Generation Apart:

Between Generations Victoria Ford Smith, 2017-08-07 Winner of the Children's Literature Association's 2019 Book Award
Between Generations is a multidisciplinary volume that reframes children as powerful forces in the production of their own literature and culture by uncovering a tradition of creative collaborative partnerships between adults and children in nineteenth and early twentieth century England The intergenerational collaborations documented here provide the foundations for some of the most popular Victorian literature for children from Margaret Gatty's Aunt Judy's Tales to Robert Louis Stevenson's Treasure Island Examining the publication histories of both canonical and lesser known Golden Age texts reveals that children collaborated with adult authors as active listeners coauthors critics illustrators and even small scale publishers These literary collaborations were part of a growing interest in child agency evident in cultural social and scientific discourses of the time Between Generations puts these creative partnerships in conversation with collaborations in other fields including child study educational policy library history and toy culture Taken together these collaborations illuminate how Victorians used new critical approaches to childhood to theorize young people as viable social actors Smith's work not only recognizes Victorian children as literary collaborators but also interrogates how those creative partnerships reflect and influence adult child relationships in the world beyond books Between Generations breaks the critical impasse that understands children's literature and children themselves as products of adult desire and revises common constructions of childhood that frequently and often errantly resign the young to passivity or powerlessness **Generations Past** Andrew Burton, H  l  ne Charton-Bigot, 2010-09-15 Contemporary Africa is demographically characterized above all else by its youthfulness In East Africa the median age of the population is now a striking 17.5 years and more than 65 percent of the population is age 24 or under This situation has attracted growing scholarly attention resulting in an important and rapidly expanding literature on the position of youth in African societies While the scholarship examining the contemporary role of youth in African societies is rich and growing the historical dimension has been largely neglected in the literature thus far Generations Past seeks to address this gap through a wide ranging selection of essays that covers an array of youth related themes in historical perspective Thirteen chapters explore the historical dimensions of youth in nineteenth twentieth and twenty first century Ugandan Tanzanian and Kenyan societies Key themes running through the book include the analytical utility of youth as a social category intergenerational relations and the passage of time youth as a social and political problem sex and gender roles among East African youth and youth as historical agents of change The strong list of contributors includes prominent scholars of the region and the collection encompasses a good geographical spread of all three East African countries Between Civic and Ethnic Xiaokun Song, 2009 In a descriptive analysis of elitist nationalist ideologies in Taiwan this study challenges the traditional Western distinction between civic nationalism and ethnic nationalism Instead this discussion contends that the fluid historical context must always be taken into account An overview of nationalist unrest

in Taiwan over a century includes Japanese colonization 1895 1945 four decades of martial law 1945 1985 and afterwards 1986 2000

The Eugenics Review ,1924 *Post-Soviet Legacies and Conflicting Values in Europe* Lena Surzhko-Harned,Ekaterina Turkina,2017-11-22 Generational conflicts occur in any society and prove to be both a puzzle and a rite of passage for every generation Older generations often find it difficult to relate to the younger generations Yet as every generation comes of age it leaves an impact on societal structures as a whole Between baby boomers and millennials societal norms and values transform in new and unexpected ways While globalization has greatly contributed to the generational gaps world over the post communist transition which occurred in the wake of the collapse of the USSR left lasting and profound effects on these transitioning societies This book investigates the generational conflict in the post Soviet societies and argues that the generational divide runs deep The post Soviet generation Generation WhY has not dealt with the experience of old Soviet structures and they do not share the same values and norms as their parents and grandparents Individualism lack of trust in state institutions independence and entrepreneurial spirit run high among the members of the perestroika generation Yet we still find differences between societies While the Russian Ukrainian conflict has its roots in a number of deeply seeded issues this analysis shows that the generational gap is a part of the problem This book also offers conclusive evidence to suggest that the members of the post Soviet generation can be part of the solution

