Abbreviated Notes from a Seminar Course in General Semantics Alfred Korzybski (count), 1937 *General Semantics Bulletin*, 2007 **Communication, Meaning and Misconceptions** Karol Janicki, 2024-06-21 This book covers several related topics anchored in the idea of how meaning is created The central focus in the book is however on how language awareness may help us communicate smoothly and solve social problems The book takes up language misconceptions and their social significance and promotes the view that regarding meaning and language in general as open and flexible rather than closed and rigid may lead to critical thinking innovation and creativity The book covers topics such as words and things words and emotions fake news and hate speech and it has been written in the form of short informal dialogues to engage readers and make linguistic concepts accessible

General Semantics in Psychotherapy Isabel Caro, Charlotte Schuchardt Read, 2002 **Manhood of Humanity** Alfred Korzybski, 1994-03 **Science and Sanity** Alfred Korzybski, 1958 Science under Fire Andrew Jewett, 2020-12-08 Americans have long been suspicious of experts and elites This new history explains why so many have believed that science has the power to corrupt American culture Americans today are often skeptical of scientific authority Many conservatives dismiss climate change and Darwinism as liberal fictions arguing that tenured radicals have coopted the sciences and other disciplines Some progressives especially in the universities worry that science's celebration of objectivity and neutrality masks its attachment to Eurocentric and patriarchal values As we grapple with the implications of climate change and revolutions in fields from biotechnology to robotics to computing it is crucial to understand how scientific authority functions and where it has run up against political and cultural barriers Science under Fire reconstructs a century of battles over the cultural implications of science in the United States Andrew Jewett reveals a persistent current of criticism which maintains that scientists have injected faulty social philosophies into the nation's bloodstream under the cover of neutrality This charge of corruption has taken many forms and appeared among critics with a wide range of social political and theological views but common to all is the argument that an ideologically compromised science has produced an array of social ills Jewett shows that this suspicion of science has been a major force in American politics and culture by tracking its development varied expressions and potent consequences since the 1920s Looking at today's battles over science Jewett argues that citizens and leaders must steer a course between on the one hand the naive image of science as a pristine value neutral form of knowledge and on the other the assumption that scientists' claims are merely ideologies masquerading

as truths **Confusing Discourse** K. Janicki, 2009-12-18 We easily hear and see when people are talking and writing but we often do not understand what they are talking or writing about This book addresses some sources of confusion in discourse and offers suggestions for diminishing it **Thinking & Living Skills** Gregory Sawin, 1995 **Dare to Inquire** Bruce I. Kodish, 2003 **Drive Yourself Sane** Susan Presby Kodish, Bruce I. Kodish, 2001 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1968 Includes Part 1 Number 1 Books and Pamphlets Including Serials and Contributions to Periodicals January June General Semantics; Papers from the First American Congress for General Semantics , 1940 **Teaching General Semantics** Mary S. Morain, 1969 Lectures outlines and class exercises are collected from 16 experienced teachers of general semantics in colleges adult education and management training Among the subject areas explored in the sample lessons are high level abstractions extensional intensional meanings the is of identity listening classification labeling general semantics and literature inference observation confusions general semantics for the manager language and culture and relation of perception to verbal meaning and the application of general semantics to reaction patterns Jmc **Language and Conflict** Karol Janicki, 2017-09-16 What role does language and communication play in conflict Why do people engage in or get drawn into quarrels How can our awareness of the social rules of language use prevent disputes In this illuminating and accessible guide Karol Janicki takes the reader on a tour through the field of conflict in language Using real life examples the book examines how language usage influences conflict and what people can do to avoid or resolve it Language and Conflict Ends each chapter with a story that neatly summarizes the key discussion points in a clear digestible format Provides useful hands on tips and further reading recommendations for those who want to explore the subject further This book is ideal reading for undergraduates studying discourse analysis language and communication sociolinguistics or applied linguistics and for general readers new to the subject of language and conflict Coping with Increasing Complexity Institute of General Semantics, 1974 Collected Writings, 1920-1950 Alfred Korzybski, 1990 Fifty six items plus documentary supplements can be considered a biographical as well as theoretical working edition of the origins and development of Korzybski s revolutionary system called general semantics **A Literary Biography of Robin Blaser** Miriam Nichols, 2019-09-06 A Literary Biography of Robin Blaser Mechanic of Splendor is the first major study illustrating Robin Blaser s significance to North American poetry The poet Robin Blaser 1925 2009 was an important participant in the Berkeley Renaissance of the 1950s and San Francisco poetry circles of the 1960s The book illuminates Blaser s distinctive responses to and relationships with familiar writers including Robert Duncan Jack Spicer and Charles Olson via their correspondence Blaser contributed to the formation of the serial poem as a dominant mode in post war New American poetry through his work and engagement with the poetry communities of the time Offering a new perspective on a well known and influential period in American poetry Miriam Nichols combines the story of Blaser s life coming from a mid western conservative religious upbringing and his coming of age as a gay man in Berkeley Boston and San

Francisco with critical assessments of his major poems through unprecedented archival research This literary biography presents Blaser's poetry and poetics in the many contexts from which it came ranging from the Berkeley Renaissance to the Vancouver scene from surrealism to phenomenology from the New American poetry to the Canadian postmodern from the homoerotic to high theory Throughout Blaser's voice is heard in the excitement of his early years in Berkeley and Boston and the seriousness of the later years where he was doing most of his living in his work *The Fire* Robin Blaser, 2006-09-29

Spanning four decades of meditation on the avant garde in poetry art and philosophy the essays collected in *The Fire* reveal Robin Blaser's strikingly fresh perspective on New American poets deconstructive philosophies current events and the state of humanities now The essays gathered in one volume for the first time include commentaries on Jack Spicer Charles Olson Robert Duncan Mary Butts George Bowering Louis Dudek Christos Dikeakos and J S Bach Blaser emerged from the Berkeley Renaissance of the 1940s and 1950s having studied under legendary medieval scholar Ernst Kantorowicz and having been a major participant in the burgeoning literary scene His response to the cultural and political events of his time has been to construct a poetic voice that offers a singular perspective on a shareable world and to pose that voice alongside others as a source of countermemory and potential agency Conceived as conversations these essays brilliantly reflect that ethos as they re read the cultural events of the past fifty years
