## **Generation Victors:**

Stalin's Last Generation Juliane Fürst, 2010-09-30 Stalin's last generation was the last generation to come of age under Stalin yet it was also the first generation to be socialized in the post war period Its young members grew up in a world that still carried many of the hallmarks of the Soviet Union's revolutionary period yet their surroundings already showed the first signs of decay stagnation and disintegration Stalin's last generation still knew how to speak Bolshevik still believed in the power of Soviet heroes and still wished to construct socialism yet they also liked to dance and dress in Western styles they knew how to evade boring lectures and lessons in Marxism Leninism and they were keen to forge identities that were more individual than those offered by the state In this book Juliane Fürst creates a detailed picture of late Stalinist youth and youth culture looking at young people from a variety of perspectives as children of the war as recipients and creators of propaganda as perpetrators of crime as representatives of fledgling subcultures as believers as critics and as drop outs In the process she illuminates not only the complex relationship between the Soviet state and its youth but also provides a new interpretative framework for understanding late Stalinism the impact of which on Soviet society's subsequent development has hitherto been underestimated including its role in the ultimate demise of the USSR

**Berenice II and the Golden Age of Ptolemaic Egypt** Dee L. Clayman, 2014 Berenice II c 264-221 BCE daughter of King Magas of Cyrene and wife of Ptolemy III Euergetes came to embody all the key religious political and artistic ideals of Ptolemaic Alexandria Though she arrived there nearly friendless with the taint of murder around her she became one of the most accomplished and powerful of the Macedonian queens descended from the successors of Alexander the Great She was at the center of a group of important poets and intellectuals associated with the Museum and Library not the least of which was Callimachus the most important poet of the age These men wrote poems not just for her but about her and their eloquent voices projected her charisma widely across the Greek speaking world Though the range of Berenice's interests was impressive and the quantity and quality of the poetry she inspired unparalleled today she is all but known Assimilating the scant and scattered evidence of her life Dee L. Clayman presents a woman who was more powerful and fascinating than we had previously imagined Berenice II and the Golden Age of Ptolemaic Egypt offers a portrait of a woman who had access to the cultural riches of both Greece and Egypt and who navigated her way carefully through the opportunities and dangers they presented ultimately using them to accrue unprecedented honors that were all but equal to those of the king

*Victor Serge* Susan Weissman, 2014-04-15 Revolutionary novelist historian anarchist Bolshevik and dissident Victor Serge is one of the most

compelling figures to have emerged from the history of the Soviet Union A dedicated activist who joined the Bolsheviks in 1919 and fought in the siege of Petrograd only to be later consigned to poverty and persecution for rejecting both capitalism and Stalinism he was a keen observer of his times Carefully wrought and meticulously researched Susan Weissman's *Victor Serge* is the definitive biography of an extraordinary man *Soviet Veterans of the Second World War* Mark Edele, 2008-11-27 Millions of Soviet soldiers died in the USSR's struggle for survival against Nazi Germany but millions more returned to Stalin's state after victory Mark Edele traces the veterans' story from the early post-war years through to the end of the Soviet Union in 1991 He describes in detail the problems they encountered during demobilization the dysfunctional bureaucracy they had to deal with once back and the way their reintegration into civilian life worked in practice in one of the most devastated countries of Europe He pays particular attention to groups with specific problems such as the disabled former prisoners of war women soldiers and youth The study analyses the old soldiers' long struggle for recognition and the eventual emergence of an organized movement in the years after Stalin's death The Soviet state at first refused to recognize veterans as a group worthy of special privileges or as an organization They were not a group conceived of in Marxist-Leninist theory there was suspicion about their political loyalty and the leadership worried about the costs of affording a special status to such a large population group These preconceptions were overcome only after a long hard struggle by a popular movement that slowly emerged within the strict confines of the authoritarian Soviet regime **The Victor's Crown** David Potter, 2012 *The Victor's Crown* brings to vivid life the signal role of sport in the classical world Ranging over a dozen centuries from Archaic Greece through to the late Roman and early Byzantine empires David Potter's lively narrative shows how sport to the ancients was not just a dim reflection of religion and politics but a potent social force in its own right The passion for sport among the participants and fans of antiquity has been matched in history only by our own time Potter first charts the origins of competitive athletics in Greece during the eighth century BC and the emergence of the Olympics as a preeminent cultural event He focuses especially on the experiences of spectators and athletes especially in violent sports such as boxing and wrestling and describes the physiology of conditioning training techniques and sport's role in education Throughout we meet the great athletes of the past and learn what made them great The rise of the Roman Empire transformed the sporting world by popularizing new entertainments particularly gladiatorial combat a specialized form of chariot racing and beast hunts Here too Potter examines sport from the perspectives of both athlete and spectator as he vividly describes competitions held in such famous arenas as the Roman Coliseum and the Circus Maximus The Roman government promoted and organized sport as a central feature of the Empire making it a sort of common cultural currency to the diverse inhabitants of its vast territory While linking ancient sport to events such as religious ceremonies and aristocratic displays Potter emphasizes above all that it was the thrill of competition to those who competed and those who watched that ensured sport's central place in the Greco-Roman world Vivid and authoritative Potter skillfully reveals how the gymnasium

