*Gender Responsive Budgeting in Fragile States* Monica Costa,2017-08-16 A growing number of governments have made commitments to achieving gender equality and women s rights with many using gender responsive budgeting GRB to allocate resources for the delivery of economic policy and governance that benefit men and women equally At a time when GRB is growing in global traction this book investigates what it can deliver for gender equality and state resilience in contexts where the state is weak or prone to violence such as in Timor Leste Gender Responsive Budgeting in Fragile States The Case of Timor Leste uses the Timor Leste case to investigate whether gender equality reform can be adopted at the same time as establishing economic and institutional fundamentals While some may have thought that the adoption of GRB strategy in 2008 was premature Monica Costa argues that GRB initiatives have contributed to budget accountability and transparency and ultimately improved policy and budget processes and decisions This multi disciplinary analysis of a decade of GRB demonstrates why GRB is important to inform the debate on state fragility resilience and argues that fragile states cannot defer gender equality in the name of getting the economic and institutional basics right While a growing number of fragile states have taken steps to make their budget more gender responsive questions remain for economists and policy makers about what can be achieved and how Gender Responsive Budgeting in Fragile States is the first international publication on GRB in fragile state contexts and will be of interest to researchers upper level students policy makers and NGOs with an interest in policy economics gender and development

budget execution monitoring and auditing Too few countries assess the upfront impact of policies on gender and or evaluate ex post the effectiveness of policies and programs Where GB features are in place they tend to operate as an add on rather than a strategic and integral part of resource allocation decisions Progress with GB does not appear to be dependent on the level of country development Key to future efforts will be harnessing opportunities for integrating GB tools into existing PFM systems and more closely linking GB initiatives with PFM reforms
