environment rather than simply become the victim of forces beyond one's control Time and again Freedman demonstrates that the inherent unpredictability of this environment subject to chance events the efforts of opponents the missteps of friends provides strategy with its challenge and its drama Armies or corporations or nations rarely move from one predictable state of affairs to another but instead feel their way through a series of states each one not quite what was anticipated requiring a reappraisal of the original strategy including its ultimate objective Thus the picture of strategy that emerges in this book is one that is fluid and flexible governed by the starting point not the end point A brilliant overview of the most prominent strategic theories in history from David's use of deception against Goliath to the modern use of game theory in economics this masterful volume sums up a lifetime of reflection on strategy *The ^AShield and the Cloak* Gary Hart,2006-02-16 Gary Hart has long been one of the nation's foremost experts on national security with first hand experience of the political realities that shape foreign policy In this thought provoking book in clear simple prose Hart outlines the fundamental changes which America must make to counter the present terrorist threat He argues for a security of the commons contending that to counter terrorism we need both a shield for the homeland as well as a cloak of non military security including security of income community environment and energy **Strategy** Lawrence Freedman,2015 One of the world's leading authorities on war and international politics synthesizes the vast history of strategy's evolution in this consistently engaging and surprising account of how it came to pervade every aspect of life **The Ashgate Research Companion to Political Violence** Marie Breen-Smyth,2016-03-23 Aimed at scholars students and lay persons interested in peace and conflict studies The Ashgate Research Companion to Political Violence is a comprehensive resource to understand the principal debates on political violence a field which is becoming an increasingly important part of courses on peace and conflict Organized into seven main sections this volume deals with a wide range of issues covering the following important research areas Issues of definition and nomenclature and how contests over these relate to political violence Theoretical frameworks and methods for understanding and researching political violence Motivations and goals of those who use political violence The various forms of political violence Perspectives on countering political violence by state and non state actors Why and how political violence ends The aftermath of political violence Contributions by leading scholars in the field provide an authoritative guide and source book on political violence for the scholar the researcher and the informed general reader *Global Politics of Defense Reform* T. Stop Mugging Grandma Jennie Bristow,2019-08-13 A decisive intervention in the war between generations asking who stands to gain from conflict between baby boomers and millennials Millennials have been incited to regard their parents generation as entitled and selfish and to blame the baby boomers of the Sixties for the cultural and economic problems of today But is it true that young people have been victimized by their elders In this book Jennie Bristow looks at generational labels and the groups of people they apply to Bristow argues that the prominence and popularity of terms like baby boomer millennial and snowflake in mainstream media operates as a smoke screen directing attention away from important issues such as housing education pensions and employment Bristow systematically disputes the myths that surround the generational war exposing it to be nothing more than a tool by which the political and social elite can avoid public scrutiny With her lively and engaging style Bristow highlights the major issues and concerns surrounding the sociological blame game

Rumsfeld's War Rowan Scarborough,2013-02-05 Not since Robert McNamara has a secretary of defense been so hated by the military and derided by the public yet played such a critical role in national security policy with such disastrous results Donald Rumsfeld was a natural for secretary of defense a position he d already occupied once before He was smart He worked hard He was skeptical of the status quo in military affairs and dedicated to high tech innovations He seemed the right man at the right time but history was to prove otherwise Now Dale Herspring a political conservative and lifelong Republican offers a nonpartisan assessment of Rumsfeld s impact on the U S military establishment from 2001 to 2006 focusing especially on the Iraq War from the decision to invade through the development and execution of operational strategy and the enormous failures associated with the postwar reconstruction of Iraq Extending the critique of civil military relations he began in The Pentagon and the Presidency Herspring highlights the relationship between the secretary and senior military leadership showing how Rumsfeld and a handful of advisers notably Paul Wolfowitz and Douglas Feith manipulated intelligence and often ignored the military in order to implement their policies And he demonstrates that the secretary s domineering leadership style and trademark arrogance undermined his vision for both military transformation and Iraq Herspring shows that contrary to his public deference to the generals Rumsfeld dictated strategy and operations sometimes even tactics to prove his transformation theories He signed off on abolishing the Iraqi army famously refused to see the need for a counterinsurgency plan and seemed more than willing to tolerate the torture of prisoners Meanwhile the military became demoralized and junior officers left in droves Rumsfeld s Wars revisits and reignites the concept of arrogance of power once associated with our dogged failure to understand the true nature of a tragic war in Southeast Asia It provides further evidence that success in military affairs is hard to achieve without mutual respect between civilian authorities and military leaders and offers a definitive case study in how not to run the office of

secretary of defense Global Insurgency and the Future of Armed Conflict Regina Karp, Aaron Karp, Terry Terriff, 2010-04-05 This volume covers a timely debate in contemporary security studies can armed forces adjust to the rising challenge of insurgency and terrorism the greatest transformation in warfare since the birth of the international system Containing essays by leading international security scholars and military professionals it explores the Fourth Generation Warfare thesis and its implications for security planning in the twenty first century No longer confined to the fringes of armed conflict guerrilla warfare and terrorism increasingly dominate world wide military planning For the first time since the Vietnam War ended the problems of insurgency have leapt to the top of the international security agenda and virtually all countries are struggling to protect themselves against terrorist threats Coalition forces in Afghanistan and Iraq are bogged down by an insurgency and are being forced to rely on old warfare tactics rather than modern technologies to destroy their adversaries These theorists argue that irregular warfare insurgencies and terrorism has evolved over time and become progressively more sophisticated and difficult to defeat as it is not centred on high technology and state of the art weaponry Global Insurgency and the Future of Armed Conflict will be of interest to students of international security strategic studies and terrorism studies *Manitowapow* Warren Cariou, Niigaanwewidam James Sinclair, 2012 Beginning with traditional writing systems Manitowapow shares diverse Indigenous perspectives and histories from the late 1700s through to the present day in what is now Manitoba Discover works by historically significant figures well known writers contemporary leaders storytellers and Knowledge Keepers and vibrant new voices *Lakhota* Rani-Henrik Andersson, David C.