lay at the heart of Greek life and culture but his passion is clearly for the Olympics When Potter moves on to Roman sport things get livelier still He meticulously traces the origins careers and lifestyles of athletes gladiators and charioteers alike and demolished some cherished myths along the way Most gladiatorial combats apparently ended in surrender not death although a crowd might well call out ingula kill running their thousands of thumbs under their throats in the original thumbs up gesture Fascinating and impressive James McConnachie Sunday Times *Groundless Paths* Karl Brunnholz, 2012-08-14

The Abhisamayalamkara summarizes all the topics in the vast body of the praj aparamita sutras Resembling a zip file it comes to life only through its Indian and Tibetan commentaries Together these texts not only discuss the hidden meaning of the praj aparamita sutras the paths and bhumis of sravakas pratyekabuddhas and bodhisattvas but also serve as contemplative manuals for the explicit topic of these sutras emptiness and how it is to be understood on the progressive levels of realization of bodhisattvas Thus these texts describe what happens in the mind of a bodhisattva who meditates on emptiness making it a living experience from the beginner s stage up through buddhahood *Groundless Paths* contains the first in depth study of the Abhisamayalamkara the text studied most extensively in higher Tibetan Buddhist education and its commentaries from the perspective of the Nyingma School of Tibetan Buddhism This study consists mainly of translations of Maitreya s famous text and two commentaries on it by Patrul Rinpoche These are supplemented by three short texts on the paths and bhumis by the same author as well as extensive excerpts from commentaries by six other Nyingma masters including Mipham Rinpoche Thus this book helps close a long standing gap in the modern scholarship on the praj aparamita sutras and the literature on paths and bhumis in mahayana Buddhism Arya Maitreya s Ornament of Clear Realization with its Indian and Tibetan commentaries presents the complex dynamics of the path to liberation as a succession of realizations of the empty nature of all phenomena This presentation is a powerful antidote to whatever two dimensional views we might hold about spiritual experience and the journey to enlightenment *Sport in the Cultures of the Ancient World* Zinon Papakonstantinou, 2013-09-13

Sport has been practised in the Greco Roman world at least since the second millennium BC It was socially integrated and was practised in the context of ceremonial performances physical education and established local and international competitions including most famously the Olympic Games In recent years the continuous re assessment of old and new evidence in conjunction with the development of new methodological perspectives have created the need for a fresh examination of central aspects of ancient sport in a single volume This book fills that gap in ancient sport scholarship When did the ancient Olympics begin How is sport depicted in the work of the fifth century historian Herodotus What was the association between sport and war in fifth and fourth century BC Athens What were the social and political implications of the practice of Greek style sport in third century BC Ptolemaic Egypt How were Roman gladiatorial shows perceived and transformed in the Greek speaking east And what were the conditions of sport participation by boys and girls in ancient Rome These are some of the questions that this book written by an international cast of distinguished scholars on ancient

sport attempts to answer Covering a wide chronological and geographical scope ancient Mediterranean from the early first millennium BC to fourth century AD individual articles re examine old and new evidence and offer stimulating original interpretations of key aspects of ancient sport in its political military cultural social ceremonial and ideological setting This book was previously published as a special issue of the International Journal of the History of Sport *Life* John Ames Mitchell,1909 *You Are What You Are; Because of Who You Are* The Victor,2012-12-21 Seven salient points I want you to know and write in the marble of your heart Nothing just happens Anything good or bad happening to you is for a purpose you were born in riches or a rag for a purpose If you can identify with that purpose you will surely make your dreams a reality It is not what the enemy is doing to you that is killing you not the society you are in not the promises some politicians relatives and associates fail to keep not the family and community you came from it is what you have failed to do with yourself that is killing you Life failure is not the absence of opportunities but the absence of vision You will create whatever opportunities you want in life when you have a vision that is why you shouldnt fight your way to be in the presence of great men rather identify your gift and when you do it will make a way for you and bring you before great men If God can trust you He will increase your capacity to receive more from him And one of the reasons you are in the struggle and things dont seem to be working to your favor is because you have not earned Gods trust A man with a vision struggles less than a man without a vision to pursue goals to attain and targets to achieve Conceive your vision today and pursue it diligently because if you dont other people will hire you to pursue theirs God never created anybody useless if He knows you are useless why would He spend his resources to create you Your limitation is not entirely your situation but your understanding of who you are Biology is studied based on its definition same applies to life Your life is what you define it to be It would have been better if you were aborted at conception than to live through life not achieving your purpose Whom should I cry for the fellow who died untimely or the fellow that is alive and without a purpose **Beyond Victor's Justice? The Tokyo War Crimes Trial**

