Genealogical Chart Of Greek Mythology:

A Genealogical Chart of Greek Mythology Harold Newman, Jon Ormond Newman, 2003 This unique work is the first comprehensive genealogical chart of virtually all of the named figures of Greek mythology that can be shown to be related. The product of more than 35 years of research, the book includes a 72 page continuous chart that links 3 673 named figures into a single family tree spanning 20 generations and an 80 page index that provides a citation to an authoritative ancient source for each relationship. The genealogy begins with Chaos and based on works by Hesiod, Homer, Aeschylus, Pindar, Bacchylides, Herodotus, Euripides, Apollodorus, Pausanias, Diodorus Siculus and scores of other ancient poets, playwrights and writers continues down through the Titans, the gods, legendary kings and such well known figures of literature as Odysseus, Jason, Antigone and Helen of Troy as well as hundreds of obscure figures including their spouses, paramours, children and descendants. The chart shows all of the known relationships, parental, marital and extramarital, of each figure. In addition to furnishing a citation for each relationship, the index provides brief descriptive information and indicates the quadrant and page of the continuous chart where the relationship is depicted. A two page master chart illustrates the relationships among the principal figures.

Greek Myth and Western Art Karl Kilinski, 2013 This richly illustrated book examines the legacy of Greek mythology in Western art from the classical era to the present. Tracing the emergence, survival and transformation of key mythological figures and motifs from ancient Greece through the modern era, it explores the enduring importance of such myths for artists and viewers in their own time and over the millennia that followed.

The Genealogy of Greek Mythology Vanessa James, 2003 A single volume resource to ancient Greece, this genealogical map of the universe of Greek Myth has a unique accordion page design that can be perused section by section on both sides or fanned out in more than seventeen feet and provides more than three thousand entries of its gods and mythological characters, full color artwork, photos, short biographies of prominent historical figures, detailed maps and a star chart. 60 000 first printing.