Settersten,Glen H. Elder,Lisa D. Pearce,2021-02-17 History carves its imprint on human lives for generations after When we think of the radical changes that transformed America during the twentieth century our minds most often snap to the fifties and sixties the Civil Rights Movement changing gender roles and new economic opportunities all point to a decisive turning point But these were not the only changes that shaped our world and in Living on the Edge we learn that rapid social change and uncertainty also defined the lives of Americans born at the turn of the twentieth century The changes they cultivated and witnessed affect our world as we understand it today Drawing from the iconic longitudinal Berkeley Guidance Study Living on the Edge reveals the hopes struggles and daily lives of the 1900 generation Most surprising is how relevant and relatable the lives and experiences of this generation are today despite the gap of a century From the reorganization of marriage and family roles

and relationships to strategies for adapting to a dramatically changing economy the challenges faced by this earlier generation echo our own time Living on the Edge offers an intimate glimpse into not just the history of our country but the feelings dreams and fears of a generation remarkably kindred to the present day Migrants and Their Children in Britain Anthony Heath, 2016-01-22 Do second generation ethnic minorities those born and brought up in Britain increasingly adopt British attitudes values and ways of life or do they as some commentators have claimed remain isolated from the mainstream This study maps the extent of generational change among Britain's ethnic minority population and explores the underlying processes involved It asks whether generational change has been in the direction of greater integration or whether some minorities been slower to integrate perhaps as a result of the prejudice and discrimination from the white British that they have encountered or because of desires to maintain ethnic values and resist Western practices The study draws on the most recent and most authoritative British data to answer these questions Chapter authors include leading authorities both from Britain and America including Mary Waters Harvard Lucinda Platt LSE and Anthony Heath CBE Oxford and Manchester as well as a new generation of young scholars It will be essential reading both for students and scholars working on ethnic relations and for policy makers and the wider public interested in questions of social cohesion multiculturalism and integration This book was originally published as a special issue of Ethnic and Racial Studies **Asian American Religions** Tony Carnes, Fenggang Yang, 2004-05 Redraws old definitions of what it means to be religious and Asian American

KINSHIP AND SOCIAL ORGANISATION W. H. R. RIVERS, 2023-12-11 **Nathalie Sarraute and the Feminist Reader** Sarah Barbour, 1993 Situated at an intersection of feminist critical practice in the United States and feminist cultural theory in France Nathalie Sarraute and the Feminist Reader is an investigation of the way in which this French New Novelist's first eight works in their increasing dramatization of the issue of reading problematize certain feminist literary analyses especially in relation to l'écriture féminine After an exploration of the difficulty Sarraute's writing poses for the critical enterprise through a lengthy reading of Sarrautian criticism in the U S and France Sarah Barbour shows how Sarraute's works eventually prohibit any fixed reading and open up instead a space in which we as readers are moved toward a more personal understanding of our use of narrative and of socio sexual constructs in the continual day to day constitution and reconstitution of subjectivity Nathalie Sarraute conceives of the evolution of the novel as a movement through history and thus situates her work within a tradition of psychological realism at the same time that she proposes radical innovations of the tradition Her novels do not discard or revise past works but rather internalize them in an effort to expand the notion of what is possible for psychological realism This study takes as its model Sarraute's example of simultaneity which invites an understanding of time both as a diachronic movement through phases from the psychological realism of Dostoyevski to that of Kafka to her own and as a synchronic encounter that elicits simultaneous relationships to different phases Within the movement of feminist literary criticism scholars have often discerned what are also referred to as phases that is criticism in

the United States has moved from its initial concern with images of women in fiction by male writers to a desire to establish a feminine tradition of women's writing Nathalie Sarraute and the Feminist Reader is not an attempt to claim that Sarraute's work represents écriture féminine Reading Sarraute's novels in their evolution Sarah Barbour has found that they forced her own reading and understanding of this term to evolve She therefore proposes that the novels open up a space that is beyond the frozen shells of gender which continue to bind women and men personally and critically The power of Sarraute's work lies in the solitary experience of our encounter with her presentation and perception of reality In this encounter we are forced to experience the fluid nature of subjectivity that is to internalize and explore differences within personal and sexual identity that by extension affect the identity of larger political movements

Japan's Changing Generations Gordon Mathews, Bruce White, 2012-10-02 This book argues that the generation gap in Japan is something more than young people resisting the adult social order before entering and conforming to that order Rather it signifies something more fundamental the emergence of a new Japan which may be quite different from the Japan of postwar decades It argues that while young people in Japan in their teens twenties and early thirties are not engaged in overt social or political resistance they are turning against the existing Japanese social order whose legitimacy has been undermined by the past decade of economic downturn The book shows how young people in Japan are thinking about their bodies and identities their social relationships and their employment and parenting in new and generationally contextual ways that may help to create a future Japan quite different from Japan of the recent past
