Transformative Journeys Cong Ellen Zhang, 2010-10-21 During the Song 960-1279 all educated Chinese men traveled frequently journeying long distances to attend school and take civil service examinations. They crisscrossed the country to assume government posts, report back to the capital and return home between assignments and to attend to family matters. Based on a wide array of texts, *Transformative Journeys* analyzes the impact of travel on this group of elite men and the places they visited. In the first part of the book, Cong Ellen Zhang considers the practical aspects of travel during the Song in the context of state mobilization of and assistance to government travelers, including the infrastructure of waterways and highways, the bureaucratic procedures entailed in official travel, and the means of transport and types of lodging. The second part of the book focuses on elite activities on the road, especially the elaborate farewell banquets, welcoming ceremonies, and visits to famous places. Zhang argues convincingly that abundant travel experience became integral to Song elite identity and status, greatly strengthening the social and cultural coherence of the practitioners. In promoting their experience of traveling across a large empire, Song elite men firmly established their position as the country's political, social, and cultural leaders. The literary compositions and physical traces they left behind also formed an overlapping web of collective memories, continually enhancing local pride and defining the place of various localities in the cultural geography of the country. *Transformative Journeys* sheds new light on the nature of Chinese literati, their dominance of culture and society, and China's social and cultural integration. Those interested in premodern China and travel literature will find a wealth of material previously unavailable to Western readers. Whilst many people may desire financial freedom, few find it. There is good news: A few simple changes based on biblical wisdom, and you can be on a clear path to financial freedom. This book will help you get there. **Latin American Women Writers: An Encyclopedia** María Claudia André, Eva Paulino Bueno, 2014-01-09 *Latin American Women Writers: An Encyclopedia* presents the lives and critical works of over 170 women writers in Latin America between the sixteenth and twentieth centuries.
