Sources for English Local History W. B. Stephens,1981-09-10 English local and regional history has attracted widespread attention in the last twenty five to thirty years Its study has expanded at undergraduate and postgraduate levels in universities polytechnics and at other institutions of higher education and it has long retained its popularity as a subject for adult education classes In schools the teaching of local history in its own right and as an ingredient of general history environmental studies and local and social studies is well established and commonly involves the use of original sources The expansion of genealogical studies into the wider area of family history has involved many individuals and groups in the investigation of the local conditions which existed where former generations lived and in this pursuit increasing use of local records has been made Many who seek to involve themselves in this work however find that they are ill equipped in the knowledge of what sources exist where they are to be found or what techniques are suitable in making the best use of them
