Achieving Financial Independence Retiring Early* Melvin Greene, 2020-05-04 A F I R E By Melvin Greene Melvin Greene understood at an early age that serving a company for over thirty years would not allow him to retire at his desired age of fifty five He knew retirement was attainable but wondered if he would be able to afford a lifestyle of ease comfort and freedom The aim at some point in life was to experience and enjoy the residual of his hard work The reality for most hard working Americans is that after they retire they will need a part time job to support themselves financially He knew concepts such as investment strategies planning for retirement and estate planning were not freely shared The people who could profit from these approaches were usually not privy to this information and the people who knew did not often share Melvin was on a mission to discover what most people would not share He worked the nine to five job and invested the money he would have spent on lunch Instead of purchasing extravagant items he invested While others were buying fancy clothes he was buying stocks and bonds Melvin taught hundreds of others to do the same It was a paradigm shift in thinking A F I R E will show you how to do the same He is not knocking fancy items in fact he now owns them But they came only after his nest egg was secured Throughout this book Melvin invites you to understand how to invest so you can be in the driver s seat He emphasizes that investing is a learned behavior It should give you hope that you can do the same with the right coach **The Millionaire Within** Walter Wisniewski ,Allison Vanaski ,2018-01-31 Every journey must begin with a few tentative steps Some are baby steps and some are taken in leaps and bounds Our journey as father and daughter is a unique one because it began with both In our financial planning practice over the years we discovered through our interactions with clients our meetings were not about stock market returns but more about the behavioral aspects of finance This may be an investment book but it is not about the mechanics of investing It s more about enriching your future by embracing your capacity to change your perspectives about money Intelligent financial decision making is not about money It s about emotions and behavior and unleashing the power that lies within you Keywords Financial Planning Wealth Management Decision Making Investing Finance **The Future of Leadership** Michael A Genovese, 2015-07-24 The Future of Leadership considers how the rapid changes of today will affect the leaders of tomorrow Renowned Leadership scholar Michael A Genovese argues that one of the key challenges for future leaders will be to effectively and constructively manage the hyper change taking place both within organizations and in the broader social and political spheres Taking a Futures Studies approach to envision the state of leadership in the coming decades Genovese also provides case studies of leaders who have already demonstrated the mind and skill sets necessary to successfully manage rapid change **What's Next, Gen X?** Tamara J.
