eucharist they lost a doctrine that infuses all materiality spirituality and signification with the presence of God. That presence guaranteed the cleansing of human fault the establishment of justice the success of communication the possibility of union with God and another and love. These longings were not lost but displaced. Schwartz argues onto other cultural forms in a movement from ritual to the arts from the sacrament to the sacramental. Investigating the relationship of the arts to the sacred Schwartz returns to the primary meaning of sacramental as sign making noting that because the sign always points beyond itself it participates in transcendence and this evocation of transcendence of mystery is the work of a sacramental poetics

Staging Women and the Soul-Body Dynamic in Early Modern England Sarah E. Johnson, 2016-04-01. Though the gender-coded soul/body dynamic lies at the root of many negative and disempowering depictions of women, Sarah Johnson here argues that it also functions as an effective tool for redefining gender expectations. Building on past criticism that has concentrated on the debilitating cultural association of women with the body, she investigates dramatic uses of the soul/body dynamic that challenge the patriarchal subordination of women. Focusing on two tragedies, two comedies, and a small selection of masques from approximately 1592-1614, Johnson develops a case for the importance of drama to scholarly considerations of the soul/body dynamic, which habitually turn to devotional works, sermons, and philosophical and religious treatises to elucidate this relationship. Johnson structures her discussion around four theatrical relationships, each of which is a gendered relationship analogous to the central soul/body dynamic: puppeteer and puppet, tamer and tamed, ghost and haunted, and observer and spectacle. Through its thorough and nuanced readings, this study redefines one of the period's most pervasive analogies for conceptualizing women and their relations to men as more complex and shifting than criticism has previously assumed. It also opens a new interpretive framework for reading representations of women, adding to the ongoing feminist re-evaluation of the kinds of power women might actually wield despite the patriarchal strictures of their culture.

All Wonders in One Sight Theresa M. Kenney, 2021-03-18. *All Wonders in One Sight* compares the portrayals of the Christ Child in the Nativity poems of the greatest names in seventeenth-century English lyric.

The Past Is a Foreign Country - Revisited David Lowenthal, 2015-10-01. The past remains essential and inescapable. A quarter century after the publication of his classic account of man's attitudes to his past, David Lowenthal revisits how we celebrate, expunge, contest, and domesticate the past to serve present needs. He shows how nostalgia and heritage now pervade every facet of public and popular culture. History embraces nature and the cosmos as well as humanity. The past is seen and touched and tasted and smelt as well as heard and read about. Empathy, re-enactment, memory, and commemoration overwhelm traditional history. A unified past, once certified by experts and reliant on written texts, has become a fragmented, contested history forged by us all. New insights into history and memory, bias and objectivity, artefacts and monuments, identity and authenticity, and remorse and contrition make this book once again the essential guide to the past that we inherit, reshape, and bequeath to the future.

The Eucharist, Poetics, and Secularization from the Middle Ages to Milton Shaun Ross, 2023-03-22. *The Eucharist, Poetics, and Secularization from the Middle Ages to Milton* explains the astonishing centrality of the eucharist to poets with a variety of denominational affiliations writing on a range of subjects across an extended period in literary history. Whether they are praying, thinking about politics, lamenting unrequited love, or telling fart jokes, late medieval and early modern English poets return again and again to the eucharist as a way of working

out literary problems Tracing this connection from the fourteenth through the seventeenth century this book shows how controversies surrounding the nature of signification in the sacrament informed understandings of poetry Connecting medieval to early modern England it presents a history of eucharistic poetics as it appears in the work of seven key poets the Pearl poet Chaucer Robert Southwell John Donne George Herbert Richard Crashaw and John Milton Reassessing this range of poetic voices *The Eucharist Poetics and Secularization* overturns an oft repeated argument that early modern poetry s fascination with the eucharist resulted from the Protestant rejection of transubstantiation and its supposedly enchanted worldview Instead of this tired secularization story it fleshes out a more capacious conception of eucharistic presence showing that what interested poets about the eucharist was its insistence that the mechanics of representation are always entangled with the self s relation to the body and to others The book thus forwards a new historical account of eucharistic poetics placing this literary phenomenon within a longstanding negotiation between embodiment and disembodiment in Western religious and cultural history

The Interpersonal Idiom in Shakespeare, Donne, and Early Modern Culture N. Selleck, 2008-05-29 The *Interpersonal Idiom* offers a timely reformulation of identity in the age of Shakespeare recovering a rich and now obsolete language that casts selfhood not as subjective experience but as the experience of others

Reading Sensations in Early Modern England K. Craik, 2007-04-06 How did Renaissance literature affect readers minds bodies and souls In what ways did the history of literary experience overlap with the history of humours and emotions This book argues that a new aesthetic vocabulary based on the theory of the passions was formulated in the Renaissance to describe the affective power of literature

Performing Pedagogy in Early Modern England Kathryn M. Moncrief, 2016-05-13 *Performing Pedagogy in Early Modern England* Gender Instruction and Performance features essays questioning the extent to which education an activity pursued in the home classroom and the church led to mirrored and was perhaps even transformed by moments of instruction on stage This volume argues that along with the popular press the early modern stage is also a key pedagogical site and that education performed and performative plays a central role in gender construction The wealth of sixteenth and seventeenth century printed and manuscript documents devoted to education parenting guides conduct books domestic manuals catechisms diaries and autobiographical writings encourages examination of how education contributed to the formation of gendered and hierarchical structures as well as the production reproduction and performance of masculinity and femininity

In examining both dramatic and non dramatic texts via aspects of performance theory this collection explores the ways education instilled formal academic knowledge but also elucidates how educational practices disciplined students as members of their social realm citizens of a nation and representatives of their gender
