Genealogy Of Manners:

A Genealogy of Manners Jorge Ardit, 1998-12 Remarkable for its scope and erudition Jorge Ardit's new study offers a fascinating history of mores from the High Middle Ages to the Enlightenment Drawing on the pioneering ideas of Norbert Elias Michel Foucault and Pierre Bourdieu Ardit examines the relationship between power and social practices and traces how power changes over time Analyzing courtesy manuals and etiquette books from the thirteenth to the eighteenth century Ardit shows how the dominant classes of a society were able to create a system of social relations and put it into operation The result was an infrastructure in which these classes could successfully exert power He explores how the ecclesiastical authorities of the Middle Ages the monarchies from the fifteenth through the seventeenth century and the aristocracies during the early stages of modernity all forged their own codes of manners within the confines of another dominant order Ardit goes on to describe how each of these different groups through the sustained deployment of their own forms of relating with one another gradually moved into a position of dominance

Involuntary Confessions of the Flesh in Early Modern France Nora Martin Peterson,2016-09-14 Involuntary Confessions of the Flesh in Early Modern France was inspired by the observation that small slips of the flesh involuntary confessions of the flesh are omnipresent in early modern texts of many kinds These slips which bear similarities to what we would today call the Freudian slip disrupt and destabilize readings of body self and text three categories whose mutual boundaries this book seeks to soften but also in their very messiness participate in defining them Involuntary Confessions capitalizes on the uncertainty of such volatile moments arguing that it is instability itself that provides the tools to navigate and understand the complexity of the early modern world Rather than locate the body within any one discourse Foucauldian psychoanalytic this book argues that slips of the flesh create a liminal space not exactly outside of discourse but not necessarily subject to it either Involuntary confessions of the flesh reveal the perpetual and urgent challenge of early modern thinkers to textually confront and define the often tenuous relationship between the body and the self By eluding and frustrating attempts to contain it the early modern body reveals that truth is as much about surfaces as it is about interior depth and that the self is fruitfully perpetuated by the conflict that proceeds from seemingly irreconcilable narratives Interdisciplinary in its scope Involuntary

Confessions of the Flesh in Early Modern France pairs major French literary works of the sixteenth and seventeenth centuries by Marguerite de Navarre Montaigne Madame de Lafayette with cultural documents confession manuals legal documents about the application of torture and courtly handbooks It is the first study of its kind to bring these discourses into thematic rather than linear or chronological dialog In so doing it emphasizes the shared struggle of many different early modern conversations to come to terms with the body s volatility