**Revisited** Yuki Tanaka,Timothy L.H. McCormack,Gerry Simpson,2011-06-09 The aim of this new collection of essays is to engage in analysis beyond the familiar victor s justice critiques The editors have drawn on authors from across the world including Australia Japan China France Korea New Zealand and the United Kingdom with expertise in the fields of international humanitarian law international criminal law Japanese studies modern Japanese history and the use of nuclear chemical and biological weapons The diverse backgrounds of the individual authors allow the editors to present essays which provide detailed and original analyses of the Tokyo Trial from legal philosophical and historical perspectives Several of the essays in the collection are based on the authors extensive archival research in Japan Australia the United States and New Zealand providing rich insights into Japanese societal attitudes towards the Trial biological experimentation by the Japanese Army in China as well as the trial of Korean prison guards and prosecutions for rape and sexual assault in the post war period Some of the essays deal with particular participants in the Trial examining the role of individual judges and the selection of

defendants and the decision not to prosecute the Emperor Other essays analyse the Trial from a legal perspective and address its impact on concepts such as command responsibility conspiracy and war crimes The majority of the essays seek to identify and address some of the forgotten crimes in the Tokyo Trial These include crimes committed in China and Korea particularly the activities of the infamous Unit 731 crimes committed against comfort women and crimes associated with the atomic bombings of Hiroshima and Nagasaki the conventional firebombing of other Japanese cities and the illicit drug trade in China Finally the collection includes a number of essays which consider the importance of studying the Tokyo Trial and its contemporary relevance These issues include an examination of the way in which academics have written the Trial over the last 60 years and an analysis of some of the lessons that can be drawn for international trials in the future **Descriptive and Historical Catalogue ...** ,1901 *Descriptive and Historical Catalogue of the Pictures in the National Gallery* National Gallery (Great Britain),1894

Cristaudo,2019-10-16 Ever since Plato made the case for the primacy of ideas over names philosophy has tended to elevate the primacy of its ideas over the more common understanding and insights that are circulated in the names drawn upon by the community Commencing with a critique of Plato s original philosophical decision Cristaudo takes up the argument put forward by Thomas Reid that modern philosophy has generally continued along the way of ideas to its own detriment His argument identifies the major paradigmatic developments in modern philosophy commencing from the new metaphysics pioneered by Descartes up until the analytic tradition and the anti domination philosophies which now dominate social and political thought Along the way he argues that the paradigmatic shifts and break downs that have occurred in modern philosophy are due to being beholden to an inadequate sovereign idea or small cluster of ideas which contribute to the occlusion of important philosophical questions In addition to chapters on Descartes and the analytic tradition and anti domination philosophies his critical history of modern philosophy explores the core ideas of Locke Berkeley Malebranche Locke Hume Reid Kant Fichte Hegel Schelling Marx Kierkegaard Schopenhauer Nietzsche Husserl and Heidegger The common thread uniting these disparate philosophies is what Cristaudo calls ideaism sic Rather than expanding our reasoning capacity ideaism contributes to philosophers imposing dictatorial principles or models that ultimately occlude and distort our understanding of our participative role within reality Drawing upon thinkers such as Pascal Vico Hamann Herder Franz Rosenzweig Martin Buber and Eugen Rosensock Huessy Cristaudo advances his argument by drawing upon the importance of encounter dialogue and a more philosophical anthropological and open approach to philosophy *Olympic Victor Lists and Ancient Greek History* Paul Christesen,2007-10-22 This book is a comprehensive examination of Olympic victor lists The origins development content and structure of Olympic victor lists are explored and explained and a number of important questions such as the source and reliability of the year of 776 for the first Olympics are addressed Olympic victor lists emerge as a clearly defined type of literature that is best understood as a group of closely related texts This book offers a

fresh perspective on works by familiar writers such as Diodorus Siculus and a sense of the potential importance of less well known authors such as Phlegon of Tralleis      **The Edinburgh Review** ,1878      The Edinburgh Review, Or Critical Journal ,1879      *The Victor Sayings in the Book of Revelation* Mark Wilson,2007-10-01 This is the first major study to focus solely on the victor sayings and should prove invaluable to scholars and students of Revelation and apocalyptic literature It demonstrates that the motif of victory is Revelation s macrodynamic theme Chiasmus is proposed as the book s macrostructure based in part on the chiastic nature of the promises to the victors with the later fulfillment of these promises in the book The proposed forms for the seven letters forms such as edicts oracles and epistles are examined and it is concluded that they are a mixtum compositum best called prophetic letters The sociological significance of victory is explored within the Greco Roman world The text of the promises and their co texts as reflected intertextually in traditions of biblical literature receive thorough examination The eschatological fulfillment of the victor sayings is surveyed in Revelation s later chapters especially in chapters 21 22 where the new Jerusalem is depicted The study concludes with an investigation of the ways that the promises were appropriated for the time and the text world of Revelation
