## Gender Equality And Men:

**Gender Equality and Men** Sandy Ruxton, Oxfam GB., 2004 Based on examples of interventions in reproductive and sexual health fatherhood gender based violence livelihoods and work with young men this book aims to provide a critical account of practical experience of work with men for gender equality and to share knowledge and expertise gained from programmes run by Oxfam GB and other organisations Men and Development, 2011-07-07 A wide ranging volume featuring contributions from some of today's leading thinkers and practitioners in the field of men masculinities and development Together contributors challenge the neglect of the structural dimensions of patriarchal power relations in current development policy and practice and the failure to adequately engage with the effects of inequitable sex and gender orders on both men's and women's lives The book calls for renewed engagement in efforts to challenge and change stereotypes of men to dismantle the structural barriers to gender equality and to mobilize men to build new alliances with women's movements and other movements for social and gender justice *Gender Equality* John Henry Bancroft, 2018-11-28 This book promotes the concept of gender equality which recognises that while women and men are different in important ways they are equally important In the final chapter this is presented as the Two Team approach not only in the heterosexual couple but in all levels of society there would be a women's team and a men's team which would interact Women would compete with women and men with men but women would not compete with men The preceding chapters pave the way by reviewing the evidence of basic male female differences in psychological and behavioural function the history of patriarchy the relevant impact of the world's religions the importance of birth control and feminism Can Men Do It?, 2003 5 Family and work *Engaging Men in Building Gender Equality* Michael Flood, Richard Howson, 2015-06-18 Men's roles in building gender equality are currently on the public agenda Across the globe there are growing efforts to engage men and boys in building more equitable relations with women and girls Programs that engage with men have proliferated in fields such as violence prevention sexual and reproductive health parenting education and work The last decade has seen the emergence of national and global campaigns initiatives by international agencies and scholarly research Engaging *Reframing Men and Boys in Policy for Gender Equality* Institute of Development Studies (IDS), Engendering Men: Evidence on Routes to Gender Equality (EMERGE), 2016 **One** Julie Kratz, 2017-10 **On Norms and Agency** Ana María Muñoz Boudet, 2013-05-03 On Norms and Agency explores some of the power dynamics of gender relations within the household and communities in different contexts These processes are analyzed from the perspectives of groups of men and women and boys and girls who participated in focus groups in 97 communities around the world From gender differences and inequalities to intra household decision making more than 4 000 women and men in 500 plus single sex focus groups reflected on how social norms that define what it means to be and act as a woman or a man affect their life outcomes and their access to opportunities The analysis reveals not only how little gender norms have changed and how

similar they are across countries but also how change in norms and in individual empowerment and capacity to act and decide takes place Change takes place at private as well as community and society levels and adjustments within one of these realms shape the pace and direction of change in the other The process of gender norm change appears to be uneven and challenging The easy coexistence of new and old norms means that households in the same community can vary markedly in how much agency women can exercise women feel less empowered when opinions and values of families and communities stay within traditional norms This book seeks to understand the pathways toward greater gender equality by looking at the deepest constraints present for women and men alike Unlike men women are less dependent on the economic conditions of their environment Men's power and agency are tightly intertwined with their identity and capacity as breadwinners The main pathways for women to gain agency are education employment and decreased risk of domestic violence A safer space encourages women to negotiate for more participation and equality in household discussions and decisions Women's ability to contribute to family finances and to control even partially major or minor assets helps them gain more voice at home and in public spheres Women's aspirations and empowerment to break gender barriers can be observed almost everywhere even when economies are stagnant These evident aspirations are partly due to women's perceptions of having more power and freedom in their lives and a greater ability to make decisions Yet many women around the world the study shows still face norms and practices that limit them

Good Guys David G. Smith, W. Brad Johnson, 2020-10-13 The key to advancing gender equality Men Women are at a disadvantage At home they often face an unequal division of household chores and childcare and in the workplace they deal with lower pay lack of credit for their contributions roadblocks to promotion sexual harassment and more And while organizations are looking to address these issues too many gender inclusion initiatives focus on how women themselves should respond reinforcing the perception that these are women's issues and that men often the most influential stakeholders in an organization don't need to be involved Gender in the workplace experts David G Smith and W Brad Johnson counter this perception In this important book they show that men have a crucial role to play in promoting gender equality at work Research shows that when men are deliberately engaged in gender inclusion programs 96 percent of women in those organizations perceive real progress in gender equality compared with only 30 percent of women in organizations without strong male engagement Good Guys is the first practical research based guide for how to be a male ally to women in the workplace Filled with firsthand accounts from both men and women and tips for getting started the book shows how men can partner with their female colleagues to advance women's leadership and equality by breaking ingrained gender stereotypes overcoming unconscious biases developing and supporting the talented women around them and creating productive and respectful working relationships with women

**The Time Has Come** Michael Kaufman, 2019-01-15 For too long the struggle for the rights of women and girls was seen as women's business Of course it's equally men's business and stops being such a struggle when it's seen that way This reframing gives us a chance to understand violence against women

as deeply toxic for us all Phumzile Mlambo Ngcuka UN Under Secretary General and Executive Director of UN Women The Time Has Come explores how a patriarchal culture that has given power to men comes at a huge cost to women children and surprisingly to men as well It details how very achievable changes in our workplaces in the ways we raise boys to be men and in the movement to end men s violence will bring significant rewards to communities all around the world Michael Kaufman is the cofounder of the White Ribbon Campaign the largest international network of men working to end violence against women and for decades has been an advisor on gender equality to the United Nations governments NGOs schools and workplaces around the world With honest storytelling compassion and hard hitting analysis The Time Has Come is a compelling look at why men must take a stand in the fight for general equality

**Masculine Power and Gender Equality: Masculinities as Change Agents** Russell Luyt, Kathleen Starck, 2020-03-03 This book explores how political institutions can challenge dominant and normative masculinities guiding thinking instead toward a transformation of gendered power structures and general equality Representing a range of relevant areas the expert chapter authors provide various methodological and theoretical approaches applied to shifting gender meanings in cultural national and social contexts Authors also represent a variety of cultures contributing to the multi perspective debate about how best to achieve gender equality in the real world Among the topics discussed Reimagining masculinities their everyday practice and practical interventions Towards a feminist theory of male rape Political implications of challenging men s everyday practices through domestic violence primary prevention work Men as allies a case study of White Ribbon Australia Masculine Power and Gender Equality Masculinities as Change Agents provides valuable insight into strategies for re imagining male dominated power structures and promoting gender equality
