Generalization in Ethics, Etc Marcus George SINGER, 1963 Morality and Universality N.T. Potter, Mark Timmons, 2012-12-06

In the past 25 years or so the issue of ethical universalizability has figured prominently in theoretical as well as practical ethics. The term universalizability used in connection with ethical considerations was apparently first introduced in the mid 1950s by R M Hare to refer to what he characterized as a logical thesis about certain sorts of evaluative sentences. Hare 1955. The term has since been used to cover a broad variety of ethical considerations including those associated with the ideas of impartiality, consistency, justice, equality and reversibility, as well as those raised in the familiar questions: What if everyone did that? and How would you like it if someone did that to you? But this recent efflorescence of the use of the term universalizability is something that has deep historical roots and has been central in various forms to the thinking about morality of some of the greatest and most influential philosophers in the western tradition. While the term is relatively new, the ideas it is now used to express have a long history. Most of these ideas and questions have been or can be formulated into a principle to be discussed, criticized or defended. As we discuss these ideas below, this principle will be stated on a separate numbered line. The concepts of justice and equality were closely linked in Greek thought. These connections between these two concepts are apparent even in two authors who were hostile to the connection: Plato and Aristotle.

THE GENERALIZATION PRINCIPLE IN ETHICS. HOLLY MARTIN SMITH GOLDMAN, 1972 **The Generalization Principle in Ethics** Richard Wayne Eggerman, 1970 Encyclopedia of Ethics Lawrence C. Becker, Charlotte B. Becker, 2013-10-18

The editors working with a team of 325 renowned authorities in the field of ethics have revised, expanded and updated this classic encyclopedia. Along with the addition of 150 new entries, all of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout, and the overall design of the work has been enhanced for easier access to cross references and other reference features. New entries include: Cheating, Dirty hands, Gay ethics, Holocaust, Journalism, Political correctness and many more.

Generalization in Ethics Neil Allen Dorman, 1967 **Morality Within the Limits of Reason** Russell Hardin, 1988

This provocative, lucidly written reconstruction of utilitarianism focuses on the practical constraints involved in ethical choice. Information may be inadequate and understanding of causes and effects may be limited. Good decision making may be especially constrained if other people are closely involved in determining an outcome. Hardin demonstrates that many of these structural issues can and should be distinguished from the thornier problems of utilitarian value theory, and he is able to show what kinds of moral conclusions we can reach within the limits of reason.

On Justifying Moral Judgements (Routledge Revivals) Lawrence C. Becker, 2014-06-17

Much discussion of morality presupposes that moral judgments are always at bottom arbitrary. Moral

scepticism or at least moral relativism has become common currency among the liberally educated This remains the case even while political crises become intractable and it is increasingly apparent that the scope of public policy formulated with no reference to moral justification is extremely limited The thesis of *On Justifying Moral Judgments* insists on the contrary that rigorous justifications are possible for moral judgments Crucially Becker argues for the coordination of the three main approaches to moral theory axiology deontology and agent morality A pluralistic account of the concept of value is expounded and a solution to the problem of ultimate justification is suggested Analyses of valuation evaluation the is ought issue and the concepts of obligation responsibility and the good person are all incorporated into the main line of argument

Encyclopedia of Ethics: P-W Lawrence C. Becker, Charlotte B. Becker, 2001 A revised expanded and updated edition with contributions by 325 renowned authorities in the field of ethics All of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features

The Public Forum and Christian Ethics Robert Gascoigne, 2001 This book addresses the question of the communication of Christian ethics in the public forum of liberal pluralist societies Drawing on debates in philosophy theology and sociological theory it relates the problem of communication to fundamental questions about the nature of liberal societies and the identity of Christian faith and the Christian community With particular emphasis on Kantian and neo Kantian ethics it explores the link between autonomy and community in liberal societies The theology of *communio* expressed in revealed Christian traditions can reconcile autonomy and community Any Christian attempt to communicate this vision must also reflect on Christianity's own identity especially the ways in which its own self consciousness grows in critical interaction with secularity In this light Christian ethical communication is both a witness to a distinctive identity founded in the revelation of the triune God and a vision of universal human solidarity which can reconcile autonomy and community

The Ethics of Karl Barth Robert E. Willis, 2023-12-28 ***Conflicts of Law and Morality*** Kent

Greenawalt, 1989 Powerful emotion and pursuit of self interest have many times led people to break the law with the belief that they are doing so with sound moral reasons This study is a comprehensive philosophical and legal analysis of the gray area in which the foundations of law and morality clash In examining the extent of the obligations owed by citizens to their government Greenawalt concentrates on the possible existence of a single source of obligation that reaches all citizens and all laws
