## **Global Politics Of Nuclear Energy:**

International Politics of Nuclear Energy Charles K. Ebinger, 1978      *Global Politics of Nuclear Energy* Mason Willrich, 1971      *The National Politics of Nuclear Power* Benjamin K. Sovacool, Scott V. Valentine, 2012 This book offers a comprehensive assessment of the dynamics driving and constraining nuclear power development in Asia Europe and North America providing detailed comparative analysis The book formulates a theory of nuclear socio political economy which highlights six factors necessary for embarking on nuclear power programs 1 national security and secrecy 2 technocratic ideology 3 economic interventionism 4 a centrally coordinated energy stakeholder network 5 subordination of opposition to political authority and 6 social peripheralization The book validates this theory by confirming the presence of these six drivers during the initial nuclear power developmental periods in eight countries the United States France Japan Russia the former Soviet Union South Korea Canada China and India The authors then apply this framework as a predictive tool to evaluate contemporary nuclear power trends They discuss what this theory means for developed and developing countries which exhibit the potential for nuclear development on a major scale and examine how the new renaissance of nuclear power may affect the promotion of renewable energy global energy security and development policy as a whole The volume also assesses the influence of climate change and the recent nuclear accident in Fukushima Japan on the nuclear power industry's trajectory This book will be of interest to students of energy policy and security nuclear proliferation international security global governance and IR in general      Global Politics Stephanie Lawson, 2021 The most concise introduction to international relations covers all the essentials with learning features that link theories to the real world Global Politics is a concise and engaging introduction to international relations In it Stephanie Lawson introduces the key theories and concepts underpinning the discipline giving readers a foundation to study politics on both a personal and global scale including issues relating to gender sexuality and ethnicity as well as the economy environment and concepts of justice The textbook presents theories in their historical context demonstrating how they can evolve over time Case studies both contemporary and historical and biographies of key figures help bring these issues to life Additional features such as key debates and summary questions provide opportunities to analyse issues from a range of perspectives      The Global Politics of Power, Justice and Death Peter Anderson, 2005-07-15 A challenging yet readily accessible introduction to current global change which looks inter alia at the future of the state the environment war and global rivalries international political economy international law and the UN      **The Global Politics of Science and Technology - Vol. 1** Maximilian Mayer, Mariana Carpes, Ruth Knoblich, 2014-08-20 An increasing number of scholars have begun to see science and technology as relevant issues in International Relations IR acknowledging the impact of material elements technical instruments and scientific practices on international security statehood and global governance This two volume collection brings the debate about science and technology to the center of International Relations It shows how integrating science and technology translates into novel

analytical frameworks conceptual approaches and empirical puzzles and thereby offers a state of the art review of various methodological and theoretical ways in which sciences and technologies matter for the study of international affairs and world politics The authors not only offer a set of practical examples of research frameworks for experts and students alike but also propose a conceptual space for interdisciplinary learning in order to improve our understanding of the global politics of science and technology This first volume summarizes various time tested approaches for studying the global politics of science and technology from an IR perspective It also provides empirical theoretical and conceptual interventions from geography history innovation studies and science and technology studies that indicate ways to enhance and rearticulate IR approaches In addition several interviews advance possibilities of multi disciplinary collaboration

**New Directions in Global Political Governance** Junichi Takase, 2017-03-02 Focused on politics and security this volume extends the G8 and Global Governance series into the domain of international security in both its classic and newer forms Going beyond the conventional focus on globalization it takes up the central question of shaping international order looking at the emergence of several important phenomena including The advent of human security The global importance of once deeply domestic security issues Enhanced demands for civil society participation Sections on Japan s perspective on the G8 and international order critical issues in global security governance and the role of international institutions and American leadership therein make this a distinctive account of international security in the 21st century

**Northern Security and Global Politics** Ann-Sofie Dahl, Pauli Järvenpää, 2013-08-15 This book takes a comprehensive approach to security in the Nordic Baltic region studying how this region is affected by developments in the international system The advent of the new millennium coincided with the return of the High North to the world stage A number of factors have contributed to the increased international interest for the northern part of Europe climate change resulting in ice melting in Greenland and the Arctic and new resources and shipping routes opening up across the polar basin foremost among them The world is no longer unipolar and not yet multipolar but perhaps post unipolar indicating a period of flux and of declining US unipolar hegemony Drawing together contributions from key thinkers in the field Northern Security and Global Politics explores how this situation has affected the Nordic Baltic area by addressing two broad sets of questions First it examines what impact declining unipolarity with a geopolitical shift to Asia a reduced role for Europe in United States policy and a more assertive Russia will have on regional Nordic Baltic security Second it takes a closer look at how the regional actors respond to these changes in their strategic environment This book will be of much interest to students of Nordic and Baltic politics international security foreign policy and IR
