*Crafting Trade and Investment Accords for Sustainable Development* Marie-Claire Cordonier Segger,2021-06-17

International economic law guides and shapes globalization and the future of the world economy our human societies and the Earth The rules which facilitate trade and investment could defend the interests of Hermes Greek god of commerce and thieves or learn to draw inspiration from Athena goddess of justice wisdom and crafts This volume explores how trade and investment agreements could promote more sustainable development rather than increasing the negative social and environmental impacts of economic growth States and other actors are attempting to integrate social and environmental considerations into trade and investment policies towards more sustainable development Analysing their efforts this volume offers insights into the ways that commitments to sustainability are being operationalized in the texts of economic treaties themselves Written by a renowned expert jurist and professor of law this book examines the measures being debated in the WTO and adopted by States in a selection of innovative and flexible regional and bilateral trade and investment accords With legal examples spanning decades of experimentation and experience the book illuminates how States and stakeholders are seeking innovative ways to integrate environmental and social considerations into trade and investment agreements Introducing a ground breaking systematic approach the volume considers how through this integration international trade and investment law can contribute to the achievement of the world's Sustainable Development Goals

**The Social Footprints of Global Trade** Ali Alsamawi,Darian McBain,Joy Murray,Manfred Lenzen,Kirsten S. Wiebe,2017-04-09

This book discussing in detail the Social Life Cycle Assessment SLCA of the global economy using the comprehensive Multi Regional Input Output MRIO technique The content is presented in two parts the first of which offers an introduction to social accounting and how it has been developed over the past few years with details on the methodologies and databases used The second part of the book describes the footprints of the social accounts that have the highest impact on people's well being employment income working conditions and inequality and how they are linked to international trade The need for

reporting on such indicators falls within the purview of corporate national social responsibility part of the Triple Bottom Line The book offers a valuable contribution to the literature for researchers and students engaged in the social sciences human rights and the implications of international trade on labour in developing countries iv *Options for Global Trade Reform* Will Martin, Mari Pangestu, 2003-03-27 Despite the decision of the WTO members to launch a new round of negotiations at their Doha Ministerial in November 2001 developing countries continue to have very real concerns on a number of key issues The successful completion of the Doha trade round and the realization of the goals of its Development Agenda represent a major challenge for both the developed and the developing world The primary aim of this volume is to improve understanding of the issues the objectives of policy and the options for trade policy reform particularly as they impact on the Asia Pacific region A team of authors from developing and developed countries in the Asia Pacific identify ways in which progress might be made on the key negotiating topics including market access and related issues in agriculture non agriculture merchandise and in trade in services The World Trade Organization International Trade Law Center, Arthur E. Appleton, Michael G. Plummer, 2007-12-31 The editors have succeeded in bringing together an excellent mix of leading scholars and practitioners No book on the WTO has had this wide a scope before or covered the legal framework economic and political issues current and would be countries and a outlook to the future like these three volumes do 3000 pages 80 chapters in 3 volumes cover a very interdisciplinary field that touches upon law economics and politics **The Path Of World Trade Law In The 21st Century** Steve Charnovitz, 2014-11-07 The advent of the World Trade Organization WTO in 1995 transformed international economic law for states enterprises and nongovernmental organizations This book analyzes how the WTO is changing the path of international trade law and examines the implications of these trends for the world economy and the global environment Containing 18 essays published from 1999 to 2011 the book illuminates several of the most complex issues in contemporary trade policy Among the topics covered are Is there a normative theory of the WTO s purpose Can constitutional theory provide guidance to keep the WTO s levers in balance Should the WTO use trade sanctions for enforcement What can the WTO do to enhance sustainable development and job creation **Biosafety Measures, Technology Risks and the World Trade Organization** Alessandra Guida, 2022-12-23 This book examines the work of the World Trade Organization WTO with a focus on the capacity of its judiciary to strike a reasoned balance between free trade in biotechnology and biosafety as to promote the 2030 Agenda for Sustainable Development and its Sustainable Development Goals By adopting an innovative interpretation of the precautionary principle and proportionality analysis the work offers normative suggestions to develop what the author terms a constructive bridge of knowledge between decision makers scientists social experts and expert witnesses which can support a judicial balance by design rather than by chance Biotechnology is sometimes regarded as a panacea for modern day challenges such as feeding a growing world population and counteracting climate change problems and a means of offering significant economic opportunities However biotechnology can present uncertain though

serious risks to human health and the environment i.e biosafety Trading biotech products magnifies these risks and benefits globally This book explores the topical though still underexplored question of how to find a point of equilibrium between the revolutionary advancement offered by technology and the need to safeguard biosafety from uncertain though potentially irreversible technology risks It offers a thorough analysis of normative judicial and epistemic issues hindering a reasoned balance between trade and non trade interests under the WTO The work offers practical relevance for the resolution of legal disputes in contexts of uncertainty as well as innovative theoretical contributions It will be a valuable resource for policymakers working on precautionary governance and management scholars in the areas of trade law human rights law and environmental law law students and practitioners as well as NGOs working in the field of new technologies biosafety sustainability and food safety
