Jacob's Wealth Paul Vrolijk, 2011-05-10 To study the nature and role of material possessions in the Jacob cycle will result in a deeper understanding of the Jacob story itself within the wider context of Genesis and the Pentateuch

Assimilation Versus Separation Aaron Wildavsky, 2001-09-01 How to behave in the diaspora has been a central problem for Jews over the ages They have debated whether to assimilate by adopting local customs or whether to remain a God centered people loyal to their temporal rulers but maintaining the peculiar customs that separated them from their host nations The question not only of survival but of the basis for survival is also a central problem in the Joseph stories of the Book of Genesis The work shows its readers the grand alternatives of Judaism instilled in two larger than life figures so its readers can reassess for themselves the road Judaism did not take and understand why Joseph though admirable in many respects is left out of the rest of the Bible The question is answered through the stories about how Joseph the son of Jacob saved his people family from famine by becoming a high ranking administrator to Pharaoh By analyzing his behavior to the people over whom he exercises power Joseph lords it over his brothers grieves his father takes lands from Egyptian farmers and engages in forced deportation Wildavsky explains why Joseph the assimilator is replaced in the Book of Exodus by Moses the lawgiver The book ends by demonstrating that Joseph and Moses are and are undoubtedly meant to be exact opposites As in his earlier book on The Nursing Father Moses as a Political Leader Wildavsky combines analysis of political and administrative leadership with both traditional and modern study of texts thematic linkages via plot grammar dreams poetry and religious doctrine Thus the chapter on Joseph the Administrator is preceded by a chapter on Joseph as The Dream Lord and followed by an analysis and explanation of why Jacob's obscure blessings to his sons are more like curses Always the emphasis is on the reciprocal influence of religion and politics on rival answers to questions about how Hebrews should relate to each other and to outsiders New in paperback the book will be of interest to biblical scholars and

magnets exert forces and torques on each other through the interaction of their magnetic fields the forces of attraction and

repulsion are a result of these interactions the magnetic field of each magnet is due to microscopic currents of electrically charged electrons orbiting nuclei and the intrinsic magnetism of fundamental particles such as electrons that make up the material both of these are modeled quite well as tiny loops of current called magnetic dipoles that produce their o
