*The Theory of Creation* Jim Schicatano,2001-10 Can the Biblical account of creation be reconciled with current scientific beliefs For over a century the Holy Bible s story of creation has come under considerable scrutiny and derision by the scientific community The length of creation days the Biblical order of creation and man s origin have all been the subjects of heated debates debates that cast further doubts on Biblical accuracy But is such derision warranted The Theory of Creation

boldly answers that very question Rather than denounce other theories or repudiate accepted scientific beliefs this is a comprehensive and objective analysis of the first story of the Bible Genesis 1 1 2 4 Each verse is carefully examined for its scientific meaning the original Hebrew text is often referenced popular theories are explored and the purpose and implications of God's actions are addressed Finally the Biblical account of creation is compared to the scientific record In this era of moral relativism when Biblical values are condemned and the sanctity of the Holy Bible is often ridiculed validation of the creation story would be a source of inspiration for believers everywhere In *The Theory of Creation* Jim Schicatano answers the enduring questions of science and resolves the Biblical Creation debate

**War Time Preaching and Teaching** Jeffrey J. Richards, 2012-10-22 *War Time Preaching and Teaching* explores the hermeneutics science of interpretation and homiletics art of preaching of both Rudolf Bultmann and Dietrich Bonhoeffer The book explores the thought and impact of these two theologians primarily within the American debate Both Bultmann and Bonhoeffer are somewhat misunderstood and it seems that they are either totally accepted or rejected depending in many instances on one's personal understanding of their method of biblical interpretation The book attempts to objectively view their methods of biblical interpretation and how they expressed their research in their writings preaching and teaching Both concluded that the presenting of the Gospel in a relevant manner is the ultimate need for humankind today Both lived during a most challenging period of world history but were able to communicate in a captivating

manner Certainly the times in which we live today call for those who possess a similar commitment

**The Battle for the Beginning** John F. MacArthur, 2005-03-20 The battle lines have been drawn Is the enemy winning Thanks to the theory of evolution writes best selling author John MacArthur naturalism is now the dominant religion of modern society Less than a century and a half ago Charles Darwin popularized the credo for this secular religion Naturalism has now replaced Christianity as the main religion of the Western world and evolution has become its principal dogma Many Christians who claim to believe that the Bible is God's revealed truth seem willing to allow modern scientific theories to replace the Genesis account of creation Such compromises present a conspicuous danger Bible teacher and pastor John MacArthur believes that in Genesis 1:3 we find the foundation of every doctrine that is essential to the Christian faith the vital underpinnings for everything we believe The Battle for the Beginning draws a clear line on today's theological landscape Everything in Scripture that teaches about sin and redemption assumes the literal truth of the first three chapters of Genesis If we wobble to any degree on the truth of this passage John MacArthur insists we undermine the very foundations of our faith [Catalog of Copyright Entries. **The Devil Wins** Dallas G. Denery, 2016-09-13 A bold retelling of the history of lying in medieval and early modern Europe Is it ever acceptable to lie This question plays a surprisingly important role in the story of Europe's transition from medieval to modern society According to many historians Europe became modern when Europeans began to lie that is when they began to argue that it is sometimes acceptable to lie This popular account offers a clear trajectory of historical progression from a medieval world of faith in which every lie is sinful to a more worldly early modern society in which lying becomes a permissible strategy for self defense and self advancement Unfortunately this story is wrong For medieval and early modern Christians the problem of the lie was the problem of human existence itself To ask Is it ever acceptable to lie was to ask how we as sinners should live in a fallen world As it turns out the answer to that question depended on who did the asking The Devil Wins uncovers the complicated history of lying from the early days of the Catholic Church to the Enlightenment revealing the diversity of attitudes about lying by considering the question from the perspectives of five representative voices the Devil God theologians courtiers and women Examining works by Augustine Bonaventure Martin Luther Madeleine de Scudéry Jean Jacques Rousseau and a host of others Dallas G Denery II shows how the lie long thought to be the source of worldly corruption eventually became the very basis of social cohesion and peace

**Earth, Fire, and Sea** R. Russell Bixler, 1986 How do you understand the first three verses of the Bible Be careful your answer may tell more than you realize In this in depth study Russ Bixler critiques the popular theory that these verses describe a creation out of nothing as well as the theory of evolution Instead he shows from the original Hebrew how the Creation week is a recent event 6 000 10 000 years ago and how the primeval universe and earth can still be billions of years old This book will change forever your thinking about Creation

**Creation and the Environment** Calvin Redekop, 2003-04-01 Recent years have seen a shift in the belief that a religious world view specifically a Christian one precludes a commitment to environmentalism Whether as stewards of God's creation or champions of environmental justice church members have increasingly found that a strong pro ecology stand on environmental issues is an integral component of their faith But not all Christian denominations are latecomers to the issue of environmentalism In Creation and the Environment Calvin W Redekop and his co authors explain the unique environmental position of the Anabaptists in particular the Mennonites After a brief survey of the major forces contributing to the world's present ecological crisis Creation and the Environment explores the uniquely Anabaptist view of our relationship to what they see as the created order In rural Amish and Mennonite communities they explain the environment especially the land is considered part of the Kingdom God plans to establish on earth In this view the creation is part of the divine order with the redemption of humankind inextricably linked to the redemption and restoration of the material world The well being a purpose of creation and human history are thus seen as completely interdependent Contributors Donovan Ackley III Claremont Graduate School Kenton Brubaker Eastern Mennonite University Thomas Finger Claremont Graduate School Karen Klassen Harder Bethel College Kansas James Harder Bethel College Kansas Lawrence Hart Cheyenne Cultural Center Clinton Oklahoma Theodore Hiebert McCormick Theological Seminary Karl Keener Pennsylvania State University Walter Klaassen Conrad Grebel College David Kline Holmes County Ohio Calvin W Redekop Conrad Grebel College Mel Schmidt Dorothy Jean Weaver Eastern Mennonite University Michael Yoder Northwestern College Iowa
