*Her Own Worth* Eerika Koskinen-Koivisto, 2014 In this study I examine the life narrative of a female factory labourer Elsa Koskinen ne Kiikkala born in 1927 I analyze her account of her experiences related to work class and gender because I seek to gain a better understanding of how changes in these aspects of life influenced the ways in which she saw her own worth at the time of the interviews and how she constructed her subjectivity Elsa's life touches upon many of the core aspects of 20th century social change changes in women's roles the entrance of middle class women into working life women's increasing participation in the public sphere feminist movements upward social mobility the expansion of the middle class the growth of welfare and the appearance of new technologies What kind of trajectory did Elsa take in her life What are the key narratives of her life How does her narrative negotiate the shifting cultural ideals of the 20th century A life story a retrospective evaluation of a life lived is one means of constructing continuity and dealing with the changes that have affected one's life identity and subjectivity In narrating one's life the narrator produces many different versions of her/himself in relation to other people and to the world These dialogic selves and their relations to others may manifest internal contradictions Contradictions may also occur in relation to other narratives and normative discourses Both of these levels subjective meaning making and the negotiation of social ideals and collective norms are embedded in life narratives My interest in this study is in the ways in which gender and class intersect with paid labour in the life of an ordinary female factory worker I approach gender class and work from both an experiential and a relational perspective considering the power of social relationships and subject formations that shape individual life at the micro level In her narratives Elsa discusses ambivalence related to gendered ideals social class and especially the phenomenon of social climbing as well as technological advance I approach Elsa's life and narratives ethnographically The

research material was acquired in a long standing interview process and the analysis is based on reflexivity of the dialogic knowledge production and contextualization of Elsa s experiences In other words I analyze Elsa s narratives in their situational but also socio cultural and historical contexts Specific episodes in one s life and other significant events constitute smaller narrative entities which I call micro narratives The analysis of micro narratives key dialogues and cultural ideals embedded in the interview dialogues offers perspectives on experiences of social change and the narrator s sense of self

**Work and Family Policy** Stephen Sweet,2013-09-13 Numerous challenges exist in respect to integrating work and family institutions and there is remarkable cross national variation in the ways that societies respond to these concerns with policy This volume examines these concerns by focusing on cross national variation in structural cultural arrangements Consistent support is found in respect to the prospects of expanding resources for working families both in the opportunity to provide care as well as to remain integrated in the workforce However the studies in this volume offer qualifiers explaining why some effects are not as strong as might be hoped and why effects are sometimes restricted to particular classifications of workers or families It is apparent that when different societies implement similar policies they do not necessarily do so with the same intended outcomes and usage is mediated by how policies are received by employers and workers The chapters in this book speak to

the merits of international comparative analysis in identifying the strategies challenges and benefits of providing resources to workers and their families This book was originally published as a special issue of Community Work Family    The Gendering of Inequalities Jane Jenson, Jacqueline Laufer, Margaret Maruani, 2020-09-29 This was first published in 2000 This work is founded on the premise that many analyses of economic restructuring and of gender relations fail to recognize two things First the situation facing women is different from that of the 1960s when the conceptual apparatuses for analyzing women and work were created Labour markets are dominated by flexible non standard work precarious contractual relations and income disparities Therefore it is difficult to structure political claims or analysis around the notion that there is a single labour market that the primary problem is discrimination or inappropriate training and that political strategies should focus on discrimination and non traditional employment Rather new challenges require new solutions The second point of departure is that is impossible to understand either contemporary labour markets or the roots of employment and other public policies without locating them vis a vis patterns of gender inequalities generated by and in these labour markets The labour force has been feminized to such an extent that new and often unequal gender relations are crucial to their very functioning    **The Work and Family Handbook** Marcie Pitt-Catsouphes, Ellen Ernst Kossek, Stephen Sweet, 2015-11-30 This handbook will be a welcomed source of information on work and family issues for a variety of students and academics in fields of social work psychology sociology organizational behavior human resource management business and other disciplines    **Conceptualising Women's Working Lives** Wendy Patton, 2013-04-20 Theoretical work on the career development of women has travelled a journey from critique to creation Early work responded to and criticised a literature that focused on theorising male roles in a workplace that was conceptualised as providing vertical career paths primarily for middle class males More recently theorists are creating new constructions and frameworks to enable a more holistic understanding of career applicable to both women and men These constructions include broadening the discussion from women s careers to women s working lives This is the fifth book in the Sense Publishers Career Development Series It features the vibrant work of contributors from around the world writing in the field of women s working lives It emphasises the need to explore theoretical connections and understandings in order to facilitate a more holistic and inclusive understanding of women s working lives The writers in the current volume acknowledge the changing roles of women in both public and private spheres Women s roles in paid work are changing both in their nature and type of engagement In addition with an ageing population women s roles in care work are increasingly being extended from child care to aged care This book provides a history of theorising about women s careers in addition to presenting a focus on current empirical and theoretical work which contributes to understandings of women s working lives It s contributions both map the current discourse and challenge future work to extend the boundaries of that discourse    **Media/Society** David Croteau, William Hoynes, 2018-08-21 The best text to help students understand the often complicated ever changing relationship between

media and society Seong Jae Min Pace University Providing a framework for understanding the relationship between media and society this updated Sixth Edition of Media Society helps students develop the skills they need to critically evaluate both conventional wisdom and their own assumptions about the social role of the media The book retains its acclaimed sociological framework but now includes additional discussions of new research and up to date coverage of today s rapidly changing media landscape Now featuring streamlined content and a more engaging narrative this edition offers expanded discussions of the new media world including digitization the internet the spread of mobile media devices the role of user generated content the potential social impact of new media on society and new media s effect on traditional media outlets Give your students the SAGE edge SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review study and further exploration keeping both instructors and students on the cutting edge of teaching and learning Learn more at [edge.sagepub.com](http://edge.sagepub.com) **Bundle and Save** Bundle this text with *Careers in Media and Communication* by Stephanie Smith for only 5 more Use ISBN 9781544361246      **Western Women's Lives** Sandra Schackel, 2003 An anthology of essays about 20th century women living in the western U S showing that the image of the pioneer woman has been replaced not with another dominant one but with many      [Routledge Handbook of Modern Korean History](#) Michael Seth, 2016-01-29 Beginning in the mid nineteenth century when Korea became entangled in the world of modern imperialism and the old social economic and political order began to change this handbook brings together cutting edge scholarship on major themes in Korean History Contributions by experts in the field cover the Late Choson and Colonial periods Korea s partition and the diverging paths of North and South Korea Topics covered include The division of Korea Religion Competing imperialisms Economic change War and rebellions Nationalism Gender North Korea Under Kim Jong Il Global Korea The Handbook provides a stimulating introduction to the most important themes within the subject area and is an invaluable reference work for any student and researcher of Korean History
